

PRISM by Addison Lee. Powering your *business*.

Designed by us, for you.

The all in one solution for ground *management*.

PRISM by Addison Lee is a ground breaking platform, built by us in collaboration with our customers. From live travel policy configuration to invoicing, our self-serve tool for ground travel management allows our business customers to manage their logistics in one place.

What PRISM offers

Platform capable

Our newly created, unparalleled Travel Policy builder, enables customers to call the shots. All your ground suppliers neatly wrapped within platform capable technology.

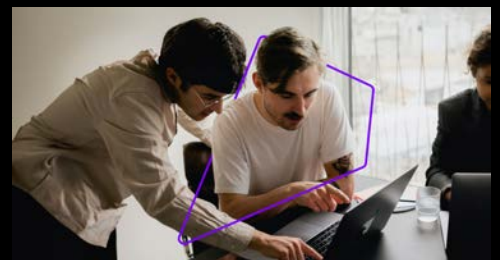

Travel management

Optimise your travel programme with PRISM's comprehensive and agile travel management features, including an easy to use travel policy builder to ensure seamless compliance and passenger satisfaction.

People Management

Manage your traveller profiles in real-time with PRISM's personalised user experience, including a new and improved onboarding flow.

Dashboard reporting

PRISM's centralised and transparent dashboard ensures you unlock the full potential of your travel data, including average journey cost and time.

Account Management

PRISM's integrated live customer service and resolution hub allows for easily accessible support from Addison Lee's dedicated Client Services teams.

Settings

PRISM offers immediate control and flexibility providing access to your account settings providing you with a fully customisable experience. Enable and disable services, add account addresses and update contact details.
