

What is Elevate?

Elevate is an initiative from BBC Content & Creative Diversity to help progress disabled talent in the TV industry.

Who can apply?

It's for experienced mid-level production talent who are deaf, disabled and/or neurodivergent.

Working in TV

Elevate matches candidates to a TV production company.

The only requirement is placements must be on BBC shows.

Elevate can also support candidates with tailored training, coaching and mentorship.

The right fit

We get to know the candidates' skills, experience, and goals. Elevate removes or reduces barriers to find the right placement for our candidates.

How it works

Candidates are employed directly by the host production companies on fixed-term contracts.

BBC Elevate funds a substantial part of the candidate's salary.

How to apply

Applications are currently closed but will open for new candidates in Autumn 2024.
