

Special Issue on Innovation and Industrial Management

Call for Papers

"It is not the strongest of the species that survives, nor the most intelligent that survives. It is the one that is the most adaptable to change". Charles Darwin had it right in his famous statement. In business terms, if organizations don't change what they offer and the way they create and deliver them, then they may not be around much longer.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **innovation and industrial management**. Potential topics include, but are not limited to:

- IT innovation
- Technological innovation
- Methods & measurement of innovation
- Innovation management
- Project management
- Supplier partnership and supply-chain management
- E-commerce and e-business
- Organizational psychology
- Marketing strategies and internationalization

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue – Innovation and Industrial Management**" should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 16th, 2015
Publication Date	February 2016
