

Special Issue on Business Information Management

Call for Papers

Business Information Systems underpin everything a business does. In an information age, with a focus on information as a key business resource, BIS has emerged as the key enabler of innovation and operational efficiency by ensuring the right information is available to the right people at the right time.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **business information management**. Potential topics include, but are not limited to:

- Business information systems
- Information technology
- Business analytics
- Big and smart data and artificial intelligence
- Business and enterprise modelling
- ICT project management
- Process management
- Smart infrastructures
- Social media and web-based business information systems
- Applications, evaluations, and experiences

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Business Information Management**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	August 30th, 2018
Publication Date	October 2018
