

Special Issue on Industrial Engineering and Management

Call for Papers

Industrial engineering is to study the design, improvement and implementation of integrated systems composed of people, materials, information, equipment and energy. It applies the knowledge and skills of mathematics, physics and social sciences, combined with the principles and methods of engineering analysis and design to illustrate, predict and evaluate the results of this integrated system. Modern industrial engineering includes production planning and inventory control, logistics transportation and storage, quality control and reliability industrial engineering training and education. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Industrial Engineering and Management**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Industrial Engineering and Management**. Potential topics include, but are not limited to:

- Manufacturing, control and automation
- Transportation, supply chain management
- Operations research & optimization
- Planning, scheduling, and project management
- Quality management and customer satisfaction
- Innovation and industrial management
- Marketing strategies and internationalization
- Market innovation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Industrial Engineering and Management**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 14th, 2020
Publication Date	November 2020

Scientific Research
Open Access

**American Journal of
Industrial and Business Management**
ISSN Online: 2164-5175
