

Special Issue on Economics and Business Research

Call for Papers

Economics is the study of how individuals, companies, governments, and countries choose to allocate resources to meet their needs, trying to determine how these groups should organize and coordinate their efforts to achieve maximum output. Business economics provides an analysis of the behavior of private companies operating in different types of market structures. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Economics and Business Research**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Economics and Business Research**. Potential topics include, but are not limited to:

- Finance, investment and risk
- Global business and international business
- Market economy
- Finance, investment and risk
- Commercial economics
- Innovation economics
- Transportation economics
- Economic growth and development
- Economic and social policy
- Statistics for business & economics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Economics and Business Research**” should be selected during your submission.
