

# Table of Contents

**Volume 10    Number 9**

**September 2019**

## **On Transient Simulation of Field Equations**

P. Chen.....719

## **Analysis of an Inventory System for Items with Stochastic Demand and Time Dependent Three-Parameter Weibull Deterioration Function**

N. P. Ophokenshi, C. W. I. Emmanuel, M. O. Sadik.....728

## **The Computational Complexity of Untrapped Choice Procedures**

M. B. Sanni.....743

## **Analytical Algorithm for Systems of Neutral Delay Differential Equations**

A. Barde, N. Maan.....753

## **Mathematical Modeling on Dynamic Characteristics of the Breakdown Process in Narrow-Gap of SF<sub>6</sub> Based on the FCT Algorithm**

Q. P. Zheng, D. C. Zheng.....769

## **Eigenvalue Computation of Regular 4th Order Sturm-Liouville Problems**

A. Alalyani.....784
