Special Issue on Education and Information Technologies

Call for Papers

Education and Information Technologies explores the integration of digital tools and resources in teaching and learning processes. This field examines how technology enhances educational practices, improves access to information, fosters collaboration, and supports personalized learning experiences. It includes the study of online learning platforms, digital literacy, and the impact of emerging technologies like artificial intelligence and virtual reality on education. Researchers in this domain aim to innovate pedagogical approaches and evaluate the efficacy of technology in enhancing educational outcomes.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Education and Information Technologies**. Potential topics include, but are not limited to:

- Online and distance education
- E-learning
- Web-based learning and mobile learning
- Digital literacy and competency
- Educational technology theory and practice
- Educational data mining and analytics
- Gamification and game-based learning
- Artificial intelligence in education
- Virtual and augmented reality in education
- Computer-assisted learning
- Collaborative learning technologies
- Educational technology innovation
- ICT in teacher education
- Digital educational resources and materials
- Educational robotics
- Intelligent educational systems
- Learning management system
- Evaluation and optimization of educational technologies
- Accessibility and inclusive education technology
- ICT in education
- Usage of internet and social media

Authors should read over the journal's [For Authors](#) carefully before submission.

Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](.).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue –** *Education and Information Technologies*" should be chosen during your submission.

According to the following timetable:

Submission Deadline	February 28th, 2025
Publication Date	April 2025

Guest Editor: Professor Dr. Abdel Karim ZAID (University of Lille, France)
