Table of Contents

Volume 12 Number 7

July 2024

Semantic Segmentation of the Intertidal Zone of an Estuary—In Search of the Best Solution

M. C. Proença, R. N. Mendes, R. Melo..... 1

Assessment of Occupational Radiation Exposure for Radiotherapy Healthcare Workers at Kenyatta National Hospital Using Thermoluminescence Dosimeter LiF:Mg,Ti

C. Omondi, M. Chege, S. Omondi..... 14

Potential Driving Systems Associated with Extreme Rainfall across East Africa during October to December (OND) Season 2019

C. Ingeri, W. Wen, J. N. Sebaziga, V. Iyakaremye,
S. Ekwacu, P. Ayabagabo, A. Twahirwa, J. Kazora 25

Characterisation of the Sediment Dynamics of the Sands of the Middle Course of the Kasai River (Territory of Ilebo, Province of Kasai/DR Congo)

L. T. M. Kitshabi, I. N. Tshiwisa, M. K. Muke, K. M. Thomas,
D. W. Osomba, E. C. Musau, A.-J. M. M. Ngwayaya 50

Local Plants Potentially Suitable for Phytoremediation of Soils Polluted by Heavy Metals: The Case of Landfill Sites

K. K. K. Gains, T. Mamadou, O. N. Doudjo, K. K. Claude, E. N. Moïse, O. Djibril, T. Seydou..... 72

Mapping Energy Expansion: Remote Sensing Insights into Oil and Gas Infrastructure and Land Use Changes in Midland, TX

N. Abdoli, M. Alipour, M. Pasokhi..... 89

Microbial Community with Potential for Metal Release Isolated from Palca Mine Tailings Pond in Peru

C. W. G. Moreno, B. Karolski, S. K. Utimura, R. C. Cabrera, J. A. C. Torres, D. M. C. Cotrina,
E. de Santis Braga, D. S. G. Fernandez, D. C. R. Espinosa, J. B. Sigolo..... 109

Analysis of Heavy Precipitation Process in Eastern China from July 26 to 29, 2022

Y. K. Zhang 122

Analysis of the Haze Weather Process in the East of China from January 21 to 28, 2021

R. C. Zhang 130

**Investigating the Air Quality Parameters in Louisiana’s Industrial Corridor:
A Baton Rouge Case Study**

O. Awolesi, P. G. Oni, O. K. Adekoya, S. B. Adekoya,

O. D. Ogunmusi, F. Ghafari, A. Oje, O. Lawal..... 139

**Review on the Impact of Climate Change on Great Lakes Region’s
Agriculture and Water Resources**

Call_for_Papers

Journal of Geoscience and Environment Protection (GEP)

ISSN 2327-4336 (Print) ISSN 2327-4344 (Online)

<https://www.scirp.org/journal/gep>

Journal of Geosciences and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

Environmental Protection

- Air Pollution
- Chemical Pollution
- Climate Change
- Disasters Management
- Environmental Earth Sciences
- Environmental Geology and Rehabilitation
- Environmental Law and Policies
- Environmental Risk
- Global Environmental Protection Technology
- Global Warming
- Landfill Waste Management
- Mineral Processing, Waste Management and Recycling
- Nuclear Energy and Environmental Protection
- Pollution Control and Technologies
- Soil Environment and Soil Science in Other Disciplines
- Sustainability of Resources and Environment
- Waste Water Management and Aquaculture
- Water Engineering
- Water Resources Management and Water Quality

Geoscience

- BioGeomarkers and Their Significance for Astrogeology and Astrobiology
- Crystallography and Mineralogy
- Education and Capacity Building in Geosciences
- Endogenous, Exogenous Petrology and Geochemistry
- Energy and Mineral Deposits
- Geodynamics
- Geoethics
- Geographic Information Science
- Geological Collections and Museology
- Geophysics
- Hydrology and Hydrogeology
- International Partnership in Geosciences
- Medical and Forensic Geology
- Meteorites and Planetary Geology
- Natural Hazards
- Paleontology
- Statistics and Data Analysis in Geology
- Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
