Special Issue on Management Information Systems

Call for Papers

A management information system (MIS) is an information system used for decision-making, and for the coordination, control, analysis, and visualization of information in an organization. The study of management information systems examines people, processes and technology in an organizational context.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Management Information Systems**. Potential topics include, but are not limited to:

- Decision making/support system
- Information system and organizational management
- Enterprise resource planning
- Supply chain and information management
- Customer relationship management
- Knowledge management system
- Computer information systems
- Data mining approach

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – *Management Information Systems***
" should be chosen during your submission.

According to the following timetable:

Submission Deadline	February 18th, 2020
Publication Date	April 2020
