

Special Issue on Dementia

Call for Papers

Dementia is a general term for a decline in mental ability severe enough to interfere with daily life. Memory loss is an example. Alzheimer's is the most common type of dementia.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **dementia**. Potential topics include, but are not limited to:

- Alzheimer's and Parkinson's disease
- Huntington's chorea and other neurodegenerative diseases
- Psychogeriatrics and clinical neurology
- Physiology, genetic molecular biology and immunology
- Pathology, pharmacology and pharmaceuticals
- Animal studies
- Clinical and therapeutic experience

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Dementia**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 25th, 2015
Publication Date	November 2015
