

Special Issue on Anesthesia & Perioperative Care

Call for Papers

Anesthesia enables the painless performance of medical procedures that would cause severe or intolerable pain to an unanesthetized patient. **Preoperative care** is the preparation and management of a patient prior to surgery. It includes both physical and psychological preparation.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **laparoscopic surgery**. Potential topics include, but are not limited to:

- General anesthesiology
- Anesthetic agents
- Pain management
- Anesthesia for diagnostic and therapeutic interventions
- Anesthesia and critical care
- Anesthesia and its associated complications
- Perioperative care and management
- Current research in anesthesia and perioperative care

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Anesthesia & Perioperative Care**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 22nd, 2016
Publication Date	May 2016
