
Special Issue on Oncology Clinical Practice

Call for Papers

Oncology is the field of medicine that is devoted to cancer. Clinical oncology consists of three primary disciplines: medical oncology (the treatment of cancer with medicine, including chemotherapy), surgical oncology (the surgical aspects of cancer including biopsy, staging, and surgical resection of tumors), and radiation oncology (the treatment of cancer with therapeutic radiation).

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Oncology Clinical Practice**. Potential topics include, but are not limited to:

- Clinical trials and outcomes
- Critical evaluation
- Radiation therapy
- Management and treatment
- Surgical approaches
- Detection and clinical features

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Oncology Clinical Practice**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	July 21st, 2020
Publication Date	September 2020

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
