
Special Issue on Skin Care and Aging

Call for Papers

Skin care is a series of practices that support the integrity of the skin, improve its appearance, and ease the condition of the skin. Skin care methods include cosmetics, exfoliation, skin resurfacing by laser, microdermabrasion and ultrasonic skin treatment, etc. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Cosmetic Chemistry.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Skin Care and Aging**. Potential topics include, but are not limited to:

- Age spots and skin tags
- Age-related skin changes
- Aging process
- Anti-aging
- Blepharoplasty
- Botulinum toxin
- Collagen
- Dry skin and itching
- Elastin
- Eyelid lift
- Fine lines
- Hydration
- Keratosis
- Moisturization
- Oxidative stress
- Skin aging and treatment
- Skin barrier function
- Skin care products
- Skin health
- Skin rejuvenation
- Skincare products
- Skincare routine
- Skincare technology
- Sun protection
- Types of skin aging

● Wrinkles

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Skin Care and Aging**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 20th, 2023
Publication Date	December 2023
