

Table of Contents

Volume 13 Number 4

October 2022

Meta-Review of Recent and Landmark Honeypot Research and Surveys

G. Ikuomenisan, Y. Morgan.....181

Systematic Review of Graphical Visual Methods in Honeypot Attack Data Analysis

G. Ikuomenisan, Y. Morgan.....210

Hybrid Successive CFA Image Encryption-Watermarking Algorithm Based on the Quaternionic Wavelet Transform (QWT)

H. A. Ndongo, M. Vournone, M. Pouyap, T. Ngakawa, P. A. Malobe.....244

Low-Density Parity-Check Codes: Research Status and Development Direction

J. Xu, Z. Y. Zheng, K. Tian.....257

Cyclic Lattices, Ideal Lattices and Bounds for the Smoothing Parameter

Z. Y. Zheng, F. X. Liu, Y. F. Lu, K. Tian.....272

Knowledge Management Strategy for Handling Cyber Attacks in E-Commerce with Computer Security Incident Response Team (CSIRT)

F. Fauziyah, Z. S. Wang, G. Joy.....294

Algorithms and Tools for Securing and Protecting Academic Data in the Democratic Republic of the Congo

G. Mugaruka Buduge, J. Ndikumagenge, J. Buhendwa Nyenyezi.....312

Security Analysis of a Privacy-Preserving Identity-Based Encryption Architecture

C. Adams.....323

Cybersecurity: Identifying the Vulnerability Intensity Function (*VIF*) and Vulnerability Index Indicator (*VII*) of a Computer Operating System

R. Karki, C. P. Tsokos.....337

The Role of Social Engineering in Cybersecurity and Its Impact

B. S. Almutairi, A. Alghamdi.....363
