

Special Issue on Psychiatry and Behavioral Health

Call for Papers

Psychiatry and Behavioral Health is a field of medicine that focuses on the diagnosis, treatment, and prevention of mental illnesses and behavioral disorders. It is concerned with the assessment and treatment of individuals experiencing emotional distress, mental illness, or other psychological issues that interfere with their quality of life. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Psychiatry and Behavioral Health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Psychiatry and Behavioral Health**. Potential topics include, but are not limited to:

- Anxiety disorders
- Addiction psychiatry
- Antipsychotic medications
- Brain disorders
- Behavioral therapy
- Child and adolescent psychiatry
- Dementia
- Electroconvulsive therapy
- Forensic psychiatry
- Geriatric psychiatry
- Personality disorders
- Psychosis
- Psychosomatic disorders
- Psychotherapy
- Sedatives and anxiolytics
- Sleep medicine
- Stimulants
- Antidepressants
- Mood stabilizers
- Mindfulness-based therapies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Psychiatry and Behavioral Health**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 15th, 2023
Publication Date	November 2023
