

Special Issue Negative Psychology Research

Call for Papers

Negative psychology is a personality variable that involves the experience of negative emotions and poor self-concept. Negative affectivity subsumes a variety of negative emotions, including anger, contempt, disgust, guilt, and fear, and nervousness. Low negative affectivity is characterized by frequent states of calmness and serenity, along with states of confidence, activeness, and great enthusiasm. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **negative psychology**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **negative psychology research**. In this special issue, potential topics include, but are not limited to:

- Grief and sadness
- Anger and tension
- Anxiety and pain
- Fear and hatred
- Cause of negative psychology
- Treatment of negative psychology
- Negative mentality impact on health

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Negative Psychology Research**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	January 25th, 2017
Publication Date	March 2017
