Call for Papers
Special Issue on
Cognitive Psychology

In the journal Psychology (PSYCH, ISSN Online: 2152-7199)

Detailed information about this journal: [Indexing](#), [Editorial Board](#), [Author's Guidelines](#)

Cognitive psychology is the study of mental processes such as "attention, language use, memory, perception, problem solving, creativity, and thinking". Much of the work derived from cognitive psychology has been integrated into various other modern disciplines of psychological study, including educational psychology, social psychology, personality psychology, abnormal psychology, developmental psychology, and economics.

We sincerely welcome scholar and expert with relative academic backgrounds to submit original research paper or review paper to this special issue on **Cognitive Psychology**. Potential topics or areas include, but are not limited to:

- Performance of attention, perceptions, thinking and motivation
- Working memory and long-term memory
- Mental processes, cognitive control and cognitive development
- Psychological models of decision making
- Language acquisition and learning disability
- Mind, memory and emotion
- Hallucinations and episodic memory disorders
- Cognitive behavior therapy
- Metacognitive skills
- Social cognition
- Psychology and behavioral neuroscience
