

Special Issue on Mental Health & Psychological Study

Call for Papers

Mental Health & Psychological Study involves the scientific exploration of how individuals think, behave, and interact. It encompasses a range of topics from the basic mechanisms of the brain to complex behaviors in society. This field aims to understand, prevent, and treat mental disorders, promoting psychological well-being. By integrating theories and empirical research, it seeks to enhance individual and collective mental health, addressing issues such as anxiety, depression, and resilience.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Mental Health & Psychological Study**. Potential topics include, but are not limited to:

- Clinical psychology
- Health psychology
- Psychological interventions and therapies
- Early detection and prevention of mental disorders
- Mental health assessment
- Cognitive psychology
- Developmental psychology
- Psychotherapy and counseling
- Mental health awareness and education
- Mental health promotion
- Depression and anxiety
- PTSD
- Public health and wellbeing
- Social psychology
- Forensic psychology
- Positive psychology
- Industrial-organizational psychology
- Environmental psychology
- Cross-cultural psychology
- Sport and exercise psychology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed

to be specified and the research field “**Special Issue – Mental Health & Psychological Study**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 10th, 2024
Publication Date	August 2024
