## ABSTRACT

The damage of coronavirus to our Earth is unprecedented that is going to kill the entire human beings. Facing this kind of situation, there are two completely different kinds of viewpoints. According to the philosophy of “Atheists” Karl Max and Friedrich Engels, “there is a Bigging, there must be an End”, meaning our Earth will eventually collide with the other planet and be destroyed completely. According to Holly Bible, however, Jesus, will come down again to bring Godly people to the Heaven and leave the remaining in the coronavirus-hell. During this waiting period, the “Internet Institutes” can provide the most useful knowledge for the other planets.

## 1. INTRODUCTION

As of July-03-2020, more than 230 countries on the Earth have been attacked by the coronavirus disease 2019 (COVID-19): for USA alone with reported 2,803,454 cases of which 130,995 result in deaths; for United Kingdom with 283,757 cases and 43,995 to deaths.

## 2. FACTS AND DISCUSSIONS

The damage power of COVID-19 is overwhelmingly stronger than “atomic bombs” (2<sup>nd</sup> World War, 1945) or any kind of terrorists (“911”, 2001). The death number has also far beyond the reach of the death of military persons killed in any of war involved with USA.

Obviously, the unprecedented power must come from God and certainly not from human beings.

Coronavirus disease 2019 (COVID-19) is an infectious disease caused by severe acute respiratory syndrome, which was first identified in December 2019 in Wuhan, Hubei, China. After April 2020 and causing about 4000 deaths, although no remarkable infectious cases reported in Wuhan. Unfortunately, the 2<sup>nd</sup>-wave coronavirus diseases have been found on Beijing during May 2020. This kind of originally from “Eastern countries” to Western Countries” and then back from the West to the East, very much like playing “Tennis” or “ping-pong” ball. It is the “Coronavirus” for the ball.

Since all the scientists working in a sharing laboratory of the Universities or most conversional Institutes must wear masks except those working in the “Internet Institute” such as the “Gordon Life Scient

Institute” [1, 2]. And the results thus obtained will be of real usage for the other planet as indicated in [3] as well as widely and increasingly agreeable as supported by many papers from different angles or aspects, particularly for the idea of “Pseudo Amino Acid Composition” or PseAAC” [4-74], the “5-steps Rule” [75-97], the “Wenxiang Diagram” [98-100], the “HIV protease inhibitor prediction” [101-106], and the “Graphic Rules” [107-115]. Using graphic approaches to study biological and medical systems can provide an intuitive vision and useful insights for helping analyze complicated relations therein as shown by the eight master pieces of pioneering papers from the then Chairman of Nobel Prize Committee Sture Forsen (see, e.g., [107, 116] and many follow-up papers [67, 98, 99, 113, 115, 117-160].

### 3. CONCLUSIONS

For our Earth, after several waves of the killings as described in the Section 2, the time of its “End” will become much faster according to the exponential mode. Before its “End”, it will provide the most useful knowledge to do the science with the “Internet Institutes”.
