

Interactive comment on “Improved SAGE II cloud/aerosol categorization and observations of the asian tropopause aerosol layer: 1989–2005” by L. W. Thomason and J.-P. Vernier

L. W. Thomason and J.-P. Vernier

l.w.thomason@nasa.gov

Received and published: 7 March 2013

The authors thank the reviewer for their detailed and helpful comments on the manuscript. We have attempted to accommodate these changes into the new version and hope that they will find them satisfactory. For ease of reading (and LaTeX is beyond me now), the detailed responses are included in the following pdf.

Please also note the supplement to this comment:
