Datalink 3 Release Notes

Date:	2017.04.19
Air System Firmware:	V 1.1.0.0
Ground System Firmware:	V 1.1.0.0
DJI MG app:	V 1.0.48
DJI GS Pro:	V 1.2.1
DJI Assistant 2:	V 1.1.1

What's New?

- Added support for the DJI A3-AG and N3-AG flight controllers. When used with the DJI MG app, a built-in intelligent operation planning system allows users to plan and edit flight paths for agricultural applications.
- Added support for the DJI A3 and N3 flight controllers. These controllers are compatible with the DJI GS Pro app, which is well-suited to specific industrial applications.
- Added support for SBUS compatible non-DJI flight controllers.
- Improved maximum transmission range (3 km) and operation time (15 hours) consistency
- Added the option to update air system and the ground system firmware with DJI Assistant 2.
- Added the option of Datalink 3 in DJI Assistant 2 basic settings when used with the DJI A3 and N3 flight controllers.

Notes:

- Please read and fully understand the Datalink 3 User Manual before use.
