

Zenmuse Z3 Release Note

Date:	2017.07.10
Firmware Version:	V 01.11.01.50
DJI GO app iOS	V3.1.13
DJI GO app Android	V3.1.8

What's New?

- Updated No Fly Zone Management.
- For increased safety, the flight is restricted to a height of 30 m and distance of 50 m when not connected or logged into the app during flight, including DJI GO and all apps compatible with DJI aircraft.

Note:

- Make sure you restart both the aircraft and remote controller after updating them to the latest firmware. Otherwise, video downlink may be unstable. Re-link the aircraft with the remote controller if they are disconnected.
- Please note that firmware update may reset various Main Controller Settings, such as the RTH Altitude and Maximum Flight Distance, to factory defaults. Before the update, take note of your preferred DJI GO settings, and readjust them after the update to suit your preference.
- Aircraft version v01.11.01.50 and camera version 1.9.1.40 should be displayed in DJI GO. The version will only display correctly in DJI GO after connecting to the Internet when upgrade is complete.
- Remote controller version v1.7.80 or above should be used together. Make sure you update the remote controller to version v1.7.80 or above.

Zenmuse Z3 Release Note

Date:	2017.02.21
Firmware Version:	V 1.10.1.40
DJI GO app iOS	V3.1.5
DJI GO app Android	V3.1.3

What's New?

- Optimized Flight Restriction Zone management by deleting flight restrictions for some abandoned airports.
- Slowed motor stopping time to three seconds during flight.

Note:

- Firmware V1.10.1.40 is used to update the Inspire 1 series synchronously, but can only be used to update the firmware of the aircrafts, not the camera firmware.
- Aircraft version v1.10.1.40 and camera version v1.9.1.40 should be displayed in DJI GO. The version will only display correctly in DJI GO after connecting to the Internet when upgrade is complete.
- The firmware can only be downgraded to v1.9.1.30 or later.

Zenmuse Z3 Release Note

Date:	2016.11.10
Firmware Version:	V 1.9.1.40
DJI GO app iOS	V3.0.2
DJI GO app Android	V3.0.1

What's New?

- Improved video transmission stability.
- Reduced gimbal vibration when used with the M600.
- Fixed issue causing gimbal to be unable to carry out self-diagnosis when powered on at certain angles.
- Compatible with Osmo Handle.

Note:

- If update fails, restart and retry.
