

Workshops 1 and 3

- Empower rural communities to take ownership of the green agenda to deliver solutions that are tailored to the locality
- Strong (but flexible) policy frameworks to set the direction of travel, build confidence and encourage green investment
- Supportive and responsible governance that truly integrates local views
- Inclusiveness, accessibility and flexibility – involve everyone, value all views, create a sense of belonging and build trust to produce policies and solutions that work for all
- Data, information and examples – collecting, sharing and using
