25th March 2021

Where will we be in 2040?

- LEADER
- Smart Villages
- young people

Vision for rural areas

Climate and environment

Vision for 2040: There are still 4 seasons in Estonia!
There are still natural resources: forest, clean air and water

- **Forest** management and valorisation of raw materials
- Control of **invasive alien species** and necessary support measures
- Focus to:
 - organic food production
 - alternative solutions for energy, building materials, fuel
 - waste collection and treatment systems

Environmental education – Youth advice:
More focus to adult people awareness!

Vision for rural areas

Good digital solutions! = The basics of successful rural development:

Broadband and **Last Mile** connection and availability are the basics of successful rural development!

- Agriculture
- Work and jobs:
 - For local entrepreneurs
 - For good teleworking
- Services
- Education
- Culture
- etc

Vision for rural areas

Development should meet modern needs:

- roads and light traffic roads
- regional distribution/logistics centres for entrepreneurs
- dense parcel machines network is important for:
 - small entrepreneurs' transport means to their goods
 - local people access to various goods
- Development of small airports are important for the the region!
Their development is different from the big one. Public support needed.

Vision for rural areas

Local food

- **Local food** must be available at a local store.
- **Local food is seasonal! - changing attitudes** - you do not have to have all the goods all the time and everywhere!
- **Procurement procedures** do not favor local and organic food. Local and organic food should be given priority in procurement for schools, kindergartens and social institutions.

Vision for rural areas

The well-being of the rural population

- **Rental market in rural areas** - More people could come to live to the countryside, but there is almost no rental market! **Actions:** Rental housing construction and housing construction support.
- **Kindergartens and basic education** must be available nearby. **Actions:** Supporting community schools and other alternatives.
- **Local people and newcomers** – **Actions:** supporting joint activities for better integration
- **People with disabilities** - to ensure their access to premises and events

Vision for rural areas

Attractive living environment

- **Success story:** The program of renewal small town centres in Estonia. The public space solutions.
- The mission project “**Great public space**” jointly kicked-off by the Association of Estonian Architects and the organising team of “Estonia 100” (Supported by ERDF) - **reconditioning of city centres**
- Results – rebuilt, renewed and modernized central squares of **15 small towns** – 2014-2020 – The project continues! www.arhliit.ee

Rural culture! Vision: Rural inhabitants has possibilities to participate in cultural events as much as in city.

The roots of **Estonian culture are in the villages**. The richness of Estonian culture is the desire of people to actively participate in cultural life, regardless of place of residence.

Success stories:

- The tradition of nationwide **song and dance festivals** dates back to 1869. Keeps choral singing and folk dance alive everywhere. <http://sa.laulupidu.ee/sa-uldinfo>
- European and World **cinema** to 200 villages – NGO Kinobuss platform Kinokoda (license holder). www.kinobuss.ee
- **"Theater for the Countryside,,** is support programm for bringing professional theaters. ASBL Estonian Association of Performing Arts Institutions (20 professional Estonian theatres)

Opened Farm Days

Strated 2011 with the cooperation of 2 LAGs at Järva County. Since 2014 it is a special summer event all over Estonia. This year the Open Farm Day will be held for the seventh time on 25 July 2021. Many farms and agricultural producers will be opening their doors and gates to visitors. You will get to see farms of all sizes, interesting animals, plants, cool farming equipment and machinery. You can also try real farm food, go on excursions, take part in workshops and much more.

The Open Farm Day represents a great opportunity to discover how local food is grown and what modern farming and agriculture involve.

The Open Farm Day is organized by the Ministry of Rural Affairs, the Agricultural Research Centre, the Estonian Chamber of Agriculture and Commerce and the Central Union of Estonian Farmers. Also involved in the running of the day are local LEADER action groups and the 'Kodukant' Village Movement of Estonia.

Opinion Festival

Opinion Festival takes place in Paide on August 13.-14.08.2021

The eight Opinion Festival brings discussions and debates to life in the ideal environment, inspiring people to create new ideas and deeds, bringing them together. Through this, the Festival aims to develop a culture of discussion within society. We invite everyone to participate, so that the many different voices and opinions of people in Estonia will be heard in discussions.

VIABLE RURAL LIFE

Thank you!
Let's stay optimistic!

Long-Term Vision for Rural Areas

Estonian rural tourism

Anneli Kana, NGO Estonian Rural Tourism

Eesti Maaturism

Lehtlaia 10, 10130 Tallinn, Eesti

Topics of participatory meeting

- Climate and environment
- Income, work, jobs
- Basic goods – food, energy, economy
- Rural tourism itself

Eesti Maaturism

VISION 1 – Climate and Quality of the environment: Estonia is green and organic. We grow local and organic food

Actions:

- Trainings for different age groups;
- Rural tourism entrepreneurs as customer educators; using nature and its values for tourism with respect and economically;
- Pay attention to garbage management, support the circular economy, waste reduction;
- Participate actively in local and regional development about environmental, energy, infrastructure & transport planning;
- Support sharing economy!

Eesti Maaturism

VISION 2 - Income, work, jobs: **full-fledged and rewarding jobs in rural tourism.**

Actions:

- Advanced tourism education, based on needs. Preserving the tradition of handicrafts and manual activities. Traditions and heritage in education.
- Smart jobs in tourism: involve the IT-conscious generation, creating attractive IT-based services - virtual realities and their development. Mentoring system development - the mentor does not have to be an experienced master in tourism field, but also from another field.
- Courage change the business model, if needed. Adaptation to change. Considering, that the new generation of tourists (and employees) have different needs and expectations. Z-generation will be middle-aged for 2040.
- System of substitute farmers in tourist farms, rural tourism enterprises for vacation period

VISION 3 - Main needs - food, energy, economy

Organic food is ordinary food in our consciousness and on the table. Organic food is normal and the basis of the health of the Estonian people

Actions:

- Current situation, when „**ordinary**“ food is actually "enriched" with pesticides must be changed. Alternatives for clean and healthy food.
- Minimize trade losses and support unpackaged trade
- Using local and pure origin of food for making meals for children and other public institutions (army, hospitals, social sector)
- Security stocks consisting of local food and raw materials

VISION 4: Rural tourism is a valued and considered way of life.

Actions:

- Different tourism associations and networks, as the umbrella organizations of entrepreneurs, are an equal partner to the decision-makers and funders
- Continuation of various programs to support rural development. (LEADER etc)
- cooperation between organizations in local, national and international level. Study trips, visits, job exchange, shade program, trainees.
- Quality management through personal or group counselling.
