JTPeers Experts is growing – Second call for experts to join the expert database of the Just Transition Platform (JTP)

for JTPeers Experts Database, the Just Transition Platform is issuing a second call for more professionals to be included in the database. We invite researchers and practitioners experienced in just transition processes to join the database.

Following the high demand to apply for the [JTPeers Experts Database](#), the Just Transition Platform is issuing a second call for more professionals to be included in the database. This call is open for experienced professionals, researchers and practitioners working in a wide range of sectors and territories, whose expertise helps to advance the implementation of just transition in carbon-intensive and coal+ territories across the EU.

The only valid way to apply is via this EU-survey questionnaire for JTPeers Experts by the deadline of submission: 27 November 2023 at 23:00 CEST.

While validating the applications, the European Commission will focus primarily on strong qualifications and relevant professional experience, while striving to ensure gender balance. In particular, the JTPeers call is aimed at those experts contributing to the implementation of Territorial Just Transition Plans (TJTP), including developing project pipelines, strengthening governance/monitoring/evaluation mechanisms or similar skills.

Presence within the JTPeers Experts database may trigger multiple opportunities, possibly including requests from JTF territories to provide guidance and counselling or speaking at related events.

For a full list of possible themes, activities, etc., please see the [website text](#) and [FAQ](#). For any questions about this process, please refer to the links above or contact us: JTPeers@justtransitionplatform.eu
