Interactive comment on “Global soil organic carbon stock projection uncertainties relevant to sensitivity of global mean temperature and precipitation changes” by K. Nishina et al.

K. Nishina et al.

kazuya.nishina@gmail.com

Received and published: 26 December 2013

We appreciate all reviewers for sharing time to review and giving valuable comments and advise to revise our manuscript. We compiled all responses in the attached file, because 3 reviews' comments were closely interrelated. Please find our responses to the comments of the all three referees in the supplemental files.

Please also note the supplement to this comment:
