Received and published: 26 December 2013

We appreciate all reviewers for sharing time to review and giving valuable comments and advise to revise our manuscript. We compiled all responses in the attached file, because 3 reviews' comments were closely interrelated. Please find our responses in the supplemental file attached in RC 1 response.

Thank you,

Interactive comment on Earth Syst. Dynam. Discuss., 4, 1035, 2013.
