

Interactive comment on “Gross and net land cover changes based on plant functional types derived from the annual ESA CCI land cover maps” by Wei Li et al.

D. J. Carlson (Editor)

ipy.djc@gmail.com

Received and published: 11 December 2017

One reviewer asked to see the manuscript again after author response and changes. That reviewer has now conveyed this message:

"The authors answered all comments to my satisfaction and changed their text accordingly. I would like to recommend a publication of the manuscript ESSD-2017-74."

With that positive assessment now received and on the record, we will close discussion and move to final decision.
