

COMMISSION REGULATION (EU) No 1311/2014
of 10 December 2014
amending Regulation (EC) No 976/2009 as regards the definition of an INSPIRE metadata element

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2007/2/EC of the European Parliament and of the Council of 14 March 2007 establishing an Infrastructure for Spatial Information in the European Community (INSPIRE) ⁽¹⁾, and in particular Article 7(1) thereof,

Whereas:

- (1) Commission Regulation (EC) No 976/2009 ⁽²⁾ sets out the rules for implementation of all network services except for the services allowing spatial data services to be invoked.
- (2) The interoperability of spatial data services is characterised by the capability to communicate, execute or transfer data among them. A pre-requisite for the invocation of the spatial data services is the ability to access the relevant information. The Member States through the discovery services mandated in Directive 2007/2/EC, with rules for implementation in Commission Regulation (EC) No 976/2009, are making available the metadata elements mandated by Commission Regulation (EC) No 1205/2008 ⁽³⁾. The implementing rules for spatial data services in Commission Regulation (EU) No 1089/2010 ⁽⁴⁾ introduces new metadata elements for spatial data services, consequently the definition of a metadata element in Commission Regulation (EC) No 976/2009 needs to be updated to allow for the discovery and availability of the new metadata elements with the Member States discovery services.
- (3) Regulation (EC) No 976/2009 should therefore be amended accordingly.
- (4) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 22 of Directive 2007/2/EC,

HAS ADOPTED THIS REGULATION:
