## ANNEX II

## Loan for SMEs based on a portfolio Risk Sharing loan model (RS loan)

## Schematic representation of the RS loan principle

<p><b>Structure of the financial instrument</b></p>	<p>The Risk Sharing loan (RS loan or financial instrument) shall take the form of a loan fund to be set up by a financial intermediary with contributions from the programme and the financial intermediary to finance a portfolio of newly originated loans, to the exclusion of the refinancing of existing loans.</p> <p>The Risk Sharing loan shall be made available in the framework of an operation which is part of the priority axis defined in the programme co-funded by the relevant ESIF and defined in the context of the <i>ex-ante</i> assessment required in Article 37 of Regulation (EU) No 1303/2013.</p>
<p><b>Aim of the instrument</b></p>	<p>The aim of the instrument shall be to:</p> <ol style="list-style-type: none"> <li>1. combine resources from the ESIF programme and the financial intermediary to support financing to SMEs as referred in Article 37(4) of Regulation (EU) No 1303/2013, and</li> <li>2. provide SMEs with easier access to finance by providing financial intermediary with a funding contribution and credit risk sharing and thereby offering SMEs more funds at preferential conditions in terms of interest rate reduction and if relevant collateral reduction.</li> </ol> <p>The contribution from the ESIF programme to the financial intermediary shall not crowd out financing available from other private investors or public investors.</p> <p>The ESIF programme shall provide funding to the financial intermediary in order to build up a portfolio of newly generated loans to SMEs, and in parallel, participate in the losses/ defaults and recoveries on the SME loans in this portfolio on a loan by loan basis and in the same proportion as the programme contribution in the instrument.</p>

▼ B

	<p>In the case of fund of funds structure, the fund of funds shall transfer the contribution from the ESIF programme to the financial intermediary.</p> <p>In addition to the ESIF programme contribution, the fund of funds may provide its own resources which are combined with the financial intermediary resources. The fund of funds shall in this case take the pro-rata part of the risk sharing between the different contributions in the portfolio of loans. State aid rules have to be respected if the resources provided by the fund of funds are State resources.</p>
<p><b>State aid implication</b></p>	<p>The RS Loan shall be designed as a State aid free instrument, i.e. market-conform remuneration for the financial intermediary, full pass-on of financial advantage by the financial intermediary to the final recipients, and the financing provided to the final recipients are under the applicable <i>de minimis</i> Regulation.</p> <p>(a) <i>Aid at the level of the financial intermediary and the fund of funds is excluded when:</i></p> <ol style="list-style-type: none"> <li>1. the financial intermediary and the managing authority or fund of funds bear at any time the losses and benefits in proportion to their contributions (pro-rata) and there is an economically significant participation of the financial intermediary in the Risk Sharing loan, and</li> <li>2. The remuneration (i.e. management costs and/or fees) of the financial intermediary and the fund of funds reflects the current market remuneration in comparable situations, which is the case when the latter has been selected through an open, transparent, non-discriminatory and objective selection procedure or if the remuneration is aligned with the Articles 12 and 13 of Delegated Regulation (EU) No 480/2014 and no other advantages are granted by the State. Where the fund of fund only transfers the ESIF contribution to the financial intermediary, and has a public interest mission, and has no commercial activity when implementing the measure, and is not co-investing with its own resources — therefore it is not considered a beneficiary of aid, — it is enough that the fund of fund is not overcompensated, and</li> <li>3. The financial advantage of the programme public contribution to the instrument shall be fully passed on to the final recipients in the form of an interest rate reduction. When selecting the financial intermediary, the managing authority shall, in line with the Article 7(2) of Delegated Regulation (EU) No 480/2014, assess the pricing policy and the methodology to pass on the financial advantage to the final recipients.</li> </ol> <p>Where the financial intermediary does not pass on all the financial advantage to the final recipients, the undisbursed public contribution shall be transferred back to the managing authority.</p> <p>(b) <i>At the level of the SMEs:</i></p> <p>At the SMEs' level, the loan shall comply with the <i>de minimis</i> rules.</p> <p>For each loan inserted in the portfolio, the financial intermediary shall calculate the GGE by using the following calculation methodology:</p> <p><b>Calculation of the GGE = Nominal amount of the loan (EUR) × (Cost of funding (standard practice) + Cost of risk (standard practice) – Any fees charged by the managing authority on the programme contribution to the financial intermediary) × Weighted average life of the loan (Years) × Risk sharing rate.</b></p> <p>When the GGE is calculated with the above mentioned formula, for the purpose of the Risk Sharing loan, the requirement as foreseen in Article 4 of the <i>de minimis</i> Regulation (1) is considered to be met. There is no minimum collateral requirement.</p>

	<p>A verification mechanism shall ensure that the GGE calculated with the above mentioned formula is not below than the GGE calculated following the Article 4(3)(c) of the <i>de minimis</i> Regulation.</p> <p>The total amount of aid calculated with the GGE cannot be above EUR 200 000 over a 3 years fiscal period taking into account the cumulation rule for final recipients in the <i>de minimis</i> Regulation.</p> <p>Technical support grant or another grant provided to the final recipient shall be cumulated with the calculated GGE.</p> <p>Regarding SMEs in the fisheries and aquaculture sector, the aid shall comply with the relevant rules of the fisheries <i>de minimis</i> Regulation.</p> <p>For activities supported by the EAFRD, general rules apply.</p>
<p><b>Lending policy</b></p>	<p>(a) <i>Disbursement from the managing authority or fund of funds to the financial intermediary:</i></p> <p>Following the signature of a funding agreement between the managing authority and the fund of funds or the financial intermediary, the relevant managing authority transfers public contributions from the programme to the fund of funds or the financial intermediary which places such contributions in a dedicated Risk Sharing loan fund. The transfer shall be in tranches and respect the ceilings of the Article 41 of Regulation (EU) No 1303/2013.</p> <p>The target lending volume and range of interest rate shall be confirmed within the <i>ex-ante</i> assessment in accordance with Article 37 of Regulation (EU) No 1303/2013 and shall be taken into account to determine the nature of the instrument (revolving or non-revolving instrument).</p> <p>(b) <i>Origination of a portfolio of new loans:</i></p> <p>The financial intermediary shall be required to originate within a pre-determined limited period of time a portfolio of new eligible loans in addition to its current loan activities, partly funded from the disbursed funds under the programme at the risk-sharing rate agreed in the funding agreement.</p> <p>Eligible loans for SMEs (according to pre-defined eligibility criteria on a loan-by-loan and portfolio level) shall be automatically included in the Portfolio, by way of submitting inclusion notices at least on a quarterly basis.</p> <p>The financial intermediary shall implement a consistent lending policy, especially regarding portfolio diversification, enabling a sound credit portfolio management and risk diversification, while complying with the applicable industry standards and while remaining aligned with the managing authority's financial interests and policy objectives.</p> <p>The identification, selection, due diligence, documentation and execution of the loans to final recipients shall be performed by the financial intermediary in accordance with its standard procedures and in accordance with the principles set out in the relevant funding agreement.</p> <p>(c) <i>Re-use of resources paid back to financial instrument:</i></p> <p>Resources paid back to the financial instrument shall be either reused within the same financial instrument (revolving within the same financial instrument) or after being paid back to the managing authority or the fund of funds they shall be used in accordance with Article 44 of Regulation (EU) No 1303/2013.</p>

▼ B

	<p>When revolving within the same financial instrument, as a matter of principle, the amounts that are attributable to the support of the ESIF and that are reimbursed and/or recovered by the financial intermediary from loans to final recipients within the time framework for investments shall be made available for new use within the same financial instrument. This revolving approach as referred at Articles 44 and 45 of Regulation (EU) No 1303/2013 shall be included in the funding agreement.</p> <p>Alternatively, if the managing authority or the fund of funds is directly repaid, the repayments shall occur regularly mirroring (i) principal repayments (on a pro rata basis on the basis of the risk sharing rate) (ii) any recovered amounts and losses deductions (according to the risk sharing rate), of the SME loans and (iii) any interest rate payments. These resources have to be used in accordance with Articles 44 and 45 of Regulation (EU) No 1303/2013.</p> <p>(d) <i>Loss recoveries:</i></p> <p>The financial intermediary shall take recovery actions in relation to each defaulted SME loan financed by the financial instrument in accordance with its internal guidelines and procedures.</p> <p>Amounts recovered (net of recovery and foreclosure costs, if any) by the financial intermediary shall be allocated pro-rata to the risk-sharing between the financial intermediary and the managing authority or the fund of funds.</p> <p>(e) <i>Others:</i></p> <p>Interest and other gains generated by support from the ESI Funds to financial instrument shall be used as referred in Article 43 of Regulation (EU) No 1303/2013.</p>
<b>Pricing policy</b>	<p>When proposing its pricing, the financial intermediary shall present a pricing policy and the methodology to ensure the full pass on of the financial advantage of the programme public contribution to the eligible SMEs. The pricing policy and the methodology shall include the following elements:</p> <ol style="list-style-type: none"> <li>(1) the interest rate on the financial intermediary participation is set at market basis (i.e. according to the financial intermediary own policy),</li> <li>(2) the overall interest rate, to be charged on loans to the eligible SMEs included in the portfolio, must be reduced proportionally to the allocation provided by the public contribution of the programme. This reduction shall take into account the fees that the managing authority might charge on the programme contribution.</li> <li>(3) The GGE calculation as presented in the State aid section shall be applied on each loan included in the Portfolio.</li> <li>(4) The pricing policy and the methodology shall remain constant during the eligibility period.</li> </ol>
<b>Programme contribution to financial instrument: amount and rate (product details)</b>	<p>The actual risk sharing rate, programme public contribution and interest rate on loans shall be based on the <i>ex-ante</i> assessment findings and shall be such as to ensure that the benefit to the final recipients complies with the <i>de minimis</i> rule.</p> <p>The size of the target portfolio Risk Sharing loan shall be confirmed within the <i>ex-ante</i> assessment justifying the support to the financial instrument (Article 37 of Regulation (EU) No 1303/2013) and take into account the revolving approach of the instrument (if applicable). The composition of the targeted portfolio of loans shall be defined in a way to ensure diversification of risk.</p>

▼ **B**

	<p>The RS loan allocation and the risk-sharing rate must be set in order to fill the gap evaluated within the <i>ex-ante</i> assessment, but in any case must comply with the conditions laid down in this term sheet.</p> <p>The risk sharing rate agreed with the financial intermediary shall define for each eligible loan included in the portfolio, the portion of the eligible loan principal amount financed by the programme.</p> <p>The risk-sharing rate agreed with the financial intermediary determines the exposure of the losses which are to be covered by the financial intermediary and by the programme contribution accordingly.</p>
<b>Programme contribution to financial instrument (activities)</b>	<p>The portfolio funded by the RS loan instrument shall include only newly originated loans provided to SMEs, to the exclusion of the refinancing of existing loans. The eligibility criteria for inclusion in the portfolio are determined pursuant to Union law (e.g. Regulation (EU) No 1303/2013 and Fund-specific rules), programme, national eligibility rules, and with the financial intermediary with the aim of reaching a large number of final recipients and achieving sufficient portfolio diversification. The financial intermediary shall have a reasonable estimation of the portfolio risk profile. These criteria shall reflect market conditions and practices in the relevant Member State or region.</p>

Relation between stakeholders and Capped Guarantee portfolio coverage

<b>Structure of the financial instrument</b>	<p>The Capped Portfolio Guarantee shall provide credit risk coverage on a loan by loan basis, for the creation of a portfolio of new loans to SMEs up to a maximum loss amount (cap).</p> <p>The Capped Portfolio Guarantee shall be made available by the managing authority, in the framework of the operation which is part of the priority axis defined in the programme co-funded by the European Structural and Investment Funds (ESIF) and defined in the context of the <i>ex-ante</i> assessment required in Article 37 of Regulation (EU) No 1303/2013.</p>
<b>Aim of the instrument</b>	<p>The aim of the instrument shall be to:</p> <ol style="list-style-type: none"> <li>(1) Provide better access to finance to targeted SMEs, addressing concrete and well identified market gaps.</li> <li>(2) Leverage of the ESIFs to support financing for SMEs as referred in Article 37(4) of Regulation (EU) No 1303/2013.</li> </ol> <p>The ESIF programme contribution from the managing authority takes the form of a guarantee fund managed by a financial intermediary. This contribution shall not crowd out guarantees available from other public or private investors.</p> <p>The guarantee fund managed by the financial intermediary shall commit to provide funds from the ESIF programme to the financial institutions building up portfolios of new loans in case of default of the final recipients.</p> <p>In the case of fund of funds structure, the fund of funds shall transfer the contribution from the ESIF programme to the financial intermediary.</p> <p>The Capped Guarantee Instrument shall be implemented to cover a portfolio of new loans build up by one or more financial institutions.</p> <p>The financial institutions building up portfolios of new loans shall count on a partial guarantee covering losses up to a capped amount when providing loans to eligible SMEs.</p> <p>The financial advantage of the guarantee must be passed on to the final recipients (e.g. as a reduction of the interest rate of the loans or/and collateral reduction but always with a full financial advantage of the programme public contribution passed on to the final recipients).</p>
<b>State aid implication</b>	<p>The Capped Portfolio Guarantee shall be designed as a State aid free instrument, i.e. market conform at the level of the financial intermediary managing the guarantee fund and financial institutions building up portfolios of new loans and aid to the final recipients under the applicable <i>de minimis</i> Regulation.</p> <p>(a) <i>At the level of the fund of funds, the financial intermediary managing the guarantee fund, the financial institutions building up portfolios of new loans the aid is excluded when:</i></p> <ol style="list-style-type: none"> <li>(1) The remuneration (i.e. management costs and/or fees) of the financial intermediary and the fund of funds reflects the current market remuneration in comparable situations, which is the case when the latter has been selected in an open, transparent, objective and non-discriminatory selection procedure or if the remuneration is aligned with the Articles 12 and 13 of Delegated Regulation (EU) No 480/2014, and no other advantage is granted by the State. When selecting the financial intermediary, the managing authority shall, in line with the Article 7(2) of Delegated Regulation (EU) No 480/2014, assess the pricing policy and the methodology to pass on the financial advantage to the final recipients.</p> <p>Where the financial intermediary does not pass on all the financial advantage to the final recipients, the uncommitted public contribution shall be transferred back to the managing authority.</p> <p>The guarantee must be linked to a specific financial transaction, for a fixed maximum amount and limited in time.</p> <p>(b) <i>At the level of final recipients:</i></p> <p>At the SMEs' level, the guaranteed loan shall comply with the <i>de minimis</i> rules.</p> <p>For each loan inserted within the guaranteed portfolio, the financial intermediary shall calculate the GGE by using the following calculation methodology:</p> <p><b>Calculation of the GGE = Nominal amount of the loan (EUR) × Cost of risk (standard practice) × Guarantee rate × Guarantee cap rate × Weighted average life of the loan (Years).</b></p> <p>The total amount of aid calculated with the GGE cannot be above EUR 200 000 over a 3 years fiscal period taking into account the cumulation rule for final recipients in the <i>de minimis</i> Regulation.</p> <p>When the GGE is calculated with the above mentioned formula, for the purpose of a Capped Portfolio Guarantee instrument, the requirement as foreseen in Article 4 of the <i>de minimis</i> Regulation <sup>(1)</sup> is considered to be met.</p> <p>A verification mechanism shall ensure that the GGE calculated with the above mentioned formula is not below than the GGE calculated following the Article 4(6)(c) of the <i>de minimis</i> Regulation.</p> <p>Technical support grant or another grant provided to the final recipient shall be cumulated with the calculated GGE.</p> <p>Regarding SMEs in the fisheries and aquaculture sector, the aid shall comply with the relevant rules of the fisheries <i>de minimis</i> Regulation</p> <p>For activities supported by the EAFRD, general rules apply.</p>
<p><b>Guarantee policy</b></p>	<p>(a) <i>Transfer from the managing authority to the financial intermediary:</i></p> <p>Following the signature of a funding agreement between the managing authority and the fund of funds or the financial intermediary, the relevant managing authority transfers contributions from the programme to the fund of funds or to the financial intermediary which places such contributions in a dedicated guarantee fund. The transfer shall be in tranches and respect the ceilings of Article 41 of Regulation (EU) No 1303/2013.</p> <p>(b) <i>Origination of a portfolio of new loans:</i></p> <p>The financial institutions shall be required to build up within a pre-determined limited period of time portfolios of new SME loans. The composition of the targeted portfolio of loans shall be defined in a way to ensure diversification of risk.</p>
<p><b>Guarantee to financial institution (activities)</b></p>	<p>The loan portfolio guaranteed by the guarantee instrument shall include newly originated loans provided to the final recipients, to the exclusion of refinancing of existing loans. The eligibility criteria for inclusion in the portfolio are determined pursuant to the Union law (e.g. Regulation (EU) No 1303/2013 and Fund-specific rules), programme, national eligibility rules, and with the financial intermediary with the aim of reaching a large number of final recipients and achieving sufficient portfolio diversification. Financial institutions shall have a reasonable estimation of the portfolio risk profile (concentration limit by sector for example). #### Schematic representation of the Renovation loan principle

<p><b>Structure of the financial instrument</b></p>	<p>The Renovation loan shall take the form of a loan fund to be set up by a financial intermediary with contributions from the programme and the financial intermediary itself to finance a portfolio of newly originated loans, to the exclusion of the refinancing of existing loans.</p> <p>The Renovation loan shall be made available, in the framework of the operation which is part of the priority axis defined in the programme funded by the ESIF and defined in the context of the <i>ex-ante</i> assessment required in Article 37 of Regulation (EU) No 1303/2013.</p>
<p><b>Aim of the instrument</b></p>	<p>The aim of the instrument is to offer preferential loans to natural and legal persons or independent professionals owning premises (apartment, social housing or individual household), as well as administrators or other legal bodies acting on behalf and for the benefit of the owners in order to undertake renovation works that are eligible for ESIF support.</p> <p>The ESIF programme contribution from the managing authority to a financial intermediary shall not crowd out financing available from other private or public investors.</p> <p>The ESIF programme shall provide funding to the financial intermediary in order to build up a portfolio of newly generated loans, and in parallel, participate in the losses/defaults and recoveries on the loans in this portfolio on a loan by loan basis and in the same proportion as the programme contribution in the instrument.</p> <p>In the case of fund of funds structure, the fund of funds shall transfer the contribution from the ESIF programme to the financial intermediary.</p>

In this instance, the fund of funds shall take a part of the risk sharing between the contributions in the portfolio of loans. Article 16 of Regulation (EU) No 651/2014 will have to be applied if the resources provided by the fund of funds are State resources or are combined with other State resources.</p>
<p><b>Urban project</b>      <b>development</b></p>	<p>The urban development project shall be part of the implementation of interventions envisaged in an integrated approach for a sustainable urban development strategy and which contributes to the achievement of the objectives defined therein.</p> <p>In addition all urban development projects shall demonstrate the following parameters:</p> <p>Financial sustainability:</p> <ul style="list-style-type: none"> <li>— urban development projects shall be based on a business model, estimating cash flows and targeting potential private investors,</li> <li>— urban development projects shall be structured in such a way that they generate revenue or reduce expenditures, sufficient to repay the loan received from the UDF and they shall be structured such that any State aid support is set at the minimum amount necessary to enable the project to proceed so as not to distort competition. The projects shall have an internal rate of return (IRR) which is not sufficient to attract financing on a purely commercial basis.</li> </ul> <p>Strategic alignment:</p> <ul style="list-style-type: none"> <li>— urban development projects shall be part of an integrated sustainable urban development strategy and have the potential to attract additional funding from other public and private investors,</li> <li>— urban development projects shall comply with the objectives and interventions envisaged by the ESIF programme and shall contribute to meet relevant output indicators of the ESIF programme,</li> <li>— urban development projects shall be located in the relevant region/jurisdiction and contribute to the achievement of objectives (including quantitative outputs) as stipulated in the ESIF programme.</li> </ul> <p>The following investment priorities may be supported by the UDF:</p> <ul style="list-style-type: none"> <li>— investment in low-carbon strategies for urban areas,</li> <li>— investment to ensure disaster resilience,</li> <li>— investment for adaption to climate change,</li> <li>— investment to improve the urban environment, including regeneration of brownfield sites and reduction of air pollution,</li> <li>— investment in sustainable urban mobility,</li> </ul>

	<ul style="list-style-type: none"> <li>— investment support for self-employment and business creation,</li> <li>— investment in infrastructure for public employment services,</li> <li>— investment in the health and social sectors, be it in infrastructure, R &amp; D or innovative services, which contribute to local development and to the transition from institutional to community-based and primary forms of healthcare as well as to enhance access to health and social services,</li> <li>— investment in the physical and economic regeneration of deprived urban and rural communities,</li> <li>— investment towards the conservation, protection, promotion and development of cultural heritage,</li> <li>— investment in higher education, including collaboration with companies,</li> <li>— investment in ICT development.</li> </ul>
<b>State aid implication</b>	<p>The investment shall be considered compatible with the internal market and not requiring an ad hoc notification, provided it complies with Article 16 of Regulation (EU) No 651/2014.</p> <p>The presence of State aid shall be assessed at the levels of the fund of funds, financial intermediary, the private investors and final recipients. In this regard the financial intermediary and the fund of funds shall comply with the following conditions:</p> <ul style="list-style-type: none"> <li>(a) the management costs and fees of the financial intermediary and the fund of funds reflects the current market remuneration in comparable situations, which is the case when the latter has been selected through an open, transparent, non-discriminatory call or if the remuneration is aligned with Articles 12 and 13 of Delegated Regulation (EU) No 480/2014 and no other advantages are granted by the State. Where the fund of fund only transfers the ESIF contribution to the financial intermediary, and has a public interest mission, and has no commercial activity when implementing the measure, and is not co-investing with its own resources — therefore it is not considered a beneficiary of aid — it is enough that the fund of fund is not overcompensated;</li> <li>(b) the private contribution to each urban development project is not lower than 30 % of the total financing provided in compliance with Article 16(6) of Regulation (EU) No 651/2014;</li> <li>(c) the UDF is managed on a commercial basis and shall ensure profit-driven financing decisions.</li> </ul> <p>Private contribution is here considered as investments made by private bodies.</p> <p>The costs for the due diligence of the urban development projects shall be covered by the management costs and fees of the financial intermediary managing the UDF.</p> <p>Preferential remuneration (asymmetric conditions on risk-sharing arrangements) for fund of funds, financial intermediary contribution and co- investors contributions at fund level and project level in a form of loans, if any, shall be set in line with Article 44(1) of Regulation (EU) No 1303/2013, points (b) and (c) of Article 16(8) of Regulation (EU) No 651/2014, as further specified under the pricing policy.</p> <p>No asymmetric conditions are possible for the other co-investors at project level since their contributions are not invested in loans and outside UDF.</p>

<b>Programme contribution to financial instrument: amount and rate (product details)</b>	<p>The actual risk sharing rate, programme public contribution, preferential remuneration and interest rate on loans shall be based on the <i>ex ante</i> assessment findings and shall be such as to ensure that the benefit to the final recipients complies with Article 16(8)(b) of Regulation (EU) No 651/2014.</p> <p>The size of the target portfolio of the UDF shall be established on the basis of the <i>ex ante</i> assessment justifying the support to the financial instrument in accordance with Article 37 of Regulation (EU) No 1303/2013 and shall take into account the revolving approach of the instrument, if applicable.</p> <p>The UDF allocation and the risk-sharing rate shall be set to fill the gap identified in the <i>ex ante</i> assessment, and shall comply with the conditions laid down in this Annex.</p> <p>The minimum co-financing rate agreed with the financial intermediary shall be defined for each eligible loan included in the portfolio, corresponding to the maximum portion of the eligible loan principal amount financed by the programme.
