COUNCIL REGULATION (EC) No 1346/2002
of 25 July 2002
amending Regulation (EC) No 2465/96 concerning the interruption of economic and financial
relations between the European Community and Iraq

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 60 and 301 thereof,

Having regard to Council Common Position 2002/599/CFSP of 22 July 2002 supplementing Common Position 96/741/CFSP concerning the derogations from the embargo with regard to Iraq⁽¹⁾,

Having regard to the proposal from the Commission,

Whereas:

- (1) Council Regulation (EC) No 2465/96 of 17 December 1996 concerning the interruption of economic and financial relations between the European Community and Iraq⁽²⁾ prohibits, with certain exceptions, the export to Iraq of all commodities and products originating in, coming from, or in transit through the Community. This export regime was imposed further to Resolutions 661(1990), 687(1991) and 986(1995) of the Security Council of the United Nations.
- (2) Pursuant to Resolution 986(1995) an escrow account has been established for the financing of certain exports to Iraq. On 14 May 2002, the Security Council of the United Nations adopted Resolution 1409(2002) laying down new procedures and rules for approval of exports to Iraq which will be financed from this escrow account. These procedures and rules have been applicable since 30 May 2002.
- (3) As a result, exports for which an application for financing from the escrow account is made will be checked against the list of military commodities and products and against the revised Goods Review List (GRL) which the Security Council also adopted. The GRL comprises goods, services and technologies which can be used for civil as well as military purposes (dual-use goods).
- (4) If the exports are not included in these lists, the Office of the Iraq Programme (OIP) will confirm in writing to the State that sent the application, that the application does not contain any commodity or product included in these lists. If such confirmation is obtained, the export is eligible for payment from the escrow account. However, such payment is subject to meeting the conditions of paragraph 8(a) of Resolution 986(1995), which provides that the export must be at the request of the Government of Iraq, that Iraq effectively guarantees equitable

distribution of the exported goods on the basis of a plan submitted to, and approved by, the Secretary-General and that the Secretary-General receives authenticated confirmation that the exported goods have arrived in Iraq.

- (5) If an application contains items that are on the revised GRL, the application will be referred to the Committee established by Resolution 661(1990). The exports are not permitted unless the Committee gives its approval. In this regard, it should be noted that the Committee may give its approval for exports of commodities and products included in the revised GRL. If the application contains military goods, that part of the application will be considered ineligible for approval.
- (6) Applications for financing of exports to Iraq from the escrow account have to be made to the OIP through the diplomatic missions of States and international organisations accredited to the United Nations in the format prescribed by the Security Council.
- (7) It is appropriate that competent authorities in the Community promptly confirm in writing to the person, entity or body at whose request the application was made, any confirmation they receive from the OIP and any approval they receive from the said Committee. Such confirmation constitutes sufficient evidence that the export is not in breach of Regulation (EC) No 2465/96 and that the Committee has approved the export or that it does not need approval by the Committee. However, that confirmation does not constitute an export authorisation required in accordance with applicable Community legislation, and in particular Council Regulation (EC) No 1334/2000 of 22 June 2000 setting up a Community regime for the control of exports of dual-use items and technology⁽³⁾. For foodstuffs, the competent authority should confirm in writing that the export or transit has been notified to the Committee pursuant to Resolution 661(1990).
- (8) Regulation (EC) No 2465/96 should be amended in order to reflect the fact that exports are not in violation of that Regulation if, in accordance with the new procedures and rules, it has been confirmed that they have been approved by the Committee or that they do not need approval from the Committee.

- (9) Experience in implementing Regulation (EC) No 2465/96 has shown that clarification is needed in particular on administrative procedures,

transit has been approved by the Committee, and provided that the conditions for payment determined by the Committee are fulfilled;

HAS ADOPTED THIS REGULATION:

Article 1
