REGULATION (EEC) No 478/74 OF THE COMMISSION

of 27 February 1974

fixing the export refunds on beef and veal for the period beginning 1 March 1974

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community ;

Having regard to Council Regulation (EEC) No 805/68 ⁽¹⁾ of 27 June 1968 on the common organization of the market in beef and veal, as last amended by Regulation (EEC) No 187/73 ⁽²⁾, and in particular the second sentence of Article 18 ⁽⁵⁾ thereof ;

Having regard to the Opinion of the Monetary Committee ;

Whereas Article 18 of Regulation (EEC) No 805/68 provides that the difference between prices on the world market and prices within the Community for the products listed in Article 1 of that Regulation may be covered by an export refund ;

Whereas Council Regulation (EEC) No 885/68 ⁽³⁾ of 28 June 1968 lays down general rules for granting export refunds and criteria for fixing the amount of such refunds ;

Whereas it follows from applying these rules and criteria to the foreseeable situation on the market in beef and veal that the refund should be fixed as indicated below ;

Whereas the present market situation in the Community and the setting possibilities, particularly in certain third countries, leads to granting an export refund for adult animals of a weight of more than 300 kilogrammes, for the export of certain fresh or chilled meats shown in the Annex under heading No ex 02.01 A II a) 1 bb) and cc) and for the export to certain destinations, of certain frozen meats shown in the Annex under heading No ex 02.01 A II a) 2 aa), bb), cc), dd) 11 and dd) 22 ;

Whereas, in the case of edible meat of domestic bovine animals, boned or boneless, salted and dried, there are traditional trade flows to Switzerland ; whereas, to the extent necessary to allow this trade to continue, the refund must be fixed at an amount which will cover the difference between prices on the Swiss market and export prices in the Member States ;

Whereas, in the case of the preserved meats set out in Annex I to Commission Regulation (EEC) No 1082/68 ⁽⁴⁾ of 26 July 1968 fixing coefficients expressing the meat content of preserved meats manufactured from frozen meat, as amended by Regulation (EEC) No 207/70 ⁽⁵⁾, which contain 40 % or more of meat, Community participation in international trade may be ensured by granting a refund which takes account of the refund hitherto granted to exporters ;

Whereas, in the case of other beef and veal products, a refund need not be fixed since Community participation in world trade in these products is not significant ;

Whereas Article 92 of the Act ⁽⁶⁾ annexed to the Treaty ⁽⁷⁾ concerning the Accession of new Member States to the European Economic Community and the European Atomic Energy Community, signed at Brussels on 22 January 1972, provides that the refund on exports from the new Member States for the products specified in Article 1 (b) and (c) of Regulation (EEC) No 805/68 shall be corrected by the amount of the difference between the customs duties on the products from which these products are produced ;

Whereas if the refund system is to operate normally, refunds should be calculated on the following basis :

- in the case of currencies which are maintained in relation to each other, at any given moment, within a band of 2.25 %, a rate of exchange based on their effective parity ;
- for other currencies an exchange rate based on the arithmetic mean of the spot market rates of each of these currencies recorded for a given period, in relation to the Community currencies referred to in the previous subparagraph ;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Beef and Veal,

HAS ADOPTED THIS REGULATION :

REGULATION (EEC) No 481/74 OF THE COMMISSION

of 27 February 1974

fixing the production refund on olive oil used in the manufacture of certain preserved fish and vegetables

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 136/66/EEC⁽¹⁾ of 22 September 1966 on the establishment of a common organization of the market in oils and fats, as last amended by Regulation (EEC) No 1707/73⁽²⁾ and in particular Article 6 thereof;

Having regard to Council Regulation No 162/66/EEC⁽³⁾ of 27 October 1966 on trade in oils and fats between the Community and Greece;

Having regard to Council Regulation (EEC) No 155/71⁽⁴⁾ of 26 January 1971 on the production refund on olive oil used in the manufacture of certain preserved foods, and in particular Article 3 (1) thereof;

Whereas Article 2 of Regulation (EEC) No 155/71 provides that a production refund should be granted in respect of olive oil used in the manufacture of certain preserved fish and vegetables;

Whereas Article 3 (1) of that Regulation provides that the refund must be fixed every two months; whereas paragraph 2 of that Article provides that the amount of the refund is equal to the average of the variable components of the levies on imports of olive oil falling within subheading No 15.07 A I a) of the Common Customs Tariff during the period from the sixteenth day of the third month to the fifteenth day

of the last month preceding that in which the refund began to apply;

Whereas Article 5 of Commission Regulation (EEC) No 615/71⁽⁵⁾ of 24 March 1971 on detailed rules for the application of the production refund on olive oil used in the manufacture of certain preserved foods, as last amended by Regulation (EEC) No 2503/71⁽⁶⁾, provides that the refund previously fixed is retained where the difference between that refund and the average referred to above does not exceed 0.50 unit of account; whereas, however, the refund must be fixed at 0 if the average is 0;

Whereas the import levy applicable from 16 December 1973 to 15 February 1974 to the olive oil referred to above was fixed by Regulations (EEC) No 3524/73 and (EEC) No 103/74,

HAS ADOPTED THIS REGULATION:

Article 1

For the months of March and April 1974 the amount of the production refund referred to in Article 2 of Regulation (EEC) No 155/71 shall be 0 unit of account per 100 kilogrammes.

Article 2

This Regulation shall enter into force on 1 March 1974.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 27 February 1974.

REGULATION (EEC) No 482/74 OF THE COMMISSION

of 27 February 1974

on the classification of goods within subheading No 23.04 B of the Common Customs Tariff

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 97/69⁽¹⁾ of 16 January 1969 on measures to be taken for uniform application of the nomenclature of the Common Customs Tariff, and in particular Article 3 thereof;

Whereas measures must be taken for the uniform application of the nomenclature of the Common Customs Tariff as regards classification of residues resulting from the extraction of maize germ oil by solvents or compression;

Whereas heading No 23.04 of the Common Customs Tariff which is annexed to Council Regulation (EEC) No 950/68⁽²⁾ of 28 June 1968, as last amended by Council Regulation (EEC) No 1/74⁽³⁾ of 17 December 1973 covers residues resulting from the extraction of vegetable oils; whereas the residues covered by this heading are the solid residues remaining after the extraction of oil from oil seed or oleaginous fruits by solvents or in a press or rotary expeller; whereas they are composed of ligneous, albuminoid, amyloid and mineral substances with a small quantity of oil, and may be in the form of slabs (cakes) or meal, or may be pelletized;

Whereas the heading does not cover, under the term 'residues', products from which oil can still economically be extracted, nor products containing substances (except in negligible quantities) which have not undergone an oil-extraction process and have been added to the residues themselves;

Whereas residues from the extraction of maize germ oil are obtained after extraction of the oil contained in maize germs either by solvents or compression; whereas the products used for that extraction are often products made up of maize germs and of fragments of the endosperm and the pericarp of maize grains;

Whereas, by reason of the differences in the processes applied (solvent extraction or compression) and the different composition of the raw materials, the resi-

dues can be distinguished by the difference in the oil and protein content;

Whereas, for the purpose of distinguishing residues resulting from the extraction of maize germ oil, falling within subheading No 23.04 B, from products which have not undergone a complete maize germ oil extraction process and from products containing, in addition to the actual residues, ingredients which have undergone no oil extraction process, the minimum and maximum starch, oil and protein contents must be determined; whereas in the present state of technical progress in this field, these contents, calculated by weight on the dry product, may be set as follows:

- (a) for residues obtained by solvent extraction:
- starch: less than 45 %
 - protein (nitrogen content $\times 6.25$): not less than 11.5 %
 - oil: less than 3 %
- (b) for residues obtained by compression:
- starch: less than 45 %
 - protein (nitrogen content $\times 6.25$): not less than 13 %
 - oil: not less than 3 % but not more than 8 %;

Whereas the provisions of this Regulation are in accordance with the Opinion of the Committee on Common Customs Tariff Nomenclature,

HAS ADOPTED THIS REGULATION:

Article 1

Residues resulting from the extraction, by solvents or by compression, of maize germ oil shall fall within subheading No 23.04 B of the Common Customs Tariff only where they contain the following ingredients in the quantities specified, calculated by weight on the dry product:

1. Products of an oil content of less than 3 %:
- starch content: less than 45 %
 - protein content (nitrogen content $\times 6.25$): not less than 11.5 %.

⁽²⁾ OJ No L 172, 22. 7. 1968, p. 1.

⁽³⁾ OJ No L 1, 1. 1. 1974, p. 1.

2. Products of an oil content of not less than 3 % and not more than 8 % :

— starch content : less than 45 %

— protein content (nitrogen content $\times 6.25$) : not less than 13 %.

Moreover, such residues shall not contain ingredients which are not obtained from maize grains.

Article 2

This Regulation shall enter into force on 1 April 1974.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
