**COMMISSION REGULATION (EC) No 1530/2003
of 29 August 2003**

fixing the export refunds on rice and broken rice and suspending the issue of export licences

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 3072/95 of 22 December 1995 on the common organisation of the market in rice ⁽¹⁾, as last amended by Commission Regulation (EC) No 411/2002 ⁽²⁾, and in particular the second subparagraph of Article 13(3) and (15) thereof,

Whereas:

- (1) Article 13 of Regulation (EC) No 3072/95 provides that the difference between quotations or prices on the world market for the products listed in Article 1 of that Regulation and prices for those products within the Community may be covered by an export refund.
- (2) Article 13(4) of Regulation (EC) No 3072/95, provides that when refunds are being fixed account must be taken of the existing situation and the future trend with regard to prices and availabilities of rice and broken rice on the Community market on the one hand and prices for rice and broken rice on the world market on the other. The same Article provides that it is also important to ensure equilibrium and the natural development of prices and trade on the rice market and, furthermore, to take into account the economic aspect of the proposed exports and the need to avoid disturbances of the Community market with limits resulting from agreements concluded in accordance with Article 300 of the Treaty.
- (3) Commission Regulation (EEC) No 1361/76 ⁽³⁾ lays down the maximum percentage of broken rice allowed in rice for which an export refund is fixed and specifies the percentage by which that refund is to be reduced where the proportion of broken rice in the rice exported exceeds that maximum.
- (4) Export possibilities exist for a quantity of 8 800 tonnes of rice to certain destinations. The procedure laid down in Article 8(3) of Commission Regulation (EC) No 1342/2003 ⁽⁴⁾ should be used. Account should be taken of this when the refunds are fixed.
- (5) Article 13(5) of Regulation (EC) No 3072/95 defines the specific criteria to be taken into account when the export refund on rice and broken rice is being calculated.

- (6) The world market situation or the specific requirements of certain markets may make it necessary to vary the refund for certain products according to destination.
- (7) A separate refund should be fixed for packaged long grain rice to accommodate current demand for the product on certain markets.
- (8) The refund must be fixed at least once a month; whereas it may be altered in the intervening period.
- (9) It follows from applying these rules and criteria to the present situation on the market in rice and in particular to quotations or prices for rice and broken rice within the Community and on the world market, that the refund should be fixed as set out in the Annex hereto.
- (10) For the purposes of administering the volume restrictions resulting from Community commitments in the context of the WTO, the issue of export licences with advance fixing of the refund should be restricted.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

Article 1

The export refunds on the products listed in Article 1 of Regulation (EC) No 3072/95 with the exception of those listed in paragraph 1(c) of that Article, exported in the natural state, shall be as set out in the Annex hereto.

Article 2

With the exception of the quantity of 8 800 tonnes provided for in the Annex, the issue of export licences with advance fixing of the refund is suspended.

Article 3

This Regulation shall enter into force on 1 September 2003.

S00: all destinations (third countries, other territories, victualling and destinations treated as exports from the Community) with the exception of Albania, Croatia, Bosnia and Herzegovina, Serbia and Montenegro (including Kosovo, as defined in UN Security Council Resolution 1244 of 10 June 1999) and the former Yugoslav Republic of Macedonia, save for sugar incorporated in the products referred to in Article 1(2)(b) of Council Regulation (EC) No 2201/96 (OJ L 297, 21.11.1996, p. 29).

⁽¹⁾ This amount is applicable to raw sugar with a yield of 92 %. Where the yield for exported raw sugar differs from 92 %, the refund amount applicable shall be calculated in accordance with Article 28(4) of Regulation (EC) No 1260/2001.

**COMMISSION REGULATION (EC) No 1533/2003
of 29 August 2003**

fixing the export refunds on syrups and certain other sugar products exported in the natural state

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the markets in the sugar sector ⁽¹⁾, as amended by Commission Regulation (EC) No 680/2002 ⁽²⁾, and in particular the second subparagraph of Article 27(5) thereof,

Whereas:

- (1) Article 27 of Regulation (EC) No 1260/2001 provides that the difference between quotations or prices on the world market for the products listed in Article 1(1)(d) of that Regulation and prices for those products within the Community may be covered by an export refund.
- (2) Article 3 of Commission Regulation (EC) No 2135/95 of 7 September 1995 laying down detailed rules of application for the grant of export refunds in the sugar sector ⁽³⁾, provides that the export refund on 100 kilograms of the products listed in Article 1(1)(d) of Regulation (EC) No 1260/2001 is equal to the basic amount multiplied by the sucrose content, including, where appropriate, other sugars expressed as sucrose; the sucrose content of the product in question is determined in accordance with Article 3 of Commission Regulation (EC) No 2135/95.
- (3) Article 30(3) of Regulation (EC) No 1260/2001 provides that the basic amount of the refund on sorbose exported in the natural state must be equal to the basic amount of the refund less one hundredth of the production refund applicable, pursuant to Commission Regulation (EC) No 1265/2001 of 27 June 2001 laying down detailed rules for the application of Council Regulation (EC) No 1260/2001 as regards granting the production refund on certain sugar products used in the chemical industry ⁽⁴⁾ to the products listed in the Annex to the last mentioned Regulation;
- (4) According to the terms of Article 30(1) of Regulation (EC) No 1260/2001, the basic amount of the refund on the other products listed in Article 1(1)(d) of the said Regulation exported in the natural state must be equal to one-hundredth of an amount which takes account, on

the one hand, of the difference between the intervention price for white sugar for the Community areas without deficit for the month for which the basic amount is fixed and quotations or prices for white sugar on the world market and, on the other, of the need to establish a balance between the use of Community basic products in the manufacture of processed goods for export to third countries and the use of third country products brought in under inward-processing arrangements.

- (5) According to the terms of Article 30(4) of Regulation (EC) No 1260/2001, the application of the basic amount may be limited to some of the products listed in Article 1(1)(d) of the said Regulation.
- (6) Article 27 of Regulation (EC) No 1260/2001 makes provision for setting refunds for export in the natural state of products referred to in Article 1(1)(f) and (g) and (h) of that Regulation; the refund must be fixed per 100 kilograms of dry matter, taking account of the export refund for products falling within CN code 1702 30 91 and for products referred to in Article 1(1)(d) of Regulation (EC) No 1260/2001 and of the economic aspects of the intended exports; in the case of the products referred to in the said Article 1(1)(f) and (g), the refund is to be granted only for products complying with the conditions in Article 5 of Regulation (EC) No 2135/95; for the products referred to in Article 1(1)(h), the refund shall be granted only for products complying with the conditions in Article 6 of Regulation (EC) No 2135/95.
- (7) The abovementioned refunds must be fixed every month; they may be altered in the intervening period.
- (8) The first subparagraph of Article 27(5) of Regulation (EC) No 1260/2001 provides that refunds on the products referred to in Article 1 of that Regulation may vary according to destination, where the world market situation or the specific requirements of certain markets make this necessary.
- (9) The significant and rapid increase in preferential imports of sugar from the western Balkan countries since the start of 2001 and in exports of sugar to those countries from the Community seems to be highly artificial in nature.

⁽³⁾ OJ L 214, 8.9.1995, p. 16.

⁽⁴⁾ OJ L 178, 30.6.2001, p. 63.

- (10) In order to prevent any abuses associated with the reimportation into the Community of sugar sector products that have qualified for export refunds, refunds for the products covered by this Regulation should not be fixed for all the countries of the western Balkans.
- (11) In view of the above, refunds for the products in question should be fixed at the appropriate amounts.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,

HAS ADOPTED THIS REGULATION:

Article 1

The export refunds on the products listed in Article 1(1)(d)(f)(g) and (h) of Regulation (EC) No 1260/2001, exported in the natural state, shall be set out in the Annex hereto to this Regulation.

COMMISSION REGULATION (EC) No 1534/2003
of 29 August 2003
fixing the production refund on white sugar used in the chemical industry

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the markets in the sugar sector ⁽¹⁾, as amended by Commission Regulation (EC) No 680/2002 ⁽²⁾, and in particular Article 7(5) thereof,

Whereas:

- (1) Pursuant to Article 7(3) of Regulation (EC) No 1260/2001, production refunds may be granted on the products listed in Article 1(1)(a) and (f) of that Regulation, on syrups listed in Article 1(1)(d) thereof and on chemically pure fructose covered by CN code 1702 50 00 as an intermediate product, that are in one of the situations referred to in Article 23(2) of the Treaty and are used in the manufacture of certain products of the chemical industry.
- (2) Commission Regulation (EC) No 1265/2001 of 27 June 2001 laying down detailed rules for the application of Council Regulation (EC) No 1260/2001 as regards granting the production refund on certain sugar products used in the chemical industry ⁽³⁾ lays down the rules for determining the production refunds and specifies the chemical products the basic products used in the manufacture of which attract a production refund. Articles 5, 6 and 7 of Regulation (EC) No 1265/2001 provide that the production refund applying to raw sugar, sucrose syrups and unprocessed isoglucose is to be derived from the refund fixed for white sugar in accordance with a method of calculation specific to each basic product.
- (3) Article 9 of Regulation (EC) No 1265/2001 provides that the production refund on white sugar is to be fixed at monthly intervals commencing on the first day of

each month. It may be adjusted in the intervening period where there is a significant change in the prices for sugar on the Community and/or world markets. The application of those provisions results in the production refund fixed in Article 1 of this Regulation for the period shown.

- (4) As a result of the amendment to the definition of white sugar and raw sugar in Article 1(2)(a) and (b) of Regulation (EC) No 1260/2001, flavoured or coloured sugars or sugars containing any other added substances are no longer deemed to meet those definitions and should thus be regarded as 'other sugar'. However, in accordance with Article 1 of Regulation (EC) No 1265/2001, they attract the production refund as basic products. A method should accordingly be laid down for calculating the production refund on these products by reference to their sucrose content.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,

HAS ADOPTED THIS REGULATION:

Article 1

The production refund on white sugar referred to in Article 4 of Regulation (EC) No 1265/2001 shall be equal to 43,237 EUR/100 kg net.

Article 2

This Regulation shall enter into force on 1 September 2003.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 29 August 2003.

COMMISSION REGULATION (EC) No 1535/2003
of 29 August 2003

laying down detailed rules for applying Council Regulation (EC) No 2201/96 as regards the aid scheme for products processed from fruit and vegetables

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 2201/96 of 28 October 1996 on the common organisation of the markets in processed fruit and vegetable products⁽¹⁾, as last amended by Commission Regulation (EC) No 453/2002⁽²⁾, and in particular Article 1(3), Article 3(2), Article 6, Article 6b(3), Article 6c(7), Article 25, Article 26 and Article 27(1) thereof,

Whereas:

- (1) Regulation (EC) No 2201/96 introduces aid to producer organisations delivering tomatoes, peaches and pears for the production of the products listed in Annex I to that Regulation and aid for the production of prunes and figs. These products must be obtained from fruit and vegetables harvested in the Community.
- (2) To simplify and clarify the system, some of the rules of application of the aid scheme should be amended in the light of experience gained. For the sake of clarity, Commission Regulation (EC) No 449/2001 of 2 March 2001 laying down detailed rules for applying Council Regulation (EC) No 2201/96 as regards the aid scheme for products processed from fruit and vegetables⁽³⁾, as last amended by Regulation (EC) No 1426/2002⁽⁴⁾, should be repealed and replaced.
- (3) To ensure that the scheme is applied uniformly, the products listed in Article 6a(1) of Regulation (EC) No 2201/96 and in Annex I thereto, the marketing years applicable to those products and the delivery periods for the raw materials should be defined.
- (4) Fruit in sugar syrup is produced in the European Union with a total sugar content of less than 14° Brix. The proportion of sugar in products eligible for aid should be reduced. The definition used should be based on the Codex Alimentarius Committee definition.
- (5) The scheme must be able to operate with a sufficient number of producer organisations and, for the sake of consistency and by analogy with Council Regulation

(EC) No 2202/96 of 28 October 1996 introducing a Community aid scheme for producers of certain citrus fruits⁽⁵⁾, as last amended by Commission Regulation (EC) No 1933/2001⁽⁶⁾, the term 'producer groups provisionally authorised' referred to in the first subparagraphs of Article 3(1) and Article 6a(2) of Council Regulation (EC) No 2201/96 must include producer groups which have been granted preliminary recognition under Article 14 of Council Regulation (EC) No 2200/96 of 28 October 1996 on the common organisation of the market in fruit and vegetables⁽⁷⁾, as last amended by Commission Regulation (EC) No 47/2003⁽⁸⁾.

- (6) The production aid scheme is based on contracts between producer organisations recognised or granted preliminary recognition under Regulation (EC) No 2200/96 and processors. Producers and producer organisations may also act as processors in certain circumstances. The types of contracts and the particulars to be included therein should be specified for the purposes of applying the aid scheme.
- (7) In order to improve the way the scheme operates, the competent authorities should be aware of all producer organisations marketing the production of their members, of members of other producer organisations and of individual producers wishing to qualify under the aid scheme. The competent authorities should also be aware of the processors signing contracts with such producer organisations, and such processors should send the authorities the information necessary to ensure that the scheme operates correctly. Processors of tomatoes, peaches and pears must be approved before they may conclude contracts.
- (8) Contracts must be concluded by a given date in the case of tomatoes, peaches and pears and before the beginning of each marketing year in the case of the other products. To ensure that the scheme is as effective as possible, the parties to such contracts should nevertheless be authorised to increase the quantities originally stipulated therein up to a given limit by means of amendments to the contracts.

⁽⁷⁾ OJ L 297, 21.11.1996, p. 1.

⁽⁸⁾ OJ L 7, 11.1.2003, p. 64.

- (9) The number of aid applications to be submitted by producer organisations and processors must be determined taking account of the processing process. Applications for aid must include all the information needed for checking eligibility. To compensate for the obligations imposed on producer organisations, provision should be made for the aid to be paid in advance, on condition that a security is lodged to ensure reimbursement if the requirements for receiving the advance payment are not complied with.
- (10) In order to ensure that the aid scheme is properly applied, producer organisations and processors must forward the necessary information and keep up-to-date suitable documentation and should, in particular, specify the areas under tomatoes, peaches and pears, on the basis of Council Regulation (EEC) No 3508/92 of 27 November 1992 establishing an integrated administration and control system for certain Community aid schemes ⁽¹⁾, as last amended by Commission Regulation (EC) No 495/2001 ⁽²⁾, and Commission Regulation (EC) No 2419/2001 of 11 December 2001 laying down detailed rules for applying the integrated administration and control system for certain Community aid schemes established by Council Regulation (EEC) No 3508/92 ⁽³⁾, as last amended by Regulation (EC) No 2550/2001 ⁽⁴⁾, for the purposes of all inspections and controls deemed necessary.
- (11) To meet the requirements of Regulation (EC) No 2201/96 and for market reasons, processors should be allowed greater flexibility in the manufacture of mixtures of fruits and sauces made from raw materials for which aid is granted.
- (12) For the purposes of administering the aid scheme, procedures must be laid down for physical and documentary checks on delivery and processing operations, checks must cover a sufficiently representative number of aid applications and certain penalties must be laid down for producer organisations and processors who breach the rules, in particular by making false declarations or failing to process products delivered.
- (13) To ensure the quality and reliability of the checks made, the burden of compulsory checks on stocks should be reduced. Nevertheless, in the case of newly approved processing undertakings, there should be two checks in the first marketing year in which they participate in the scheme.
- (14) To ensure proper application of Article 5(2) of Regulation (EC) No 2201/96, the data used for calculating any overrun of the Community threshold for peaches, pears and tomatoes should be clearly defined.
- (15) To ensure that the system for calculating any overrun of the Community threshold meets the requirements, provision should be made for a transitional period based on the data on aid applications for the 2003/2004 marketing year.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Products Processed from Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

Where processing takes place in another Member State, that Member State shall provide the Member State where the producer organisation signing the contract has its head office with proof that the product has in fact been delivered and accepted for processing.

Within 15 working days following receipt of the aid, the producer organisation shall pay in full the amounts received, by bank or postal transfer, to its members and, where applicable, to producers as referred to in Article 12(3). In cases covered by Article 4(2)(b), payment may be made by opening a credit line.

Where a producer organisation is wholly or partly made up of members which are themselves organisations with legal personality made up of producers, payments as provided for in the third subparagraph shall be paid on by those member organisations to the producers within 15 working days.

2. Aid for prunes and dried figs shall be paid by the competent authorities of the Member State in which the product is processed, once those authorities have established that the requirements for grant of the aid have been met.

3. Member States may decide what form the records and information referred to in paragraphs 1 and 2 shall take.

Member States may decide that the records referred to in paragraphs 1 and 2 are to be certified in the same way as records or accounting documents required under national law.

Article 31

Checks on tomatoes, peaches and pears

1. For each producer organisation delivering tomatoes, peaches and pears for processing, the following checks shall be conducted for each product and marketing year:

- (a) physical checks on:
 - at least 5 % of areas as referred to in Articles 10 and 12(1),

- at least 7 % of quantities delivered for processing, in order to check that they tally with the certificates referred to in Article 20 and comply with the minimum quality requirements;

- (b) administrative and accounting checks on at least 5 % of producers covered by contracts, in order to check that the details for each producer, in particular the areas, the total harvest, the quantity marketed by the producer organisation, the quantity delivered for processing and the quantity indicated in the delivery certificates, are consistent with the prices paid as provided for in Article 22(1) and the aid paid as provided for in Article 27(1);

- (c) administrative and accounting checks to verify that the total quantities of products delivered to the producer organisation by producers as referred to in Article 12(1) and (3), the total quantities delivered for processing, all the delivery certificates referred to in Article 20 and the total quantities stated in the aid application tally with the prices paid as provided for in Article 22(1) and the aid paid as provided for in Article 27(1);

- (d) administrative and accounting checks on at least 5 % of agreements as referred to in Article 12(4);

- (e) checks on all aid applications and supporting documents and, in the case of tomatoes, crosschecks on all declared parcels.

2. For processors of tomatoes, peaches and pears, the following checks shall be conducted for each factory, product and marketing year:

- (a) checks on at least 5 % of finished products to verify that the applicable minimum quality standards have been complied with;

- (b) physical and accounting checks on at least 5 % of finished products to verify the yield of raw materials processed in terms of the finished product obtained under contract and otherwise than under contract;

- (c) administrative and accounting checks to verify, on the basis of the invoices issued and received and on the basis of the accounting data, that the quantity of finished product obtained from the raw materials received and the quantities of finished products purchased tally with the quantities of finished products sold;

- (e) administrative and accounting checks on at least 10 % of payments of the prices referred to in Article 22(1).

In the case of newly approved undertakings, the checks referred to in (d) shall be conducted at least twice in the first year.

Article 32

Checks on prunes and dried figs

1. For each producer organisation delivering prunes and dried figs, administrative and accounting checks shall be conducted on at least 5 % of producers covered by contracts to verify that the following tally:

- (a) the raw materials delivered by each producer for processing; and
- (b) the payments provided for in Article 22(1).

2. For each factory, finished product and marketing year, the following checks shall be conducted:

- (a) unannounced physical checks;
- (b) administrative and accounting checks.

The unannounced physical checks shall be conducted on at least 5 % of finished products eligible for production aid, to verify that they comply with the minimum quality requirements applicable. Where the results of analysis of official samples are at variance with the particulars entered in processors' records, and indicate that the minimum Community quality requirements have not been met, no aid shall be paid for the processing operations concerned.

The administrative and accounting checks shall be conducted in order to verify:

- (a) that the quantities of raw materials used for processing correspond to those indicated in the aid application;
- (b) that the price paid for the raw materials processed into products as referred to in (a) is at least equal to the minimum price laid down;
- (c) transfer orders as referred to in Article 22(1).

Article 33

Reduction in aid in the event of discrepancies between the aid applied for and the amount due

1. Where it is ascertained, for a given product, that the aid for a product applied for in respect of any marketing year exceeds the amount due, then that amount shall be reduced,

unless the difference is clearly due to error. The reduction shall be equal to the difference. If the aid has already been paid, the beneficiary shall pay back twice the difference, plus interest calculated on the time elapsing between payment and reimbursement by the beneficiary.

The interest rate shall be that applied by the European Central Bank to its main refinancing operations, as published in the 'C' series of the *Official Journal of the European Union*, in force on the date of the undue payment, plus three percentage points.

2. If the difference referred to in paragraph 1 is more than 20 %, the beneficiary shall lose entitlement to the aid and, if the aid has already been paid, reimburse the total aid, plus interest calculated in accordance with paragraph 1.

If the difference is more than 30 %, the producer organisation or processor shall also forfeit any entitlement to aid for the product concerned for the following three marketing years.

3. Amounts recovered and interest under paragraphs 1 and 2 shall be paid to the competent paying agency and deducted from expenditure financed by the European Agricultural Guidance and Guarantee Fund.

Article 34

Reduction in aid resulting from checks on areas

1. In the case of tomatoes, if the area checks referred to in Article 31(1)(a) and (e) reveal that the area declared is larger than that actually determined, at the level of the total area checked, the aid payable to the producer organisation shall be reduced, unless the difference is clearly due to error:

- (a) by the percentage of the discrepancy established, if it is more than 5 % but no more than 20 % of the area determined,
- (b) by 30 % if the discrepancy is more than 20 % of the area determined.

Where the area declared is less than the area actually determined, and the discrepancy is more than 10 % of the area determined, the aid payable to the producer organisation shall be reduced by half the percentage of the discrepancy established.

2. The reductions provided for in paragraph 1 shall not apply where the producer organisation has submitted factually correct information or can show otherwise that it is not at fault.

The reductions provided for in paragraph 1 shall not apply to data which the producer organisation or its members inform the competent authority in writing are incorrect or have become incorrect since the information referred to in Article 12(1) was sent, provided that the producer organisation or its members were not informed of the competent authority's intention to carry out an on-the-spot check and that it was not informed by the competent authority of any irregularity found.

3. Where a producer organisation commits a repeated infringement, the Member State shall withdraw that organisation's recognition, or preliminary recognition in the case of a producer group granted preliminary recognition.

Article 35

Penalties in the event of discrepancies between quantities accepted for processing and quantities actually processed

1. Except in cases of *force majeure*, where it is found that the full quantity of tomatoes, peaches or pears accepted for processing under contract has not been processed into one of the products listed in Article 6a(1) of and Annex I to Regulation (EC) No 2201/96, the processor shall pay the competent authorities an amount equal to twice the unit amount of the aid multiplied by the quantity of the raw material concerned which has not been processed, plus interest calculated in accordance with Article 33(1).

In addition, except in cases duly justified to the satisfaction of the Member State, the processor's approval as provided for in Article 5 shall be suspended:

- (a) for the marketing year following the finding, if the difference found between the quantity accepted for processing and the quantity actually processed is more than 10 % but no more than 20 % of the quantity accepted for processing;
- (b) for two marketing years following the finding, if the difference is more than 20 %.

For the purposes of applying the first and second subparagraphs, any quantities of raw materials used in the manufacture of finished products not complying with the minimum quality requirements, in excess of an 8 % tolerance, shall be treated as quantities not processed.

2. Where the conditions for applying paragraph 1 are met, Member States shall provide that approval as referred to in Article 5 is to be withdrawn from processors in the following cases:

- (a) where the producer organisation makes false declarations with the collaboration of the processor,

- (b) where the processor fails to pay the price referred to in Article 7(1)(e),

- (c) where the processor fails to pay the penalties provided for in the first subparagraph of paragraph 1.

The Member State shall decide on the length of time for which the processor may not submit a new application for approval having regard to the seriousness of the case.

3. Amounts recovered and interest under paragraphs 1 and 2 shall be paid to the competent paying agency and deducted from expenditure financed by the European Agricultural Guidance and Guarantee Fund.

Article 36

Examination of compliance with processing thresholds

In the case of tomatoes, peaches and pears, compliance with the Community and national processing thresholds as referred to in Article 5(1) of Regulation (EC) No 2201/96 shall be established in all Member States concerned on the basis of the quantities for which aid is granted during the last three marketing years for which definitive data are available.

In the case of proven or suspected irregularities and where administrative or criminal enquiries have been launched to establish whether aid applications were justified, the disputed quantities shall not be taken into account for examining compliance with the thresholds.

Article 37

National penalties

Member States shall take appropriate measures to ensure that both prices and aid are paid in accordance with Articles 22 and 27 respectively. They shall provide in particular for penalties to be imposed on the officers of the producer organisation commensurate with the seriousness of any irregularity.

Article 38

Administrative cooperation between Member States

Member States shall take appropriate measures to establish reciprocal administrative cooperation to ensure that this Regulation is properly applied.

COMMISSION REGULATION (EC) No 1541/2003

of 29 August 2003

fixing the rates of refunds applicable to certain products from the sugar sector exported in the form of goods not covered by Annex I to the Treaty

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the market in sugar ⁽¹⁾, as amended by Commission Regulation (EC) No 680/2002 ⁽²⁾, and in particular Article 27(5)(a) and (15),

Whereas:

(1) Article 27(1) and (2) of Regulation (EEC) No 1260/2001 provides that the differences between the prices in international trade for the products listed in Article 1(1)(a), (c), (d), (f), (g) and (h) of that Regulation and prices within the Community may be covered by an export refund where these products are exported in the form of goods listed in the Annex to that Regulation. Commission Regulation (EC) No 1520/2000 of 13 July 2000 laying down common implementing rules for granting export refunds on certain agricultural products exported in the form of goods not covered by Annex I to the Treaty and the criteria for fixing the amount of such refunds ⁽³⁾, as last amended by Regulation (EC) No 740/2003 ⁽⁴⁾, specifies the products for which a rate of refund should be fixed, to be applied where these products are exported in the form of goods listed in Annex I to Regulation (EC) No 1260/2001.

(2) In accordance with Article 4(1) of Regulation (EC) No 1520/2000, the rate of the refund per 100 kilograms for each of the basic products in question must be fixed for each month.

(3) Article 27(3) of Regulation (EC) No 1260/2001 and Article 11 of the Agreement on Agriculture concluded under the Uruguay Round lay down that the export refund for a product contained in a good may not exceed the refund applicable to that product when exported without further processing.

(4) The refunds fixed under this Regulation may be fixed in advance as the market situation over the next few months cannot be established at the moment.

(5) The commitments entered into with regard to refunds which may be granted for the export of agricultural products contained in goods not covered by Annex I to the Treaty may be jeopardised by the fixing in advance of high refund rates. It is therefore necessary to take precautionary measures in such situations without, however, preventing the conclusion of long-term contracts. The fixing of a specific refund rate for the advance fixing of refunds is a measure which enables these various objectives to be met.

(6) In accordance with Council Regulation (EC) No 1039/2003 of 2 June 2003 adopting autonomous and transitional measures concerning the importation of certain processed agricultural products originating in Estonia and the exportation of certain agricultural products to Estonia ⁽⁵⁾, Council Regulation (EC) No 1086/2003 of 18 June 2003 adopting autonomous and transitional measures concerning the importation of certain processed agricultural products originating in Slovenia and the exportation of certain processed agricultural products to Slovenia ⁽⁶⁾, Council Regulation (EC) No 1087/2003 of 18 June 2003 adopting autonomous and transitional measures concerning the importation of certain processed agricultural products originating in Latvia and the exportation of certain processed agricultural products to Latvia ⁽⁷⁾, Council Regulation (EC) No 1088/2003 of 18 June 2003 adopting autonomous and transitional measures concerning the importation of certain processed agricultural products originating in Lithuania and the exportation of certain processed agricultural products to Lithuania ⁽⁸⁾, Council Regulation (EC) No 1089/2003 of 18 June 2003 adopting autonomous and transitional measures concerning the importation of certain processed agricultural products originating in the Slovak Republic and the exportation of certain processed agricultural products to the Slovak Republic ⁽⁹⁾ and Council Regulation (EC) No 1090/2003 of 18 June 2003 adopting autonomous and transitional measures concerning the importation of certain processed agricultural products originating in the Czech Republic and the exportation of certain processed agricultural products to the Czech Republic ⁽¹⁰⁾ with effect from 1 July 2003, processed agricultural products not listed in Annex I to the Treaty which are exported to Estonia, Slovenia, Latvia, Lithuania, Slovakia or Czech Republic are not eligible for export refunds.

COMMISSION REGULATION (EC) No 1544/2003
of 29 August 2003
determining the world market price for ungin­ned cotton

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Protocol 4 on cotton, annexed to the Act of Accession of Greece, as last amended by Council Regulation (EC) No 1050/2001 ⁽¹⁾,

Having regard to Council Regulation (EC) No 1051/2001 of 22 May 2001 on production aid for cotton ⁽²⁾, and in particular Article 4 thereof,

Whereas:

- (1) In accordance with Article 4 of Regulation (EC) No 1051/2001, a world market price for ungin­ned cotton is to be determined periodically from the price for gin­ned cotton recorded on the world market and by reference to the historical relationship between the price recorded for gin­ned cotton and that calculated for ungin­ned cotton. That historical relationship has been established in Article 2(2) of Commission Regulation (EC) No 1591/2001 of 2 August 2001 ⁽³⁾, as amended by Regulation (EC) No 1486/2002 ⁽⁴⁾. Where the world market price cannot be determined in this way, it is to be based on the most recent price determined.
- (2) In accordance with Article 5 of Regulation (EC) No 1051/2001, the world market price for ungin­ned cotton is to be determined in respect of a product of specific characteristics and by reference to the most favourable

offers and quotations on the world market among those considered representative of the real market trend. To that end, an average is to be calculated of offers and quotations recorded on one or more European exchanges for a product delivered cif to a port in the Community and coming from the various supplier countries considered the most representative in terms of international trade. However, there is provision for adjusting the criteria for determining the world market price for gin­ned cotton to reflect differences justified by the quality of the product delivered and the offers and quotations concerned. Those adjustments are specified in Article 3(2) of Regulation (EC) No 1591/2001.

- (3) The application of the above criteria gives the world market price for ungin­ned cotton determined hereinafter,

HAS ADOPTED THIS REGULATION:

Article 1

The world price for ungin­ned cotton as referred to in Article 4 of Regulation (EC) No 1051/2001 is hereby determined as equalling EUR 28,402/100 kg.

An I classification shall be generated for those cases where the test specimen is a pipe or duct configuration with no assessment of the closure for the conveyor system. The addition of the symbol "C" indicates that the product also satisfies the "self-closing" criterion (pass/fail test) (*).';
