THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 181a(2) thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the European Parliament,

Whereas:

(1) The European Council decided at its meeting in Brussels on 17 and 18 June 2004 that Croatia shall be a candidate country for membership, and requested the Commission to prepare a pre-accession strategy for Croatia, including the necessary financial instruments.

(2) In order to provide pre-accession assistance to Croatia it is appropriate to include it as a beneficiary under Council Regulations (EEC) No 3906/89 of 18 December 1989 on economic aid to certain countries of Central and Eastern Europe (PHARE)⁽¹⁾, Council Regulation (EC) No 1267/1999 of 21 June 1999, establishing an instrument for structural policies for pre-accession⁽²⁾ (ISPA) and Council Regulation (EC) No 1268/1999 of 21 June 1999 on Community support for pre-accession measures for agriculture and rural development in the applicant countries of central and eastern Europe in the pre-accession period⁽³⁾ (SAPARD).

(3) The Stabilisation and Association Agreement between the European Communities and their Member States and the Republic of Croatia, signed on 29 October 2001, in its Title III, requests Croatia to actively promote regional cooperation in the Western Balkans.

(4) The regional dimension of Community assistance to the Western Balkans is receiving a special attention through Council Regulation (EC) No 2666/2000 of 5 December 2000 on assistance for Albania, Bosnia and Herzegovina,

Croatia, the Federal Republic of Yugoslavia and the Former Yugoslav Republic of Macedonia⁽⁴⁾ (CARDS), with the view to promote regional cooperation, and Croatia should remain eligible for projects and programmes with a regional dimension.

(5) Decision 2004/648/EC⁽⁵⁾ determines the principles, priorities and conditions contained in the European Partnership with Croatia.

(6) The Memorandum of Understanding on the development of the South East Europe Core Regional Transport Network should facilitate the process of selecting priority measures for developing a pan-European transport network during the pre-accession period.

(7) The entry into force of Regulation (EC, Euratom) 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities⁽⁶⁾ necessitates certain adaptations of the Regulations to bring terminology and current practises in line with the abovementioned Regulation.

(8) Although the new Member States are not mentioned in this Regulation, Article 33 of the 2003 Act of Accession provides for the application of Regulations (EC) No 3906/1989 and (EC) No 1267/1999 for these Member States during a transitional period.

(9) The Commission has adopted Regulation (EC) No 1419/2004⁽⁷⁾ and Regulation (EC) No 447/2004⁽⁸⁾ which constitute the legal basis for the financing of measures under SAPARD under commitments which had not yet been brought to an end by the date of accession. Any decisions by the Commission which might still become necessary until the finalisation of such commitments and which cannot be based upon the two abovementioned Regulations may still be based on Regulation (EC) No 1268/1999 as it was in force prior to the amendment of that Regulation by the present Regulation.

- (4) The reference price for products other than those listed in Annexes I and II to Regulation (EC) No 104/2000 is established on the basis of the weighted average of customs values recorded on the import markets or in the ports of import in the three years immediately preceding the date on which the reference price is fixed.
- (5) There is no need to fix reference prices for all the species covered by the criteria laid down in Regulation (EC) No 104/2000, and particularly not for those imported from third countries in insignificant volumes.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fishery Products,

- (2) Commission Regulation (EC) No 2493/2001 of 19 December 2001 on the disposal of certain fishery products which have been withdrawn from the market⁽²⁾ specifies the ways of disposing of the products withdrawn from the market. The value of such products should be fixed at a standard level for each of these modes of disposal, taking into account the average revenues which may be obtained from such disposal in the various Member States.
- (3) Under Article 7 of Commission Regulation (EC) No 2509/2000 of 15 November 2000 laying down detailed rules for the application of Council Regulation (EC) No 104/2000 as regards granting financial compensation for withdrawals of certain fishery products⁽³⁾, special rules provide that, where a producer organisation or one of its members puts its products up for sale in a Member State other than the country in which it is

recognised, that body responsible for granting the financial compensation must be informed. This body is the one in the Member State in which the producer organisation is recognised. The standard value deductible should therefore be the value applied in that Member State.

- (4) The same method of calculation should be applied to advances on financial compensation as provided for in Article 6 of Regulation (EC) No 2509/2000.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fishery Products,

HAS ADOPTED THIS REGULATION:

Article 1

For the 2005 fishing year, the standard values to be used in calculating financial compensation and associated advances for fishery products withdrawn from the market by producer organisations and intended for purposes other than human consumption, as referred to in Article 21(5) of Regulation (EC) No 104/2000, are set out in the Annex to this Regulation.

Article 2

The standard value to be deducted from financial compensation and associated advances shall be that applied in the Member State in which the producer organisation is recognised.

Article 3

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2005.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COUNCIL

COUNCIL DECISION

of 5 July 2004

on the existence of an excessive deficit in Greece

(2004/917/EC)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 104(6) thereof,

Having regard to the recommendation from the Commission,

Having regard to the observations made by Greece,

Whereas:

- (1) According to Article 104 of the Treaty Member States are to avoid excessive government deficits.
- (2) The Stability and Growth Pact is based on the objective of sound government finances as a means of strengthening the conditions for price stability and for strong sustainable growth conducive to employment creation.
- (3) The excessive deficit procedure under Article 104 provides for a decision on the existence of an excessive deficit; the Protocol on the excessive deficit procedure annexed to the Treaty sets out further provisions relating to the implementation of the excessive deficit procedure. Council Regulation (EC) No 3605/93 of 22 November 1993 on the application of the Protocol on the excessive deficit procedure annexed to the Treaty establishing the European Community⁽¹⁾ lays down detailed rules and definitions for the application of the provisions of the said Protocol.
- (4) Article 104(5) of the Treaty requires the Commission to address an opinion to the Council if the Commission

considers that an excessive deficit in a Member State exists or may occur. The Commission addressed such an opinion on Greece to the Council on 24 June 2004. Having examined all relevant factors taken into account in its report in accordance with Article 104(3) and having regard to the opinion of the Economic and Financial Committee in accordance with Article 104(4), the Commission concluded in its opinion on 24 June 2004 that there exists an excessive deficit in Greece.

- (5) Article 104(6) of the Treaty lays down that the Council should consider any observations which the Member State concerned may wish to make before deciding, after an overall assessment, whether an excessive deficit exists.
- (6) The overall assessment leads to the following conclusions: the general government deficit reached 3,2% of GDP in 2003 in Greece. The breach of the 3% of GDP Treaty reference value in 2003 did not result, in the sense of the Stability and Growth Pact, from an unusual event outside the control of the Greek authorities, nor is it the result of a severe economic downturn. On the contrary, it occurred in a context of strong economic growth at 4,2% in 2003, and a positive output gap of around 1,5% of GDP. The outturn of the general government deficit in 2003 compares with a target deficit of 0,9% of GDP set in the December 2002 updated stability programme. According to the Commission, the significant slippage is attributed to extraordinary factors (overruns in expenditure related to the preparation of the Olympic Games and compensation for weather damages), to higher than planned current spending (social transfers and public sector wages) and to a shortfall of revenues (VAT, income taxes and reclassification, as a financial transaction, of a payment from the Saving Postal Bank to government).
- (7) According to its spring 2004 forecasts, based on the assumption of no policy change and a deficit figure for 2003 of 2,95% of GDP notified at the end of March, the Commission projects the general government deficit in Greece to reach 3,2% of GDP in 2004.

⁽¹⁾ OJ L 332, 31.12.1993, p. 7. Regulation as last amended by Commission Regulation (EC) No 351/2002 (OJ L 55, 26.2.2002, p. 23).

- (8) The debt-to-GDP ratio reached 103% of GDP in 2003, well above the 60% reference value of the Treaty. Moreover, in its Spring 2004 forecasts, the Commission projects the debt ratio to decline only marginally to 102,8% of GDP in 2004, which is above the 98,3% of GDP reported by the Greek authorities on 4 May 2004. The high level of government debt and its slow pace of reduction are a cause of concern, especially in a period of high nominal growth and positive and widening output gap.
- (9) At present the quality of public finance data remains uncertain. The deficit figure for 2003 of 3,2% of GDP in the notification of 4 May compares with a deficit of 1,7% of GDP notified in early March, which was modified to 2,95% of GDP at the end of the same month, following the new government's initiative for a far-reaching auditing of public finances. Since open issues remained about the underlying data, the Greek authorities are committed to resolve most pending issues promptly in close collaboration with Eurostat. Moreover, although Eurostat validated the figures of the 4 May notification, there are firm indications that there will be significant further, and as regards deficits almost

certainly upwards, revisions for 2003 and earlier years, when a customary notification is made in September 2004. Such revisions are moreover expected to have an upward impact on the deficit figures for 2004,

HAS ADOPTED THIS DECISION:

Article 1

From an overall assessment it follows that an excessive deficit exists in Greece.

COUNCIL DECISION
of 5 July 2004
on the existence of an excessive deficit in Hungary
(2004/918/EC)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 104(6) thereof,

Having regard to the recommendation from the Commission,

Having regard to the observations made by Hungary,

Whereas:

- (1) According to Article 104 of the Treaty, Member States are to avoid excessive government deficits; this applies also to Member States with a derogation, the case of all countries that joined the EU on 1 May 2004.
- (2) The Stability and Growth Pact is based on the objective of sound government finances as a means of strengthening the conditions for price stability and for strong sustainable growth conducive to employment creation.
- (3) The excessive deficit procedure under Article 104 provides for a decision on the existence of an excessive deficit and the Protocol on the excessive deficit procedure annexed to the Treaty sets out further provisions relating to the implementation of the excessive deficit procedure. Council Regulation (EC) No 3605/93 of 22 November 1993 on the application of the Protocol on the excessive deficit procedure annexed to the Treaty establishing the European Community⁽¹⁾, lays down detailed rules and definitions for the application of the provisions of the said Protocol.
- (4) Article 104(5) of the Treaty requires the Commission to address an opinion to the Council if the Commission considers that an excessive deficit in a Member State exists or may occur. Having examined all relevant factors taken into account in its report in accordance with Article 104(3) and having regard to the opinion of the Economic and Financial Committee in accordance with Article 104(4), the Commission concluded in its

opinion of 24 June 2004 that there exists an excessive deficit in Hungary.

- (5) Article 104(6) of the Treaty lays down that the Council should consider any observations which the Member State concerned may wish to make before deciding, after an overall assessment, whether an excessive deficit exists.
- (6) The overall assessment leads to the following conclusions: the general government deficit reached 5,9% of GDP in 2003 in Hungary, above the 3% of GDP Treaty reference value. The excess of the general government deficit over the reference value did not result from an unusual event outside the control of the Hungarian authorities, nor was it the result of a severe economic downturn, in the sense of the Stability and Growth Pact. The general government deficit is likely to remain above 3% of GDP in 2004. In particular, according to the Commission spring 2004 forecast, the deficit is projected to reach 4,9% of GDP in 2004, while the convergence programme of Hungary expects a deficit of 4,6% of GDP. The debt ratio, which was 59% in 2003, is likely to remain just below the 60% of GDP Treaty reference value in 2004,

HAS ADOPTED THIS DECISION:

Article 1

From an overall assessment it follows that an excessive deficit exists in Hungary.

This Decision is addressed to the Republic of Hungary.

COUNCIL DECISION
of 22 December 2004
on tackling vehicle crime with cross-border implications
(2004/919/EC)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 30(1)(a) and Article 34(2)(c) thereof,

Having regard to the initiative of the Kingdom of the Netherlands,

Having regard to the Opinion of the European Parliament,

Whereas:

- (1) An estimated 1,2 million motor vehicles are stolen each year in the Member States of the European Union.
- (2) These thefts involve considerable damage amounting to at least EUR 15 billion per year.
- (3) A large proportion of these vehicles, estimated at 30 to 40 %, are stolen by organised crime and then converted and exported to other States within and outside the European Union.
- (4) Besides causing material damage, this is also seriously damaging to citizens' sense of justice and feeling of security. Vehicle crime may be accompanied by serious forms of violence.
- (5) Consequently, attainment of the objective in Article 29 of the Treaty, to provide citizens with a high level of safety within an area of freedom, security and justice, is hampered.
- (6) The Council has adopted a Resolution of 27 May 1999 on combating international crime with fuller cover of the routes used⁽¹⁾.
- (7) Vehicle crime may also be linked internationally to other forms of crime, such as trafficking in drugs, firearms and human beings.

(8) Tackling vehicle crime is a matter for the law enforcement agencies of the Member States. However, a common approach involving — wherever practicable and necessary — cooperation between the Member States and law enforcement authorities of the Member States is necessary and proportional in order to address the cross-border aspects of this form of crime.

(9) Cooperation between law enforcement authorities and vehicle registration authorities is of particular importance, as is the provision of information to the relevant parties.

(10) Cooperation with Europol is equally important as Europol can provide analyses and reports on the matter.

(11) The European Police College offers police forces in the Member States, via the European Police Learning Net (EPLN), a library function in the field of vehicle crime for consulting information and expertise. Via its discussion function, EPLN also provides the possibility of exchanging knowledge and experience.

(12) The fight against vehicle crime will be intensified by an increase in the number of Member States acceding to the Treaty concerning a European Vehicle and Driving Licence Information System (EUCARIS) of 29 June 2000.

(13) A number of specific measures will need to be taken if vehicle crime with an international dimension is to be combated effectively,

HAS DECIDED AS FOLLOWS:

Article 1

2. Specific attention shall be given to cooperation with respect to export control, taking into account respective competences in the Member States.

*Article 4***Cooperation between competent authorities and the private sector**

1. Member States shall take the necessary steps to organise periodic consultations, as appropriate, among national competent authorities, in accordance with national law, and may involve representatives of the private sector (such as holders of private registers of missing vehicles, insurers and the car trade) in such consultations with a view to coordination of information and mutual alignment of activities in this area.

2. Member States shall facilitate procedures, in accordance with national law, for a quick repatriation of vehicles released by national competent authorities following their seizure.

*Article 5***Vehicle crime contact points**

1. By 30 March 2005, Member States shall designate, within their law enforcement authorities, a contact point for tackling cross-border vehicle crime.

2. Member States shall authorise the contact points to exchange experience, expertise as well as general and technical information concerning vehicle crime on the basis of existing applicable legislation. Information exchange shall extend to methods and best practices of prevention of vehicle crime. Such exchanges shall not include exchanges of personal data.

3. Information concerning the designated national contact points, including subsequent changes, shall be notified to the General Secretariat of the Council for publication in the *Official Journal of the European Union*.

*Article 6***Issuing alerts for stolen vehicles and registration certificates**

*Article 7***Registration**

1. Each Member State shall ensure that its competent authorities shall take the necessary steps to prevent abuse and theft of vehicle registration documents.

2. The national vehicle registration authorities shall be informed by law enforcement authorities whether a vehicle, that is in the process of being registered, is known as having been stolen. Access to databases to that end shall take place with due respect to provisions of Community law.

*Article 8***Preventing abuse of vehicle registration certificates**

1. In order to prevent abuse of vehicle registration certificates, each Member State shall, in accordance with national law, ensure that its competent authorities take the necessary steps to recover a vehicle owner's or vehicle holder's registration certificate if the vehicle has been seriously damaged in an accident (total loss).
2. A registration certificate shall also be recovered, in accordance with national law, where, during a check by the law enforcement agency, it is suspected that there has been an infringement concerning the vehicle's identity markings, such as the vehicle identification number.
3. Registration certificates shall be returned only following examination and positive verification of the vehicle's identity, and in accordance with national law.

*Article 9***Europol**

Each Member State shall ensure that its law enforcement authorities keep Europol informed on vehicle crime perpetrators as necessary, within the scope of that mandate and tasks.

*Article 10***Promotion of expertise and training**

Member States shall take the necessary steps to ensure that national institutes responsible for the training of relevant law enforcement authorities promote in their curricula, where appropriate in cooperation with the European Police College,

specialist training in the field of vehicle crime prevention and detection. Such training may include input from Europol, in accordance with its sphere of competence.

*Article 11***Meeting of contact points and annual report to the Council**

Vehicle crime contact points shall hold a meeting at least once a year under the auspices of the Member State holding the Presidency of the Council. Europol shall be invited to participate in that meeting. The Presidency shall report to the Council on the progress of relevant practical cooperation among law enforcement authorities.

*Article 12***Evaluation**

The Council shall evaluate the implementation of this Decision by 30 December 2007.

*Article 13***Entry into effect**

This Decision shall take effect on the day of its publication in the *Official Journal of the European Union*.

For those Member States in which the provisions of the Schengen acquis relating to the SIS have not yet been put into effect, the obligations of this Decision relating to the SIS shall take effect on the date on which those provisions start applying, as specified in a Council Decision adopted to that effect in accordance with the applicable procedures.

COMMISSION

COMMISSION DECISION

of 20 December 2004

on a derogation from certain provisions of Directive 2003/54/EC of the European Parliament and of the Council concerning the archipelago of the Azores

(notified under document number C(2004) 4880)

(Only the Portuguese text is authentic)

(2004/920/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Directive 2003/54/EC of the European Parliament and of the Council of 26 June 2003 concerning common rules for the internal market in electricity and repealing Directive 96/92/EC⁽¹⁾, and in particular Article 26(1) thereof,

Whereas:

(1) Article 26(1) of Directive 2003/54/EC provides that Member States which can demonstrate, after the Directive has been brought into force, that there are substantial problems for the operation of their small isolated systems, may apply for derogations from the relevant provisions of Chapters IV, V, VI, VII, as well as Chapter III, in the case of micro isolated systems, as far as refurbishing, upgrading and expansion of existing capacity are concerned, which may be granted to them by the Commission.

(2) Portugal submitted to the Commission on 29 June 2004 an application for derogation for an indefinite period of time from the provisions of Chapters III, IV, V, VI, VII under Article 26(1) of Directive 2003/54/EC concerning the archipelago of the Azores.

(3) The archipelago of the Azores qualifies as a 'micro isolated system' as defined in Article 2(27) of Directive 2003/54/EC.

⁽¹⁾ OJ L 176, 15.7.2003, p. 37. Directive as last amended by Council Directive 2004/85/EC (OJ L 236, 7.7.2004, p. 10).

(4) The archipelago of the Azores' peculiar characteristics of remoteness, insularity, small size, difficult topography and climate, have been acknowledged in Article 299(2) of the EC Treaty.

(5) The documents annexed to the Portuguese application give sufficient evidence that the objective of a competitive market in electricity is impossible or impractical to achieve given the very small level of production and the fact that the islands are also isolated from one another. In such a very small system, it is often not possible to have more than one generating facility per island, which makes the presence of competing generators very unlikely. The size of the market will hardly stimulate the application for authorisations or bids for tenders. Furthermore, there is no high voltage transmission system, and without competition in production the Directive's requirements regarding the unbundling of distribution systems lose their justification. The same considerations are valid concerning third party access to the system.

(6) The Commission, having examined the justification of Portugal's request, is satisfied that the derogation and the conditions for its application will not prejudice the achievement of the objectives of the Directive.

(7) However, possible technological developments in the medium and long term that may bring about substantial changes need to be taken into account.

(8) The Commission has consulted all Member States as prescribed in Article 26(1) of Directive 2003/54/EC,

HAS ADOPTED THIS DECISION:

Article 1

A derogation from the relevant provisions of Chapters IV, V, VI, VII, as well as Chapter III, as far as refurbishing, upgrading and expansion of existing capacity are concerned, is granted to the Portuguese Republic for the nine isles of the archipelago of the Azores.

Article 2

The Portuguese energy regulator shall monitor the evolution of the electricity sector of the Azores and report to the Commission any substantial change therein that may require the review of the granted derogation. A first report shall be submitted four years after the date of this decision and a second one nine years after that date.

Article 3

This derogation is valid for an indefinite period of time. It can be reviewed by the Commission if substantial changes occur in the electricity sector of the Azores.

COMMISSION DECISION

of 27 December 2004

concerning the funding by the Community of a Eurobarometer survey on the attitudes of consumers towards the welfare of farmed animals

(2004/921/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field⁽¹⁾, and in particular Article 17 thereof,

Whereas:

- (1) Under Decision 90/424/EEC, the Community shall make a financial contribution to the establishment of an information policy in the field of animal protection.
- (2) This information policy includes, *inter alia*, the performance of studies necessary for the preparation and development of legislation in the field of animal protection.
- (3) The performance of a survey assessing the attitudes of consumers towards the welfare of farmed animals, forms part of this information policy in the field of animal protection, and the financial resources necessary for the Community to perform this survey should therefore be engaged and granted subject to the planned survey having been efficiently carried out.
- (4) This survey will be carried out in the form of a specific Eurobarometer study within the scope of the Framework Contract⁽²⁾, concluded between the European Community, represented by the European Commission and TNS Opinion and Survey a consortium formed by

Taylor Nelson Sofres plc and EOS Gallup Europe, represented by the coordinating centre the European Omnibus Survey 'EOS Gallup Europe'.

- (5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

DECIDES:

COMMISSION DECISION

of 29 December 2004

amending Decisions 2003/746/EC and 2003/848/EC as regards the reallocation of the Community's financial contribution to Member States' TSE eradication and monitoring programmes for 2004

(notified under document number C(2004) 5396)

(2004/922/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field⁽¹⁾, and in particular Article 24(5) and (6) thereof,

Whereas:

- (1) Commission Decision 2003/746/EC of 14 October 2003 on the list of programmes for the eradication and the monitoring of certain TSEs qualifying for a financial contribution from the Community in 2004⁽²⁾, lists the programmes submitted to the Commission by the Member States for the monitoring of transmissible *spongiform encephalopathies* (TSE) qualifying for a Community financial contribution in 2004. That Decision also sets out the proposed rate and maximum amount of the contribution for each programme.
- (2) Commission Decision 2003/848/EC of 28 November 2003 approving the TSE eradication and monitoring programmes of Member States and certain acceding Member States for 2004 and fixing the level of the Community's financial contribution⁽³⁾, approves the programmes listed in Decision 2003/746/EC and lays down the maximum amounts of the Community's financial contribution.
- (3) Decision 2003/848/EC provides for progress reports to be forwarded by the Member States to the Commission every month. An analysis of those reports indicates that certain Member States will not utilise their full allocation for 2004, while others will spend in excess of the allocated amount.
- (4) The Community's financial contribution to certain of those programmes therefore needs to be adjusted. It is appropriate to reallocate funding from programmes of Member States which are not using their full allocation

to those that are exceeding it. The reallocation should be based on the most recent information on the expenditure actually incurred by the concerned Member States.

- (5) Decisions 2003/746/EC and 2003/848/EC should therefore be amended accordingly.
- (6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2003/746/EC is amended in accordance with the Annex to this Decision.

Article 2

Decision 2003/848/EC is amended as follows:

COMMISSION DECISION

of 29 December 2004

amending Decisions 2003/743/EC and 2003/849/EC as regards the reallocation of the Community's financial contribution to certain Member States for their programmes for the eradication and monitoring of animal diseases and for checks aimed at the prevention of zoonoses for 2004*(notified under document number C(2004) 5397)***(Text with EEA relevance)**

(2004/923/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field⁽¹⁾, and in particular Article 24(5) and (6), and Articles 29 and 32 thereof,

Whereas:

(1) Decision 90/424/EEC provides for the possibility of financial participation by the Community towards the programmes of Member States aimed at the eradication and monitoring of animal diseases and for checks aimed at the prevention of zoonoses.

(2) Commission Decision 2003/743/EC of 14 October 2003 on the lists of programmes for the eradication and monitoring of animal diseases and of checks aimed at the prevention of zoonoses qualifying for a financial contribution from the Community in 2004⁽²⁾ sets out the proposed rate and maximum amount of the Community's financial contribution for each programme submitted by the Member States.

(3) Commission Decision 2003/849/EC of 28 November 2003 approving programmes for the eradication and monitoring of certain animal diseases and for the prevention of zoonoses presented by the Member States for the year 2004 and fixing the level of the Community's financial contribution⁽³⁾ sets out the maximum amount of the Community's financial contribution for each programme submitted by the Member States.

(4) The Commission has analysed the reports forwarded by the Member States on the expenditures of those programmes. The results of that analysis show that certain Member States will not utilise their full allocation for 2004 while others will spend in excess of the allocated amount.

(5) The Community's financial contribution to certain of those programmes therefore needs to be adjusted. It is appropriate to reallocate funding from programmes of Member States, which are not using their full allocation to those that are exceeding it. The reallocation should be based on the most recent information on the expenditure actually incurred by the concerned Member States.

(6) Decisions 2003/743/EC and 2003/849/EC should therefore be amended accordingly.

(7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,
