(3) The national ceilings set under point K(2) of Annex VII to Regulation (EC) No 1782/2003 should be adjusted to take into account the most recent data on chicory and the national ceilings set in Annex VIII to that Regulation

(4) The ceilings set in point K(2) of Annex VII to Regulation (EC) No 1782/2003 should also be amended to take into account the quantities of quotas sugar and quota inulin syrup which were produced in one Member State from beet and chicory grown in another Member State during the 2000/01 to 2005/06 marketing years. COMMISSION REGULATION (EC) No 1164/2006
of 28 July 2006
fixing the export refunds on cereal-based compound feedingstuffs

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals ⁽¹⁾, and in particular Article 13(3) thereof,

Whereas:

- (1) Article 13 of Regulation (EC) No 1784/2003 provides that the difference between quotations or prices on the world market for the products listed in Article 1 of that Regulation and prices for those products within the Community may be covered by an export refund.
- (2) Commission Regulation (EC) No 1517/95 of 29 June 1995 laying down detailed rules for the application of Regulation (EC) No 1784/2003 as regards the arrangements for the export and import of compound feedingstuffs based on cereals and amending Regulation (EC) No 1162/95 laying down special detailed rules for the application of the system of import and export licences for cereals and rice ⁽²⁾ in Article 2 lays down general rules for fixing the amount of such refunds.
- (3) That calculation must also take account of the cereal products content. In the interest of simplification, the refund should be paid in respect of two categories of 'cereal products', namely for maize, the most commonly used cereal in exported compound feeds

and maize products, and for 'other cereals', these being eligible cereal products excluding maize and maize products. A refund should be granted in respect of the quantity of cereal products present in the compound feedingstuff.

- (4) Furthermore, the amount of the refund must also take into account the possibilities and conditions for the sale of those products on the world market, the need to avoid disturbances on the Community market and the economic aspect of the export.
- (5) The current situation on the cereals market and, in particular, the supply prospects mean that the export refunds should be abolished.
- (6) The Management Committee for Cereals has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

The export refunds on the compound feedingstuffs covered by Regulation (EC) No 1784/2003 and subject to Regulation (EC) No 1517/95 are hereby fixed as shown in the Annex to this Regulation.

COUNCIL

COUNCIL DECISION

of 17 July 2006

on relations between the European Community on the one hand, and Greenland and the Kingdom of Denmark on the other

(Text with EEA relevance)

(2006/526/EC)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 187 thereof,

Having regard to the proposal from the Commission,

Whereas:

(1) The Treaty amending, with regard to Greenland, the Treaties establishing the European Communities ⁽¹⁾ (The Greenland Treaty), which entered into force on 1 February 1985, provides that the Treaty establishing the European Community (EC Treaty) shall no longer apply to Greenland, but that Greenland, being a part of a Member State shall be associated to the European Community as one of the overseas countries and territories (OCTs).

(2) In its preamble, the Greenland Treaty states that arrangements should be introduced which permit close and lasting links between the Community and Greenland to be maintained and mutual interests, notably the development needs of Greenland, to be taken into account and that the arrangements applicable to OCTs set out in Part Four of the EC Treaty provide an appropriate framework for these relations.

(3) In accordance with Article 182 of the EC Treaty, the purpose of association is to promote the economic and social development of the OCTs and to establish close economic relations between them and the Community as a whole. Pursuant to Article 188 of the EC Treaty, the provisions of Articles 182 to 187 apply to Greenland, subject to the specific provisions set out in the Protocol on special arrangements for Greenland annexed to the Treaty.

(4) The provisions for the application of the principles set out in Articles 182 to 186 of the EC Treaty are set out in Council Decision 2001/822/EC of 27 November 2001 on the association of the overseas countries and territories with the European Community (Overseas Association Decision) ⁽²⁾, which continues to apply to Greenland under the conditions laid down in that Decision.

(5) The Council of the European Union in its conclusions of 24 February 2003 on the Mid-term Review of the Fourth Fisheries protocol between the European Community, the Government of Denmark and the Home Rule Government of Greenland, agreed that there is a need to broaden and strengthen future relations between the EU and Greenland taking into account the importance of fisheries and the structural development problems in Greenland. The Council further expressed its commitment to base the future relationship of the EU with Greenland after 2006 on a comprehensive partnership for sustainable development which will include a specific fisheries agreement, negotiated according to the general rules and principles for such agreements.

⁽¹⁾ OJ L 29, 1.2.1985, p. 1.

⁽²⁾ OJ L 314, 30.11.2001, p. 1.

- (6) In its above mentioned conclusions, the Council was of the view that within the next financial framework of the EU, and bearing in mind the needs of all the OCTs, future financial commitments towards Greenland should be orientated to their present level, while taking into account other prevailing circumstances and a fair balance of mutual interests, notably the development needs of Greenland and the needs of the Community for continued access to fish stocks available in Greenland waters on a sustainable basis, as well as financial contributions from other parties.
- (7) The Agreement on fisheries between the European Economic Community, on the one hand, and the Government of Denmark and the local Government of Greenland, on the other, signed in Brussels on 13 March 1984 ⁽¹⁾, which recalls the spirit of cooperation resulting from the Community's decision to grant the status of overseas territory to Greenland, will be replaced by a new Fisheries Partnership Agreement on 1 January 2007.
- (8) The Joint Declaration by the European Community, on the one hand, and the Home Rule Government of Greenland and the Government of Denmark, on the other, on partnership between the European Community and Greenland, signed in Luxembourg on 27 June 2006 ⁽²⁾, recalls the close historical, political, economic and cultural connections between the Community and Greenland and emphasises the need to strengthen further their partnership and cooperation in the areas covered by this decision.
- (9) The measures necessary for the implementation of this Decision should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽³⁾,

HAS DECIDED AS FOLLOWS:

For the Council

The President

E. TUOMIOJA

⁽¹⁾ OJ L 248, 16.9.2002, p. 1.

Joint declaration by the European Community, on the one hand, and the Home Rule Government of Greenland and the Government of Denmark, on the other, on partnership between the European Community and Greenland

1. PREAMBLE

The European Community, on the one hand, and the Home Rule Government of Greenland and the Government of Denmark, on the other,

- guided by the close historical, political, economic and cultural connections between Europe and Greenland,
- recalling the close and lasting links between the European Community and Greenland that were established by the Greenland Treaty in 1985, agreeing that these links should be maintained and confirming that mutual interests, notably the development needs of Greenland, will be taken into account by the European Community in its policies generally and in its relations with Greenland particularly,
- noting that the Council of the European Union agreed on 24 February 2003 that there is a need to broaden and strengthen future relations between the EU and Greenland, while taking into account the importance of fisheries and structural development problems in Greenland,
- considering that the European Community has a continuing geostrategic interest in treating Greenland, being part of a Member State, as a privileged neighbour and in contributing to Greenland's wellbeing and economic development,
- considering that Greenland is one of the overseas countries and territories associated with the European Community,
- considering that the European Community will take account of Greenland's interests in the context of the Arctic window of its northern dimension policy, mindful of the specific relevance of Greenland's fragile natural environment and of the challenges confronting its population,
- noting that, for the European Community, the maintenance of fishing activities in Greenland waters, by vessels flying the flag of a Member State, plays an essential part in the proper functioning of the common fisheries policy in the North Atlantic,

have decided to further strengthen the relationship and cooperation between the EU and Greenland, based on broadly shared interests, to the mutual benefit of their peoples, and to endow their mutual relations with a long term perspective.

2. COMMON OBJECTIVES

The European Community and Greenland state their intention to strengthen their partnership and cooperation in the following areas:

- cooperation in sustainably managing fish stocks and the marine environment as well as providing fishing opportunities for the vessels of EU Member States. This is, and will remain, an essential pillar of the partnership between the EC and Greenland and will continue to be based on the EC Greenland Fisheries Partnership Agreement and its successor Protocols,

- cooperation in the field of education and training,
- cooperation in the context of Greenland's efforts to develop its economy in a sustainable way, in particular in the fields of mineral resources, tourism and culture,
- cooperation in the context of the EC's efforts to deal with climate change and to promote sustainable development in the Arctic area,
- cooperation and joint scientific research on and practical development of alternative energy sources,
- joint research and development concerning northern maritime routes and Greenland's exclusive economic zone.

The European Community, for its part, states that:

- considering its objectives under the Greenland Treaty, which entered into force on 1 February 1985, and the close and mutually beneficial relations between Greenland and the European Union over the last 20 years,
- noting the geostrategic importance of Greenland, in particular in the context of the Arctic window of the northern dimension policy,
- considering the importance of Greenland as a responsible partner for the management and conservation of the environment and natural resources, including fish stocks,

it wishes to develop its cooperation with Greenland over the next seven years on the basis of a twofold partnership consisting of a Fisheries Partnership Agreement, taking into account the actual fishing possibilities available to the European Community in Greenland's waters, and of comprehensive cooperation in sectors other than fisheries, taking into account Greenland's status as an OCT;

it further wishes to ensure the continuation of the commitment of funds from the EU budget for cooperation with Greenland, oriented to the same level as in previous years, on the basis of this twofold partnership.

3. IMPLEMENTATION OF THE PARTNERSHIP

To achieve their common goals and develop their partnership, the European Community and Greenland will inform and consult each other in the areas covered by this partnership and any other mutually decided areas that arise in the spirit of this declaration.

They consider that:

- concerning the implementation of the part of the comprehensive partnership other than the Fisheries Partnership Agreement, Greenland's association with the European Community as an overseas country or territory represents an appropriate framework to respond to the needs of Greenland and to care for its specific needs, taking into account its very remote location, its extreme climate and its historical legacy,
- their cooperation should be developed in areas including education, food safety and the development of resources that have the potential to contribute towards the sustainable development of Greenland's economy and to remedy its structural problems,
- scientific cooperation covering new energy resources as well as climate change should be developed. This cooperation will also involve scientific research concerning Greenland's exclusive economic zone, bearing in mind future developments in maritime transport.

The European Community intends to pursue future cooperation with Greenland, in sectors other than fisheries, by means of a Council Decision, taken on the basis of Article 187 of the EC Treaty, to include funding through financial support from the budget of up to EUR 25 million per year within the financial perspective for 2007-2013.

Both sides share the conviction that their partnership will greatly benefit from the mutual knowledge and understanding acquired through the full use of all existing consultative forums and in particular through regular dialogue and consultations, as appropriate, between officials on both sides.

In this context Greenland intends to report at the end of each year on progress towards fulfilling the abovementioned objectives. Before the end of June 2010 the European Community and Greenland will undertake a comprehensive mid-term review of their partnership.

COMMISSION DECISION

of 27 July 2006

amending Decision 2006/147/EC on introducing preventive vaccination against highly pathogenic avian influenza H5N1 and related provisions for movements in the Netherlands

(notified under document number C(2006) 3338)

(Only the Dutch text is authentic)

(2006/528/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza and repealing Directive 92/40/EEC ⁽¹⁾, and in particular, Article 57 (2) thereof,

Whereas:

- (1) Commission Decision 2006/147/EC of 24 February 2006 on introducing preventive vaccination against highly pathogenic avian influenza H5N1 and related provisions for movements in the Netherlands ⁽²⁾ approved the plan for preventive vaccination against highly pathogenic avian influenza H5N1, submitted by the Netherlands to the Commission on 21 February 2006 (the preventive vaccination plan). It also provided for certain measures to be applied in the Netherlands where preventive vaccination is carried out in certain poultry holdings at particular risk for the introduction of infection by that disease, including movement restrictions on vaccinated poultry.
- (2) In accordance with the preventive vaccination plan, the Netherlands has undertaken the preventive vaccination of 'organic' and 'free range layer' poultry and 'backyard poultry' against highly pathogenic avian influenza H5N1. The preventive vaccination plan is a pilot project since there is limited experience with preventive vaccination under such conditions and for some of the species concerned.
- (3) The preventive vaccination plan, as submitted by the Netherlands and approved by Decision 2006/147/EC, provides that preventive vaccination must be completed by 30 June 2006. The Netherlands carried out vaccinations in accordance with the preventive vaccination until that date.
- (4) In accordance with the obligations for reporting under Article 13 of Decision 2006/147/EC the Netherlands has submitted a report containing information on the implementation of the preventive vaccination plan and has

reported to the Standing Committee on the Food Chain and Animal Health as well as to expert working groups on the use of preventive vaccination and has requested to continue such vaccination.

- (5) In addition, on the basis of the information provided by the Netherlands, it seems that further field experience is needed with respect to the use of preventive vaccination against the spread of highly pathogenic avian influenza of H5N1 subtype. It is therefore appropriate to approve such preventive vaccination until 31 July 2007.
- (6) The Netherlands has also requested approval of certain amendments to the preventive vaccination plan submitted on 21 February 2006, as regards its practical implementation such as the species to be vaccinated, the use of bivalent vaccines, identification of individual birds in backyard poultry flocks, the place of vaccination and restrictions on movements of such poultry. The Commission considers that those amendments are in accordance with the relevant Community legislation.
- (7) Decision 2006/147/EC should therefore be amended accordingly.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2006/147/EC is amended as follows:

1. Article 1(2)(a) is replaced by the following:

'(a) "backyard poultry" means chicken, turkeys and other species belonging to the *Galliformes* order and ducks, geese and other species belonging to the *Anseriformes* order which are kept by their owners:

(i) for their own consumption or use; or

(ii) as pets.'

⁽¹⁾ OJ L 10, 14.1.2006, p. 16.

⁽²⁾ OJ L 55, 25.2.2006, p. 47.

2. Article 2(1) is replaced by the following:

'1. The plan for preventive vaccination against highly pathogenic avian influenza H5N1, as submitted by the Netherlands to the Commission on 21 February 2006, and the amendments to that plan, including the continuation of that plan until 31 July 2007, as submitted by the Netherlands to the Commission on 29 June 2006, are approved (the preventive vaccination plan).

In accordance with the preventive vaccination plan, the preventive vaccination against avian influenza shall be carried out with an inactivated heterologous vaccine of avian influenza subtype H5 or with a bivalent inactivated heterologous vaccine containing both avian influenza subtypes H5 and H7 authorised by the Netherlands in backyard poultry, organic and free range layers in the Netherlands.'

3. Article 4, point 1 is replaced by the following:

'1. Vaccinated backyard poultry shall be individually identified and may only be:

(a) moved to other backyard holdings within the Netherlands; or

(b) temporarily gathered for shows and exhibitions in the Netherlands.

Such movements or gatherings must be in accordance with the preventive vaccination plan, including the maintenance of records of such movements and gatherings.'
