Notice concerning the entry into force of the Protocol to the Framework Agreement on Comprehensive Partnership and Cooperation between the European Union and its Member States, of the one part, and the Socialist Republic of Viet Nam, of the other part, to take account of the accession of the Republic of Croatia to the European Union

The Protocol to the Framework Agreement on Comprehensive Partnership and Cooperation between the European Union and its Member States, of the one part, and the Socialist Republic of Viet Nam, of the other part, to take account of the accession of the Republic of Croatia to the European Union ⁽¹⁾ will enter into force on 1 December 2017, the procedure provided for in Article 4.2 of the Protocol to the Framework Agreement having been completed on 6 November 2017.

⁽¹⁾ OJ L 348, 21.12.2016, p. 3.

REGULATIONS

COMMISSION DELEGATED REGULATION (EU) 2017/2167

of 5 July 2017

amending Delegated Regulation (EU) 2016/2374 establishing a discard plan for certain demersal fisheries in South-Western waters

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy, amending Council Regulations (EC) No 1954/2003 and (EC) No 1224/2009 and repealing Council Regulations (EC) No 2371/2002 and (EC) No 639/2004 and Council Decision 2004/585/EC ⁽¹⁾, and in particular Articles 15(6) and 18(1) and (3) thereof,

Whereas:

- (1) Regulation (EU) No 1380/2013 aims to progressively eliminate discards in Union fisheries through the introduction of a landing obligation for catches of species subject to catch limits.
- (2) According to Article 15(1)(d) of Regulation (EU) No 1380/2013, the landing obligation applies in South-Western waters at the latest from 1 January 2017 to species that define the fisheries.
- (3) In order to implement the landing obligation, Commission Delegated Regulation (EU) 2016/2374 ⁽²⁾ has established a discard plan for certain demersal fisheries in South-Western waters for the period 2016-2018, following a joint recommendation submitted by Belgium, Spain, France, the Netherlands and Portugal in 2016.
- (4) Belgium, Spain, France, the Netherlands and Portugal have a direct fisheries management interest in South-Western waters. On 2 January 2017, those Member States submitted a new joint recommendation to the Commission after consultation of the South-Western Waters Advisory Council.
- (5) The new joint recommendation supplements the discard plan established by Delegated Regulation (EU) 2016/2374 and covers the fisheries of black scabbardfish in ICES (International Council for the Exploration of the Seas) divisions VIIIa, IX and X and CECAF (Fishery Committee for the Eastern Central Atlantic) area 34.1.2, and the fisheries of red seabream in ICES division IX.
- (6) That measure suggested by the new joint recommendation is in line with Article 18(3) of Regulation (EU) No 1380/2013 and may thus be included in Delegated Regulation (EU) 2016/2374.
- (7) The new joint recommendation suggested that an exemption from the landing obligation be applied to black scabbardfish caught by deepwater set-longlines in ICES divisions VIIIa, IX and X and CECAF area 34.1.2, as existing scientific advice indicates the low frequency of occurrence (and number of specimens) registered, taking into account the characteristics of the gears targeting this species, the fishing practices and the ecosystem. ICES inits evaluation concluded that the discards can be assumed null or negligible for most assessment purposes as the black scabbardfish discard mortality is mainly caused by shark and cetacean predation on hooked black scabbardfish and is relatively low when compared to landings. In the light of the above the Commission therefore accepts the proposed exemption.
- (8) The new joint recommendation also suggests that an exemption from the landing obligation be applied to red seabream in ICES subarea IX, as Member States consider that scientific evidence indicates possible high survival rates. However, new studies need to be carried out to prove it and the exemption may be considered in the future when Member States concerned will submit data from ongoing trials to the Commission.

⁽¹⁾ OJ L 354, 28.12.2013, p. 22.

⁽²⁾ Commission Delegated Regulation (EU) 2016/2374 of 12 October 2016 establishing a discard plan for certain demersal fisheries in South-Western waters (OJ L 352, 23.12.2016, p. 33).

- (9) The Annex to Delegated Regulation (EU) 2016/2374 should be restructured for reasons of clarity.
- (10) Delegated Regulation (EU) 2016/2374 should be amended accordingly.
- (11) Since the measures provided for in this Regulation impact directly on the economic activities linked to and the planning of the fishing season of Union vessels, this Regulation should enter into force immediately after its publication. It should apply from 1 January 2017, as an exception to a general principle, due to the late submission of the joint recommendation,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Delegated Regulation (EU) 2016/2374 is replaced by the text in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2017.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 5 July 2017.

For the Commission
The President
Jean-Claude JUNCKER

ANNEX

'ANNEX

Fisheries subject to the landing obligation**1. Common sole (*Solea solea*) fisheries**

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES divisions VIIIa, b, d and e	OTB, OTT, PTB, TBN, TBS, TB, OT, PT, TX	All Bottom Trawls	Mesh size between 70 mm and 100 mm wide	All catches of common sole
	TBB	All Beam trawls	Mesh size between 70 mm and 100 mm wide	
	GNS, GN, GND, GNC, GTN, GTR, GEN	All Trammel nets & Gill nets	Mesh size larger or equal to 100 mm wide	

2. Common sole (*Solea solea*) and plaice (*Pleuronectes platessa*) fisheries

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES division IXa	GNS, GN, GND, GNC, GTN, GTR, GEN	All Trammel nets & Gill nets	Mesh size larger or equal to 100 mm	All catches of common sole and plaice

3. Hake (*Merluccius merluccius*) fisheries

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES divisions VIIIa, b, d and e	OTT, OTB, PTB, SDN, OT, PT, TBN, TBS, TX, SSC, SPR, TB, SX, SV	All Bottom Trawls & Seines	Mesh size larger or equal to 100 mm wide	All catches of hake
	LL, LLS	All Long lines	All	
	GNS, GN, GND, GNC, GTN, GEN	All Gill Nets	Mesh size larger or equal to 100 mm wide	
ICES divisions VIIIc and IXa	OTT, OTB, PTB, OT, PT, TBN, TBS, TX, SSC, SPR, TB, SDN, SX, SV	All Bottom Trawls and Seines	Vessels which fulfil the following cumulative criteria: 1. Use mesh size larger or equal to 70 mm 2. Total hake landings in the period 2014/2015 ⁽¹⁾ consist of: more than 5 % of all landed species and more than 5 metric tons.	All catches of hake

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
	GNS, GN, GND, GNC, GTN, GEN	All Gill Nets	Mesh size between 80 and 99 mm wide	
	LL, LLS	All Long lines	Hook size bigger than 3,85 cm +/- 1,15 cm length and 1,6 cm +/- 0,4 cm width	

(¹) Reference period will be updated accordingly for subsequent years. For 2018 the reference period will be 2015 and 2016 and for 2019 the reference period will be 2016 and 2017.

4. Anglerfish (*Lophiidae*) fisheries

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES divisions VIIIa, b, d and e	GNS, GN, GND, GNC, GTN, GEN	All Gill Nets	Mesh size larger of equal to 200 mm wide	All catches of anglerfish
ICES divisions VIIIc and IXa	GNS, GN, GND, GNC, GTN, GEN	All Gill Nets	Mesh size larger of equal to 200 mm wide	All catches of anglerfish

5. Norway lobster (*Nephrops norvegicus*) fisheries

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES divisions VIIIa, b, d and e (only inside functional units)	OTB, OTT, PTB, TBN, TBS, TB, OT, PT, TX	All Bottom Trawls	Mesh size larger or equal to 70 mm	All catches of Norway lobster
ICES divisions VIIIc and IXa (only inside functional units)	OTB, PTB, OTT, TBN, TBS, OT, PT, TX TB	All Bottom Trawls	Mesh size larger or equal to 70 mm	All catches of Norway lobster

6. Black scabbardfish (*Aphanopus carbo*) fisheries

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES divisions VIIIc, IX, X and CECAF zone 34.1.2	LLS, DWS	Deepwater set-longlines	—	All catches of black scabbardfish

7. Red seabream (*Pagellus bogaraveo*) fisheries

Fishing zones	Gear Code	Fishing gear description	Mesh Size	Species to be landed
ICES division IX	LLS, DWS	Deepwater set-longlines	Hook size bigger than 3,95 cm length and 1,65 cm width	All catches of red seabream'

COMMISSION DELEGATED REGULATION (EU) 2017/2168**of 20 September 2017****amending Regulation (EC) No 589/2008 as regards marketing standards for free range eggs where hens' access to open air runs is restricted**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 ⁽¹⁾, and in particular Article 75(2) thereof,

Whereas:

- (1) Commission Regulation (EC) No 589/2008 ⁽²⁾ lays down detailed rules for implementing Council Regulation (EC) No 1234/2007 ⁽³⁾ as regards marketing standards for eggs. In particular, point 1 of Annex II to Regulation (EC) No 589/2008 lays down minimum requirements for 'free range eggs'.
- (2) Regulation (EU) No 1308/2013 has replaced Regulation (EC) No 1234/2007 and empowers the Commission to adopt delegated acts in this respect in accordance with its Article 227.
- (3) Point 1(a) of Annex II to Regulation (EC) No 589/2008 provides for a derogation period to market eggs as 'free range' in cases of restricted access to open air due to restrictions adopted under Union law, including veterinary restrictions to protect public and animal health, but for a period of no more than 12 weeks. Following serious outbreaks of avian influenza in the Union, it appears necessary to provide for a longer derogation period and further clarify rules with a view to their harmonised implementation throughout the Union, in particular regarding the starting point of the derogation period.
- (4) Annex II to Regulation (EC) No 589/2008 should therefore be amended accordingly.
- (5) With a view to ensuring an immediate implementation of this measure, the Regulation should enter into force on the third day following its publication in the *Official Journal of the European Union*,

HAS ADOPTED THIS REGULATION:

Article 1

Annex II to Regulation (EC) No 589/2008 is replaced by the text set out in the Annex to this Regulation.

*Article 2*This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.⁽¹⁾ OJ L 347, 20.12.2013, p. 671.⁽²⁾ Commission Regulation (EC) No 589/2008 of 23 June 2008 laying down detailed rules for implementing Council Regulation (EC) No 1234/2007 as regards marketing standards for eggs (OJ L 163, 24.6.2008, p. 6).⁽³⁾ Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) (OJ L 299, 16.11.2007, p. 1).

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 September 2017.

For the Commission
The President
Jean-Claude JUNCKER

ANNEX

Minimum requirements for systems of production for the various egg farming methods

1. 'Free-range eggs' must be produced in systems of production which satisfy at least the conditions specified in Article 4 of Council Directive 1999/74/EC⁽¹⁾.

In particular, the following conditions must be satisfied:

- (a) hens must have continuous daytime access to open-air runs. However, this requirement does not prevent a producer from restricting access for a limited period of time in the morning hours in accordance with usual good farming practice, including good animal husbandry practice.

Should measures adopted under Union law require access of hens to open-air runs to be restricted in order to protect public or animal health, eggs may be marketed as 'free-range' notwithstanding that restriction, provided that the laying hens have not had their access to open air runs restricted for a continuous period of more than 16 weeks. That maximum period shall start from the date on which the group of hens in question, put in place at the same time, actually had their access to open air runs restricted.

- (b) open-air runs to which hens have access must be mainly covered with vegetation and not be used for other purposes except for orchards, woodland and livestock grazing if the latter is authorised by the competent authorities;
 - (c) the maximum stocking density of open-air runs must not be greater than 2 500 hens per hectare of ground available to the hens or one hen per 4 m² at all times. However, where at least 10 m² per hen is available and where rotation is practised and hens are given even access to the whole area over the flock's life, each paddock used must at any time assure at least 2,5 m² per hen;
 - (d) open-air runs must not extend beyond a radius of 150 m from the nearest pophole of the building. However, an extension of up to 350 m from the nearest pophole of the building is permissible provided that a sufficient number of shelters as referred to in Article 4(1)(3)(b)(ii) of Directive 1999/74/EC are evenly distributed throughout the whole open-air run with at least four shelters per hectare.
2. 'Barn eggs' must be produced in systems of production which satisfy at least the conditions specified in Article 4 of Directive 1999/74/EC.
 3. 'Eggs from caged hens' must be produced in systems of production which satisfy at least:
 - (a) the conditions specified in Article 5 of Directive 1999/74/EC until 31 December 2011; or
 - (b) the conditions specified in Article 6 of Directive 1999/74/EC.
 4. Member States may authorise derogations from points 1 and 2 of this Annex for establishments with fewer than 350 laying hens or rearing breeding laying hens as regards the obligations referred to in the second sentence of points 1(d),1(e), 2, 3(a)(i) and 3(b)(i) of Article 4(1) of Directive 1999/74/EC.

⁽¹⁾ Council Directive 1999/74/EC of 19 July 1999 laying down minimum standards for the protection of laying hens (OJ L 203, 3.8.1999, p. 53).

COMMISSION IMPLEMENTING REGULATION (EU) 2017/2169**of 21 November 2017****concerning the format and arrangements for the transmission of European Statistics on natural gas and electricity prices pursuant to Regulation (EU) 2016/1952 of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1952 of the European Parliament and of the Council of 26 October 2016 concerning European statistics on natural gas and electricity prices and repealing Directive 2008/92/EC ⁽¹⁾, and in particular Article 5(2) thereof

Whereas:

- (1) Regulation (EU) 2016/1952 establishes the common framework for producing comparable European statistics on natural gas and electricity prices for household and final non-household customers in the Union.
- (2) In accordance with Article 5(2) of Regulation (EU) 2016/1952 Member States should transmit the statistical data in electronic form, in order to conform to an appropriate technical format to be laid down by the Commission.
- (3) The Statistical Data and Metadata exchange (SDMX) provides statistical and technical standards for the exchange of official statistics. A technical format in accordance with these standards should therefore be established by the Commission (Eurostat) within the European Statistical System in close cooperation with Member States.
- (4) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee,

HAS ADOPTED THIS REGULATION:

Article 1

The data on natural gas and electricity prices for household and final non-household customers in the Union shall be provided to Eurostat through the single entry point to enable the Commission (Eurostat) to retrieve those data by electronic means.

Article 2

The structure used for transmitting data to the Commission (Eurostat) is set out in the Annexes.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

⁽¹⁾ OJ L 311, 17.11.2016, p. 1.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 November 2017.

Jean-Claude JUNCKER

ANNEX I

The structure for transmitting statistical data on natural gas price

Information to be included in the transmission files:

General Information

Field	Remarks	Reporting Frequency
Country	Name of the reporting country	Semester
Organisation	Name of the reporting organisation	Semester
Contact person	Name of the reporting officer	Semester
Email address	Email address of the reporting officer	Semester
Year	Reference year for the data (2017, 2018 etc.)	Semester
Semester	1 or 2	Semester

For every consumption band the fields in Tables 1, 2 and 4 are to be transmitted.

The bands for the household consumers are:

- Band-D1 (small): annual consumption below 20 GJ;
- Band-D2 (medium): annual consumption 20 or more but less than 200 GJ;
- Band-D3 (large): annual consumption 200 GJ or more.

The bands for the non-household consumers are:

- Band-I1: annual consumption below 1 000 GJ;
- Band-I2: annual consumption 1 000 or more but less than 10 000 GJ;
- Band-I3: annual consumption 10 000 or more but less than 100 000 GJ;
- Band-I4: annual consumption 100 000 or more but less than 1 000 000 GJ;
- Band-I5: annual consumption 1 000 000 or more but less than 4 000 000 GJ;
- Band-I6: annual consumption 4 000 000 GJ or more.

Data in Table 3 are to be specified as averages covering all consumption bands together.

Table 1: Main price levels

Field	Remarks	Reporting Frequency
Confidentiality Status		Semester
Price without taxes — value — observation status	This price level shall include only the energy and supply component and the network component.	Semester

Field	Remarks	Reporting Frequency
Price excluding VAT and other recoverable taxes — value — observation status	This price level shall include the energy and supply component, the network component and taxes, fees, levies and charges considered as non-recoverable for final non-household customers. For household customers this price level shall include the energy and network components and taxes, fees, levies and charges but excludes VAT.	Semester
Price including all taxes and VAT (recoverable and non-recoverable) — value — observation status	This price level shall include the energy and supply component, the network component, and all recoverable and non-recoverable taxes, fees, levies and charges, including VAT.	Semester

Values are specified in national currency per gigajoule (gross calorific value).

Confidentiality and observation status are set using standard code lists.

Table 2: Detailed breakdown of prices in components and sub-components

Field	Remarks	Reporting Frequency
Confidentiality status		
Energy and supply price — value — observation status	This component shall include the commodity price for natural gas paid by the supplier or the price of natural gas at the point of entry into the transmission system, including, if applicable, the following end-user costs: storage costs plus costs relating to the sale of natural gas to final customers.	Annual
Network price — value — observation status	The network price shall include the following end-user costs: transmission and distribution tariffs, transmission and distribution losses, network costs, after-sale service costs, system service costs and meter rental and metering costs.	Annual
Value added tax — value — observation status	Value added tax as defined in Council Directive 2006/112/EC ⁽¹⁾	Annual
Renewable taxes — value — observation status	Taxes, fees, levies or charges relating to the promotion of renewable energy sources, energy efficiency and CHP (combined heat and power) generation.	Annual
Capacity taxes — value — observation status	Taxes, fees, levies or charges relating to strategic stockpiles, capacity payments and energy security; taxes on natural gas distribution; stranded costs and levies on financing energy regulatory authorities or market and system operators.	Annual

Field	Remarks	Reporting Frequency
Environmental taxes — value — observation status	Taxes, fees, levies or charges relating to air quality and for other environmental purposes; taxes on emissions of CO ₂ or other greenhouse gases.	Annual
Other taxes — value — observation status	All other taxes, fees, levies or charges not covered by any of the previous four categories: support for district heating; local or regional fiscal charges; island compensation; concession fees relating to licences and fees for the occupation of land and public or private property by networks or other devices.	Annual

(¹) Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax (OJ L 347, 11.12.2006, p. 1).

The reference period for all components and all sub-components is annual.

Values are specified in national currency per gigajoule (GJ), based on gross calorific value (GCV).

Confidentiality and observation status are set using standard code lists.

Table 3: Network costs

Field	Remarks	Reporting Frequency
Confidentiality status		
Transmission costs — percentage — observation status	Average relative share of transmission costs for household customers and average relative share of transmission costs for final non-household customers, expressed as a percentage of total network costs.	Annual
Distribution costs — percentage — observation status	Average relative share of distribution costs for household customers and average relative share of distribution costs for final non-household customers, expressed as a percentage of total network costs.	Annual

The reference period for the transmission and distribution costs is annual.

Values are specified in percentages.

Confidentiality and observation status are set using standard code lists.

Table 4: Consumption volumes

Field	Remarks	Reporting Frequency
Confidentiality status		
Consumption volumes — percentage — observation status	Relative share of natural gas in each consumption band based on the total volume to which the prices refer.	Annual

The reference period for the consumption volumes is annual.

Values are specified in percentages.

Confidentiality and observation status are set using standard code lists.

ANNEX II

The structure for transmitting statistical data on electricity price

Information to be included in the transmission files:

General Information

Field	Remarks	Reporting Frequency
Country	Name of the reporting country	Semester
Organisation	Name of the reporting organisation	Semester
Contact person	Name of the reporting officer	Semester
Email address	Email address of the reporting officer	Semester
Year	Reference year for the data (2017, 2018 etc.)	Semester
Semester	1 or 2	Semester

For every consumption band, the fields in Tables 1, 2 and 4 are to be transmitted.

The bands for the household consumers are:

- Band-DA (very small): annual consumption below 1 000 kWh;
- Band-DB (small): annual consumption 1 000 or more but less than 2 500 kWh;
- Band-DC (medium): annual consumption 2 500 or more but less than 5 000 kWh;
- Band-DD (large): annual consumption 5 000 or more but less than 15 000 kWh;
- Band-DE (very large): annual consumption 15 000 kWh or more.

The bands for the non-household consumers are:

- Band-IA: annual consumption below 20 MWh;
- Band-IB: annual consumption 20 or more but less than 500 MWh;
- Band-IC: annual consumption 500 or more but less than 2 000 MWh;
- Band-ID: annual consumption 2 000 or more but less than 20 000 MWh;
- Band-IE: annual consumption 20 000 or more but less than 70 000 MWh;
- Band-IF: annual consumption 70 000 or more but less than 150 000 MWh;
- Band-IG: annual consumption 150 000 MWh or more.

Data in Table 3 are to be specified as averages covering all consumption bands.

Table 1: Main price levels

Field	Remarks	Reporting Frequency
Confidentiality Status		Semester
Price without taxes: — value — observation status	This price level shall include only the energy and supply component and the network component.	Semester

Field	Remarks	Reporting Frequency
Price excluding VAT and other recoverable taxes — value — observation status	This price level shall include the energy and supply component, the network component and taxes, fees, levies and charges considered as non-recoverable for final non-household customers. For household customers this price level shall include the energy and the network components and taxes, fees, levies and charges but excludes VAT.	Semester
Price including all taxes and VAT (recoverable and non-recoverable) — value — observation status	This price level shall include the energy and supply component, the network component, and all recoverable and non-recoverable taxes, fees, levies and charges, including VAT.	Semester

Values are specified in national currency per kilowatt-hour.

Confidentiality and observation statuses are set using standard code lists.

Table 2: Detailed breakdown of prices in components and sub-components

Field	Remarks	Reporting Frequency
Confidentiality status		
Energy and supply price — value — observation status	The component of the total price that deals with energy and supply, excluding taxes. This component shall include the following end-user costs: generation, aggregation, balancing energy, supplied energy costs, customer services, after-sales management and other supply costs.	Annual
Network price — value — observation status	The component of the total price that deals with network prices, excluding taxes. The network price shall include the following end-user costs: transmission and distribution tariffs, transmission and distribution losses, network costs, after-sale service costs, system service costs, and meter rental and metering costs.	Annual
Value added tax — value — observation status	Value added tax as defined in Directive 2006/112/EC.	Annual
Renewable taxes — value — observation status	Taxes, fees, levies or charges relating to the promotion of renewable energy sources, energy efficiency and CHP generation.	Annual
Capacity taxes — value — observation status	Taxes, fees, levies or charges relating to capacity payments, energy security and generation adequacy; taxes on coal industry restructuring; taxes on electricity distribution; stranded costs and levies on financing energy regulatory authorities or market and system operators.	Annual

Field	Remarks	Reporting Frequency
Environmental taxes — value — observation status	Taxes, fees, levies or charges relating to air quality and for other environmental purposes; taxes on emissions of CO ₂ or other greenhouse gases.	Annual
Nuclear taxes — value — observation status	Taxes, fees, levies or charges relating to the nuclear sector, including nuclear decommissioning, inspections and fees for nuclear installations.	Annual
Other taxes — value — observation status	All other taxes, fees, levies or charges not covered by any of the previous five categories: support for district heating; local or regional fiscal charges; island compensation; concession fees relating to licences and fees for the occupation of land and public or private property by networks or other devices.	Annual

The reference period for all components and all sub-components is annual.

Values are specified in national currency per kilowatt-hour.

Confidentiality and observation statuses are set using standard code lists.

Table 3: Network costs

Field	Remarks	Reporting Frequency
Confidentiality status		
Transmission costs — percentage — observation status	Average relative share of transmission costs for household customers and average relative share of transmission costs for final non-household customers, expressed as a percentage of total network costs.	Annual
Distribution costs — percentage — observation status	Average relative share of distribution costs for household customers and average relative share of distribution costs for final non-household customers, expressed as a percentage of total network costs.	Annual

The reference period for the transmission and distribution costs is annual.

Values are specified in percentages.

Confidentiality and observation statuses are set using standard code lists.

Table 4: Consumption volumes

Field	Remarks	Reporting Frequency
Confidentiality status		
Consumption volumes — percentage — observation status	Relative share of electricity in each consumption band based on the total volume to which the prices refer.	Annual

The reference period for the consumption volumes is annual.

Values are specified in percentages.

Confidentiality and observation statuses are set using standard code lists.

DECISIONS

COUNCIL IMPLEMENTING DECISION (EU) 2017/2170

of 15 November 2017

on subjecting *N*-phenyl-*N*-[1-(2-phenylethyl)piperidin-4-yl]furan-2-carboxamide (furanylfentanyl) to control measures

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Decision 2005/387/JHA of 10 May 2005 on the information exchange, risk-assessment and control of new psychoactive substances ⁽¹⁾, and in particular Article 8(3) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Parliament ⁽²⁾,

Whereas:

- (1) A risk-assessment report on the new psychoactive substance *N*-phenyl-*N*-[1-(2-phenylethyl)piperidin-4-yl]furan-2-carboxamide (furanylfentanyl) was drawn up in accordance with Decision 2005/387/JHA by a special session of the extended Scientific Committee of the European Monitoring Centre for Drugs and Drug Addiction (EMCDDA), and was subsequently submitted to the Commission and to the Council on 24 May 2017.
- (2) Furanylfentanyl is a synthetic opioid and is structurally similar to fentanyl, a controlled substance widely used in medicine for general anaesthesia during surgery and for pain management. Furanylfentanyl is also structurally related to acetylfentanyl and acryloxyfentanyl, which were both the subject of an EMCDDA–Europol Joint Report in December 2015 and November 2016.
- (3) Furanylfentanyl has been available in the Union since at least June 2015 and has been detected in 16 Member States. In most cases, it was seized in powder form, but also in liquid form and as tablets. The detected quantities are relatively small. However, such quantities should be seen in the context of the potency of the substance.
- (4) Twenty-two deaths associated with furanylfentanyl have been reported by five Member States. As regards at least ten of those deaths, furanylfentanyl was the cause of death or is likely to have contributed to the death. In addition, 11 acute non-fatal intoxications associated with furanylfentanyl were reported by three Member States.
- (5) There is no information suggesting the involvement of organised crime in the manufacture, distribution (trafficking) and supply of furanylfentanyl within the Union. The available data suggest that furanylfentanyl is produced by chemical companies based in China.
- (6) Furanylfentanyl is sold online in small and wholesale amounts as a ‘research chemical’, typically as a powder and as ready-to-use nasal sprays. Information from seizures suggests that furanylfentanyl may have also been sold on the illicit opioid market.
- (7) Furanylfentanyl has no recognised human or veterinary medical use in the Union. There are no indications that furanylfentanyl may be used for any other purpose apart from as an analytical reference standard and in scientific research.
- (8) The risk-assessment report reveals that many of the questions related to furanylfentanyl are due to the lack of data on the risks to individual health, risks to public health, and social risks, and could be answered through further research. However, the available evidence and information on the health and social risks that the substance poses, given also its similarities with fentanyl, provide sufficient grounds for subjecting furanylfentanyl to control measures across the Union.

⁽¹⁾ OJ L 127, 20.5.2005, p. 32.

⁽²⁾ Opinion of 24 October 2017 (not yet published in the Official Journal)

- (9) Furanylfentanyl is not listed for control under the 1961 United Nations Single Convention on Narcotic Drugs or under the 1971 United Nations Convention on Psychotropic Substances. The substance is not currently under assessment by the United Nations system.
- (10) Given that ten Member States control furanylfentanyl under national drug control legislation and three Member States control furanylfentanyl under other legislation, subjecting this substance to control measures across the Union would help avoid the emergence of obstacles in cross-border law enforcement and judicial cooperation, and would help protect the Union from the risks that its availability and use can pose.
- (11) Decision 2005/387/JHA confers upon the Council implementing powers with a view to giving a quick and expertise-based response at Union level to the emergence of new psychoactive substances detected and reported by the Member States, by subjecting those substances to control measures across the Union. As the conditions and procedure for triggering the exercise of such implementing powers have been met, an implementing decision should be adopted in order to subject furanylfentanyl to control measures across the Union.
- (12) Denmark is bound by Decision 2005/387/JHA and is therefore taking part in the adoption and application of this Decision, which implements Decision 2005/387/JHA.
- (13) Ireland is bound by Decision 2005/387/JHA and is therefore taking part in the adoption and application of this Decision, which implements Decision 2005/387/JHA.
- (14) The United Kingdom is not bound by Decision 2005/387/JHA and is therefore not taking part in the adoption of this Decision, which implements Decision 2005/387/JHA, and is not bound by it or subject to its application,

HAS ADOPTED THIS DECISION:

Article 1

The new psychoactive substance *N*-phenyl-*N*-[1-(2-phenylethyl)piperidin-4-yl]furan-2-carboxamide (furanylfentanyl) shall be subject to control measures across the Union.

Article 2

By 19 November 2018 Member States shall take the necessary measures, in accordance with their national law, to subject the new psychoactive substance referred to in Article 1 to control measures and criminal penalties, as provided for under their legislation, in compliance with their obligations under the 1971 United Nations Convention on Psychotropic Substances.

Article 3

This Decision shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Decision shall apply in accordance with the Treaties.

Done at Brussels, 15 November 2017.

For the Council

The President

J. AAB

COUNCIL DECISION (EU) 2017/2171**of 20 November 2017****on the financial contributions to be paid by Member States to finance the European Development Fund, including the ceiling for 2019, the annual amount for 2018, the first instalment for 2018 and an indicative and non-binding forecast for the expected annual amounts of contributions for the years 2020 and 2021**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union and to the Treaty on the Functioning of the European Union,

Having regard to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its Member States, of the other part, signed in Cotonou on 23 June 2000 ⁽¹⁾, as last amended ('ACP-EU Partnership Agreement'),

Having regard to the Internal Agreement between the Representatives of the Governments of the Member States of the European Union, meeting within the Council, on the financing of European Union aid under the multiannual financial framework for the period 2014 to 2020, in accordance with the ACP-EU Partnership Agreement, and on the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the Treaty on the Functioning of the European Union applies ⁽²⁾ ('the Internal Agreement'), and in particular Article 7(2) thereof,

Having regard to the Council Regulation (EU) 2015/323 of 2 March 2015 on the financial regulation applicable to the 11th European Development Fund ⁽³⁾ ('the 11th EDF Financial Regulation'), and in particular Article 21(2) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) In accordance with the procedure laid down in Article 21(2) of the 11th EDF Financial Regulation, the Commission presented a proposal by 15 October 2017 specifying (a) the ceiling for the annual amount of the Member States' European Development Fund (EDF) contributions for 2019; (b) the annual amount of the Member States' EDF contributions for 2018; (c) the amount of the first instalment of the contribution for 2018; and (d) an indicative, non-binding forecast for the expected annual amounts of contributions for the years 2020 and 2021.
- (2) In accordance with Article 52 of the 11th EDF Financial Regulation, the European Investment Bank (EIB) sent on 4 September 2017 to the Commission its updated estimates of commitments and payments under the instruments it manages.
- (3) Article 22(1) of the 11th EDF Financial Regulation provides that calls for contributions first use up the amounts provided for in previous EDFs. Therefore a call for funds under the 10th EDF for the EIB and the 11th EDF for the Commission should be made.
- (4) Council Decision (EU) 2016/2026 ⁽⁴⁾ has set out the ceiling for the annual amount of the Member States' EDF contributions for 2018 at EUR 4 550 000 000 for the Commission, and at EUR 250 000 000 for the EIB.
- (5) Council Decision (EU) 2017/1206 ⁽⁵⁾ has established a reduction of contribution from the Eighth and Ninth EDF decommitted funds for an amount of EUR 200 000 000,

⁽¹⁾ OJ L 317, 15.12.2000, p. 3.

⁽²⁾ OJ L 210, 6.8.2013, p. 1.

⁽³⁾ OJ L 58, 3.3.2015, p. 17.

⁽⁴⁾ Council Decision (EU) 2016/2026 of 15 November 2016 on the financial contributions to be paid by Member States to finance the European Development Fund, including the ceiling for 2018, the annual amount for 2017, the first instalment for 2017 and an indicative and non-binding forecast for the expected annual amounts for the years 2019 and 2020 (OJ L 313, 19.11.2016, p. 25).

⁽⁵⁾ Council Decision (EU) 2017/1206 of 4 July 2017 on the financial contributions to be paid by Member States to finance the European Development Fund, including the second instalment for 2017 (OJ L 173, 6.7.2017, p. 15).

HAS ADOPTED THIS DECISION:

Article 1

The ceiling for the annual amount of the Member States' EDF contributions for 2019 is hereby set at EUR 4 900 000 000. It shall be divided into EUR 4 600 000 000 for the Commission, and EUR 300 000 000 for the EIB.

Article 2

The annual amount of the Member States' EDF contributions for 2018 is hereby set at EUR 4 800 000 000. It shall be divided into EUR 4 550 000 000 for the Commission, and EUR 250 000 000 for the EIB.

Article 3

The individual EDF contributions to be paid by the Member States to the Commission and the EIB as the first instalment for 2018 are set out in the table in the Annex to this Decision.

Payments of those contributions may be combined with adjustments under the implementation of the reduction of contributions for an amount of EUR 200 000 000 from decommitted funds under the Eighth and Ninth EDF, following an adjustment plan communicated by each Member State.

Article 4

The indicative non-binding forecast for the expected annual amount of contributions for 2020 is hereby set at EUR 4 600 000 000 for the Commission and at EUR 300 000 000 for the EIB, and that for 2021 at EUR 4 700 000 000 for the Commission and at EUR 300 000 000 for the EIB.

Article 5

This Decision shall enter into force on the date of its adoption.

Done at Brussels, 20 November 2017.

For the Council
The President
M. MAASIKAS

COMMISSION DECISION (EU) 2017/2172**of 20 November 2017****amending Decision 2010/670/EU as regards the deployment of non-disbursed revenues from the first round of calls for proposals***(notified under document C(2017) 7656)*

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a scheme for greenhouse gas emission allowance trading within the Community and amending Council Directive 96/61/EC ⁽¹⁾, and in particular Article 10a(8) thereof,

Whereas:

- (1) Article 10a(8) of Directive 2003/87/EC establishes a mechanism for the financing of commercial demonstration projects that aim at the environmentally safe capture and geological storage of CO₂ (hereinafter 'CCS demonstration projects') and demonstration projects of innovative renewable energy technologies (hereinafter 'RES demonstration projects'), using 300 million allowances from the system for greenhouse gas emission allowance trading within the Union ('EU ETS') which were set aside for new entrants but not allocated.
- (2) In its Decision 2010/670/EU ⁽²⁾, the Commission laid down rules and criteria for the selection and implementation of those projects and basic principles for the monetisation of allowances and for the management of revenues.
- (3) By mid-2014, as a result of a first and second call for proposals, funds have been awarded to support the implementation of 39 RES and CCS demonstration projects in 20 EU Member States. However, given the challenging economic environment globally and in the EU, some of the 20 projects awarded under the first call for proposals, found it difficult to raise sufficient equity or to attract additional financiers. As a consequence, by 31 December 2016, 14 projects have reached their final investment decision in accordance with Article 9 of Decision 2010/670/EU and at least 436 million EUR related to the awarded projects for this first call for proposals have not been used.
- (4) The non-disbursed funds should be used to directly fund projects within the scope defined in Article 10a(8) of Directive 2003/87/EC. Moreover, considering the specific situation of highly innovative renewable energy and CCS demonstration projects, a part of financing should be provided in the form of grants.
- (5) In order to increase investment in these highly innovative projects in the energy sector in the EU, a priority recognised by the Commission in its Communication on Accelerating Clean Energy Innovation ⁽³⁾, non-disbursed revenues from the first call for proposals should be redeployed without delay, and with priority, using the InnovFin EDP Facility under Horizon 2020 ⁽⁴⁾. This support would be complementary to existing and forthcoming financial support, such as grants under Horizon 2020.
- (6) In order to increase investment in these highly innovative projects in the transport sector, eligible projects should only promote innovative, replicable and scalable use of renewable energy using the Debt Instrument in the sector of transport under Connecting Europe Facility ⁽⁵⁾.

⁽¹⁾ OJ L 275, 25.10.2003, p. 32.

⁽²⁾ Commission Decision 2010/670/EU of 3 November 2010 laying down criteria and measures for the financing of commercial demonstration projects that aim at the environmentally safe capture and geological storage of CO₂ as well as demonstration projects of innovative renewable energy technologies under the scheme for greenhouse gas emission allowance trading within the Community established by Directive 2003/87/EC of the European Parliament and of the Council (OJ L 290, 6.11.2010, p. 39).

⁽³⁾ C(2016) 763 final.

⁽⁴⁾ Council Decision 2013/743/EU of 3 December 2013 establishing the specific programme implementing Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020) and repealing Decisions 2006/971/EC, 2006/972/EC, 2006/973/EC, 2006/974/EC and 2006/975/EC (OJ L 347, 20.12.2013, p. 965).

⁽⁵⁾ Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129).

- (7) Projects awarded under the first or second call for proposals that have reached final investment decisions and are under implementation will be deemed eligible for applying to the relevant financial instrument.
- (8) In order to raise broad public awareness about the relevant financial instruments the Commission and the European Investment Bank Group will continue to regularly organise dedicated technical workshops for Member States and project sponsors.
- (9) The Commission will report sufficiently in advance to the Climate Change Committee on the development of the relevant Delegation Agreements between the Commission and the European Investment Bank, in particular as regards the related eligibility criteria, implementation of the relevant financial instruments, especially the build-up of the project pipeline, assessment of the project applications and finally on the use of the redeployed revenues, and take appropriate account of the views of Member States.
- (10) The measures provided for in this Decision are in accordance with the opinion of the Climate Change Committee,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2010/670/EU is amended as follows:

1. In Article 2, the following paragraph 4 is inserted:

‘4. Any non-disbursed revenues from the first round of calls for proposals shall be available to support first-of-a-kind innovative, replicable and ready to demonstrate at scale CCS and RES demonstration projects, using relevant financial instruments managed by the European Investment Bank Group, with a priority given to the InnovFin EDP Facility and the Debt Instrument in the sector of transport under Connecting Europe Facility.

The preceding paragraph, Articles 6, 8, 11(1) to (5), the first and second subparagraphs of Article 11(6) and Article 13 shall not apply to the use of these revenues.

The Commission shall report sufficiently in advance to the Climate Change Committee on the development of the relevant Delegation Agreements between the Commission and the European Investment Bank, in particular as regards the related eligibility criteria, implementation of the relevant financial instruments, especially the build-up of the project pipeline, assessment of the project applications and finally on the use of the redeployed revenues, and take appropriate account of the views of Member States’.

2. The following paragraph is added in Article 14:

‘The Commission shall report regularly to the Climate Change Committee on the use of the revenues referred to in Article 2(4), including upfront information on the planned support for projects and the part of support to be made available in the form of grants, geographical distribution of projects, scale of projects and technological coverage, ex-post information on the progress of realization of projects, avoidance of CO₂ emissions, financial leverage, awareness-raising and lessons learned, as appropriate.’

COMMISSION IMPLEMENTING DECISION (EU) 2017/2173**of 20 November 2017****amending Annex II to Decision 2008/185/EC as regards the approval of the control programme for the eradication of Aujeszky's disease for the region of Lombardia in Italy***(notified under document C(2017) 7587)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 64/432/EEC of 26 June 1964 on animal health problems affecting intra-Community trade in bovine animals and swine ⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Directive 64/432/EEC lays down rules for trade within the Union in porcine animals. Article 9 of that Directive provides that a Member State which has a compulsory national control programme for Aujeszky's disease for all or part of its territory may submit its programme to the Commission for approval. It also provides that additional guarantees may be required for intra-Union trade in porcine animals.
- (2) Commission Decision 2008/185/EC ⁽²⁾ lays down additional guarantees for movements of pigs between Member States. Those guarantees are linked to the classification of the Member States according to their disease status for Aujeszky's disease. Annex II to Decision 2008/185/EC lists the Member States or regions thereof where approved national control programmes for the eradication of Aujeszky's disease are in place.
- (3) Italy has submitted to the Commission supporting documentation for the approval of its control programme for the eradication of Aujeszky's disease for the region of Lombardia and for this region to be duly listed in Annex II to Decision 2008/185/EC. Following the evaluation of that supporting documentation, the region of Lombardia should be listed in Annex II to Decision 2008/185/EC. Annex II to Decision 2008/185/EC should therefore be amended accordingly.
- (4) Decision 2008/185/EC should therefore be amended accordingly.
- (5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Annex II to Decision 2008/185/EC is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

COMMISSION IMPLEMENTING DECISION (EU) 2017/2174**of 20 November 2017****amending Annex E to Council Directive 92/65/EEC as regards the health certificate for trade in bees and bumble bees***(notified under document C(2017) 7588)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/65/EEC of 13 July 1992 laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC ⁽¹⁾, and in particular the first paragraph of Article 22 thereof,

Whereas:

- (1) The model health certificate for intra-Union trade in live bees (*Apis mellifera*) and bumble bees (*Bombus* spp.) is laid down in Part 2 of Annex E to Directive 92/65/EEC. That certificate establishes animal health requirements, among others, in relation to the occurrence of small hive beetle (*Aethina tumida*) and the Tropilaelaps mite (*Tropilaelaps* spp.) applicable to both bees and bumble bees.
- (2) The requirements established in that model health certificate allow only movements of bees and bumble bees from areas of at least 100 km radius which are not the subject of any restrictions associated with the suspicion or confirmed occurrence of these pathogens.
- (3) On the basis of the information received from the Italian competent authorities relating to their experience with small hive beetle occurrences in honey bee colonies in Italy since the adoption of Commission Implementing Decision 2014/909/EU ⁽²⁾ to prevent the spread of the small hive beetle from the affected regions of Italy, it would appear, that these requirements are disproportionate for the management of the affected apiculture sector during a sustained period after the discovery of the occurrence.
- (4) In particular, these requirements do not take into account that areas may exist which whilst being closer than 100 km to such occurrences, are still outside of the protection zones established around the occurrences by the national legislation, are not restricted by Union protective measures either and are covered by officially planned and implemented active surveillance in line with the Guidelines for the surveillance of the small hive beetle infestation compiled by the European Union Reference laboratory for honey bee health ⁽³⁾, which provides confidence in the absence of the small hive beetle.
- (5) In addition, the requirements should be updated to take into account that visual examination and the immediate application of a fine mesh around the consignment at the place of origin is highly effective and technically feasible for consignments of queen bees accompanied by a limited number of attendants, to mitigate the potential risk of spreading small hive beetle. This is confirmed by a Scientific Opinion of the European Food Safety Authority on survival, spread and establishment of the small hive beetle, adopted on 15 December 2015 ⁽⁴⁾.
- (6) As the current requirements are unnecessarily restrictive, it is therefore necessary to amend the model health certificate for intra-Union trade in bees and bumble bees by adding an alternative animal health requirement for consignments of queen bees recognizing the combined value of active surveillance by the competent authorities in ascertaining absence of occurrences of small hive beetle together with the strengthened risk mitigation measures for intra-Union trade.

⁽¹⁾ OJ L 268, 14.9.1992, p. 54.

⁽²⁾ Commission Implementing Decision 2014/909/EU of 12 December 2014 concerning certain protective measures with regard to confirmed occurrences of the small hive beetle in Italy (OJ L 359, 16.12.2014, p. 161).

⁽³⁾ As last revised on 1 April 2016: <https://sites.anses.fr/en/minisite/abeilles/free-access-documents-0>

⁽⁴⁾ EFSA Journal 2015;13(12):4328.

- (7) Bumble bees are not susceptible to the *Tropilaelaps* mite. This is confirmed by a Scientific Opinion of the European Food Safety Authority on the risk of entry of *Aethina tumida* and *Tropilaelaps* spp. in the EU, adopted on 27 February 2013 ⁽¹⁾.
- (8) In most cases, bumble bees are bred in environmentally isolated structures subject to high biosecurity measures and that are regularly controlled by the competent authority and checked for the presence of diseases. Such establishments that are recognised by and are under the supervision of the competent authority of the concerned countries and are not likely to be affected by the presence of the small hive beetle, in contrast with open air colonies. It is already possible for the competent authorities to certify consignments from such establishments for the import of bumble bees in accordance with Commission Regulation (EU) No 206/2010 ⁽²⁾.
- (9) It is therefore necessary to amend the model health certificate for intra-Union trade in bees and bumble bees to introduce alternative animal health requirement for bumble bees bred in an environmentally isolated structure.
- (10) The vast majority of bumble bee consignment are sold and sent across borders for pollination purposes and therefore should not be certified for breeding or for transhumance purposes given that they are not to be bred and never return to their place of origin. It is therefore appropriate to add another option to the certificate allowing such animals to be certified for production.
- (11) Honey bees can be traded in various forms, such as queens with only a few attendants, whole colonies, nucleus colonies and in packages. Clarity on the nature of the consignments in this regard would facilitate risk analysis by the competent authorities for official controls of consignments at the places of destination. Therefore additional detailed information should be added to the certificate.
- (12) Part 2 of Annex E to Directive 92/65/EEC should therefore be amended accordingly.
- (13) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Part 2 of Annex E to Council Directive 92/65/EEC — Health certificate for trade in bees and bumble bees — is amended as follows:

- (1) in entry I.25 a check box is added with the following words: 'Production (pollination)';
- (2) in entry I.31 a column is added with words 'Nature of commodity' constituting its title and with the following selectable items appearing below the title, each in a separate row: 'queens, packages of bees, nucleus colonies, colonies';
- (3) in entry II.1 the following is inserted in point (b), after the word 'absent':
'or
(b) the consignment consists only of cages of queen bees each containing one single queen with a maximum of 20 accompanying attendants and comes from an area of at least 100 km radius which is not the subject of any restrictions associated with the suspicion or confirmed occurrence of the *Tropilaelaps* mite (*Tropilaelaps* spp.) and from an establishment that fulfils all the following requirements:
 - it is situated at least 30 km distance from the limits of a protection zone of at least 20 km in radius around confirmed occurrence(s) of the small hive beetle, and
 - it is situated outside of a zone restricted by protective measures established by the Union due to the occurrence of small hive beetle, and
 - it is situated in an area where annual surveillance for the detection of small hive beetle by the competent authority is ongoing to provide a confidence level of at least 95 % of detecting small hive beetle if at least 2 % of the apiaries were infested, and

⁽¹⁾ EFSA Journal 2013;11(3):3128.

⁽²⁾ Commission Regulation (EU) No 206/2010 of 12 March 2010 laying down lists of third countries, territories or parts thereof authorised for the introduction into the European Union of certain animals and fresh meat and the veterinary certification requirements (OJ L 73, 20.3.2010, p. 1).

- it is inspected every month by the competent authority with negative results to provide a confidence level of at least 95 % of detecting small hive beetle if at least 2 % of the hives were infested, and
- where each cage or the whole consignment is covered by a fine mesh of maximum 2 mm pore size immediately after the visual examination for the health certification;

or

- (b) the bumble bees come from an environmentally isolated structure recognised by and under the supervision of the competent authority, which is free of small hive beetle;'

COMMISSION IMPLEMENTING DECISION (EU) 2017/2175**of 21 November 2017****amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States***(notified under document C(2017) 7835)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(4) thereof,Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(4) thereof,

Whereas:

- (1) Commission Implementing Decision (EU) 2017/247 ⁽³⁾ was adopted following outbreaks of highly pathogenic avian influenza of subtype H5 in a number of Member States ('the concerned Member States'), and the establishment of protection and surveillance zones by the competent authority of the concerned Member States in accordance with Article 16(1) of Council Directive 2005/94/EC ⁽⁴⁾.
- (2) Implementing Decision (EU) 2017/247 provides that the protection and surveillance zones established by the competent authorities of the concerned Member States in accordance with Directive 2005/94/EC are to comprise at least the areas listed as protection and surveillance zones in the Annex to that Implementing Decision. Implementing Decision (EU) 2017/247 also lays down that the measures to be applied in the protection and surveillance zones, as provided for in Article 29(1) and Article 31 of Directive 2005/94/EC, are to be maintained until at least the dates for those zones set out in the Annex to that Implementing Decision.
- (3) Since the date of its adoption, Commission Implementing Decision (EU) 2017/247 has been amended several times to take account of developments in the epidemiological situation in the Union as regards avian influenza. In particular, Implementing Decision (EU) 2017/247 was amended by Commission Implementing Decision (EU) 2017/696 ⁽⁵⁾ in order to lay down rules regarding the dispatch of consignments of day-old chicks from the areas listed in the Annex to Implementing Decision (EU) 2017/247. That amendment took into account the fact that day-old chicks pose a very low risk for the spread of highly pathogenic avian influenza compared to other poultry commodities.
- (4) Implementing Decision (EU) 2017/247 was also subsequently amended by Commission Implementing Decision (EU) 2017/1841 ⁽⁶⁾ in order to strengthen the disease control measures applicable where there is an increased risk for the spread of highly pathogenic avian influenza. Consequently, Implementing Decision (EU) 2017/247 now provides for the establishment at Union level of further restricted zones in the concerned Member States, as referred to in Article 16(4) of Directive 2005/94/EC, following an outbreak or outbreaks of highly pathogenic avian influenza, and the duration of the measures to be applied therein. Implementing Decision (EU) 2017/247 now also lays down rules for the dispatch of live poultry, day-old chicks and hatching eggs from the further restricted zones to other Member States, subject to certain conditions.

⁽¹⁾ OJ L 395, 30.12.1989, p. 13.

⁽²⁾ OJ L 224, 18.8.1990, p. 29.

⁽³⁾ Commission Implementing Decision (EU) 2017/247 of 9 February 2017 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 36, 11.2.2017, p. 62).

⁽⁴⁾ Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza and repealing Directive 92/40/EEC (OJ L 10, 14.1.2006, p. 16).

⁽⁵⁾ Commission Implementing Decision (EU) 2017/696 of 11 April 2017 amending Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 101, 13.4.2017, p. 80).

⁽⁶⁾ Commission Implementing Decision (EU) 2017/1841 of 10 October 2017 amending Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 261, 11.10.2017, p. 26).

- (5) In addition, the Annex to Implementing Decision (EU) 2017/247 has been amended numerous times, mainly to take account of changes in the boundaries of the protection and surveillance zones established by the concerned Member States in accordance with Directive 2005/94/EC. The Annex to Implementing Decision (EU) 2017/247 was last amended by Commission Implementing Decision (EU) 2017/2000 ⁽¹⁾, following the notification by Italy of new outbreaks of highly pathogenic avian influenza of subtype H5N8 in poultry holdings in the region of Lombardia in that Member State. Italy also notified the Commission that it had taken the necessary measures required in accordance with Directive 2005/94/EC following those outbreaks, including the establishment of protection and surveillance zones around the infected poultry holdings.
- (6) Since the date of the last amendment made to Implementing Decision (EU) 2017/247 by Implementing Decision (EU) 2017/2000, Bulgaria has notified the Commission of two recent outbreaks of highly pathogenic avian influenza of subtype H5N8 in poultry holdings in the regions of Sliven and Yambol of that Member State. Bulgaria has also notified the Commission that it has taken the necessary measures required in accordance with Directive 2005/94/EC following those recent outbreaks, including the establishment of protection and surveillance zones around all the infected poultry holdings.
- (7) In addition, Italy has notified the Commission of further outbreaks of highly pathogenic avian influenza of subtype H5N8 in poultry holdings, located in the regions of Lombardia, Piemonte and Lazio of that Member State. Italy has also notified the Commission that it has taken the necessary measures required in accordance with Directive 2005/94/EC following those recent outbreaks, including the establishment of protection and surveillance zones around all the infected poultry holdings and the enlargement of the established further restricted zones.
- (8) The Commission has examined the measures taken by Bulgaria and Italy in accordance with Directive 2005/94/EC, following the recent outbreaks of highly pathogenic avian influenza in those Member States, and it is satisfied that the boundaries of the protection and surveillance zones established by the competent authorities of those two Member States are at a sufficient distance to any poultry holding where an outbreak of highly pathogenic avian influenza of subtype H5N8 has been confirmed. The Commission has also examined the boundaries of the further restricted zones established by the competent authority in Italy following the recent outbreaks in that Member State, and it is satisfied that the extent of the areas covered by the enlargement of those further restricted zones is sufficient taking into account the current epidemiological situation in Italy.
- (9) In order to prevent any unnecessary disturbance to trade within the Union, and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Bulgaria and Italy, the protection and surveillance zones established in those two Member States, and the enlarged further restricted zones established in Italy, in accordance with Directive 2005/94/EC, following the recent outbreaks of highly pathogenic avian influenza in those Member States. Therefore, the entries for Bulgaria and Italy in the Annex to Implementing Decision (EU) 2017/247 should be updated to take account of the up-to-date epidemiological situation in those Member States as regards that disease. In particular, new entries for the protection and surveillance zones in Bulgaria and Italy and for the enlarged further restricted zones in Italy, now subject to restrictions in accordance with Directive 2005/94/EC, should be added to the lists in the Annex to Implementing Decision (EU) 2017/247.
- (10) The Annex to Implementing Decision (EU) 2017/247 should therefore be amended to update regionalization at Union level in order to include the protection and surveillance zones established in Bulgaria and Italy, and the enlarged further restricted zones established in Italy, in accordance with Directive 2005/94/EC, following the recent outbreaks of highly pathogenic avian influenza in those Member States, and the duration of the restrictions applicable therein.
- (11) Implementing Decision (EU) 2017/247 should therefore be amended accordingly.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2017/247 is amended in accordance with the Annex to this Decision.

⁽¹⁾ Commission Implementing Decision (EU) 2017/2000 of 6 November 2017 amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 289, 8.11.2017, p. 9).

ANNEX

The Annex to Implementing Decision (EU) 2017/247 is amended as follows:

(1) Part A is amended as follows:

(a) the entry for Bulgaria is replaced by the following:

'Member State: Bulgaria

Area comprising:	Date until applicable in accordance with Article 29(1) of Directive 2005/94/EC
Dobrich region, Municipality of Dobrich	
Stefanovo	12.11.2017
Haskovo region, Municipality of Haskovo	
Uzundzhovo	10.11.2017
Sliven region, Municipality of Sliven	
Glushnik Kaloyanovo	24.11.2017
Yambol region, Municipality of Straldzha	
Zimnitsa Charada	29.11.2017'

(b) the entry for Italy is replaced by the following:

'Member State: Italy

Area comprising:	Date until applicable in accordance with Article 29(1) of Directive 2005/94/EC
— The area of the parts of Lombardia Region (ADNS 17/0059) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,288632 E10,352774	18.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0060) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,275251 E10,160212	28.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0061) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,273215 E10,15843	28.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0062) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,279373 E10,243124	28.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0063) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,244372 E10,19965	28.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0064) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,551421 E9,742449	26.11.2017

Area comprising:	Date until applicable in accordance with Article 29(1) of Directive 2005/94/EC
— The area of the parts of Lombardia Region (ADNS 17/0065) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,247829 E 10,173639	27.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0066) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,314835 E10,183902	28.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0067) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,268601 E10,198274	29.11.2017
— The area of the parts of Lombardia Region (ADNS 17/0068) contained within a circle of radius of three kilometres, centred on WGS84 dec. coordinates N45,287212 E10,211417	29.11.2017

COMMISSION IMPLEMENTING DECISION (EU) 2017/2176**of 21 November 2017****concerning certain interim protective measures relating to African swine fever in Poland***(notified under document C(2017) 7874)***(Text with EEA relevance)****(Only the Polish text is authentic)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market ⁽¹⁾, and in particular Article 9(3) thereof,Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market ⁽²⁾, and in particular Article 10(3) thereof,

Whereas:

- (1) African swine fever is an infectious viral disease affecting domestic and feral pig populations and can have a severe impact on the profitability of pig farming causing disturbance to trade within the Union and exports to third countries.
- (2) In the event of an outbreak of African swine fever, there is a risk that the disease agent may spread to other pig holdings and to feral pigs. As a result, it may spread from one Member State to another Member State and to third countries through trade in live pigs or their products.
- (3) Council Directive 2002/60/EC ⁽³⁾ lays down minimum measures to be applied within the Union for the control of African swine fever. Article 15 of Directive 2002/60/EC provides for the establishment of an infected area following the confirmation of one or more cases of African swine fever in feral pigs.
- (4) Poland has informed the Commission of the up-to-date African swine fever situation on its territory, and in accordance with Article 15 of Directive 2002/60/EC, it has established an infected area where the measures referred to in Article 15 of that Directive are applied.
- (5) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade by third countries, it is necessary to identify at Union level the infected area for African swine fever in Poland in collaboration with that Member State.
- (6) Accordingly, pending the meeting of the Standing Committee on Plants, Animals, Food and Feed, the infected area in Poland should be listed in the Annex to this Decision and the duration of that regionalisation fixed.
- (7) This Decision is to be reviewed at the next meeting of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Poland shall ensure that the infected area established in accordance with Article 15 of Directive 2002/60/EC comprises at least the areas listed as the infected area in the Annex to this Decision.

⁽¹⁾ OJ L 395, 30.12.1989, p. 13.⁽²⁾ OJ L 224, 18.8.1990, p. 29.⁽³⁾ Council Directive 2002/60/EC of 27 June 2002 laying down specific provisions for the control of African swine fever and amending Directive 92/119/EEC as regards Teschen disease and African swine fever (OJ L 192, 20.7.2002, p. 27).

Article 2

This Decision shall apply until 8 December 2017.

Article 3

This Decision is addressed to the Republic of Poland.

Done at Brussels, 21 November 2017.

For the Commission
Vytenis ANDRIUKAITIS
Member of the Commission

ANNEX

Areas established as Infected Area in Poland as referred to in Article 1	Date until applicable
— W powiecie legionowskim gminy: miasto Legionowo, Jabłonna, Nieporęt, Wieliszew. — W powiecie wołomińskim gmina Radzymin. — W powiecie Nowy Dwór Mazowiecki część miasta Nowy Dwór Mazowiecki ograniczona od północy rzeką Narew i od południa rzeką Wisłą.	8 December 2017
