

4.14 Progress in Evaluation of Nuclear Data at Jilin Univ.

Huo Junde et al.

(Dept . of Phys. , Jilin Univ.)

1. Evaluation of Nuclear Structure and Decay Data

Huo Junde Hu Dailing Sun Huibin You Jianming Hu Baohua

The evaluation of $A=52$ in 1978 has been revised using experimental decay and reaction data. These data are summarized and presented together with adopted levels and transition properties. It has been submitted to National Nuclear Data Center, USA.

We are evaluating data for $A=53$ mass Chain now.

2. Evaluation of decay data for CENDL-2 is going to be finished.
