**The development of MSGC for the CMS central tracking system**

R. Bellazzini<sup>a</sup> for the CMS collaboration

<sup>a</sup>*INFN S. Piero a Grado - Pisa, Pisa, Italy*

Results will be presented of laboratory and beam tests of the performance prototype of the MSGC system of the CMS experiment at LHC. Emphasys will be given on the recent tests with high rate hadron beams both at CERN and PSI. Progress on the MSGC module definition and other system aspect will be also presented.
