

# STUDENTS EXPERIENCE IN RADIOGRAPHY

Diana Kerubo Nyambane  
Faith Wanjiku Kimunge

*Bachelor Of Radiography Students  
Jomo Kenyatta University of Agriculture And Technology, Kenya*

# Approach

- **The College Experience**
- **Challenges and Myths**
- **The Radiography dream**
- **Acknowledgement**

# Aim

- To share our experiences as student radiographers

# The college experience

- Cultural shock and change
- Our first class in radiography
- Our experience as First timers in college
- Expectations

# Fears

- Fear of the unknown
- Negative effects of radiation

- How demanding a medical course is
  - Personal fears and group fears

“There is nothing  
like a dream to  
create the future.

– Victor Hugo

# **The Radiography Dream**

# THE TECHNOLOGY INVOLVED

**EASY  
FASTER  
BETTER**

The phenomenal experience to visualize the growth pattern of a fetus from conception to delivery USING ULTRASOUND

To be a  
HELPING HAND

in alleviating pain and suffering.  
*Especially those affected by cancer and its related diseases.*

Through use of radiation therapy and nuclear medicine techniques

# Participation in Relay for Life

**CELEBRATE**

**REMEMBER**

**A chance to support and give back to the society!**

# Restoration of **HOPE** and bringing **JOY** to people through timely detection of diseases

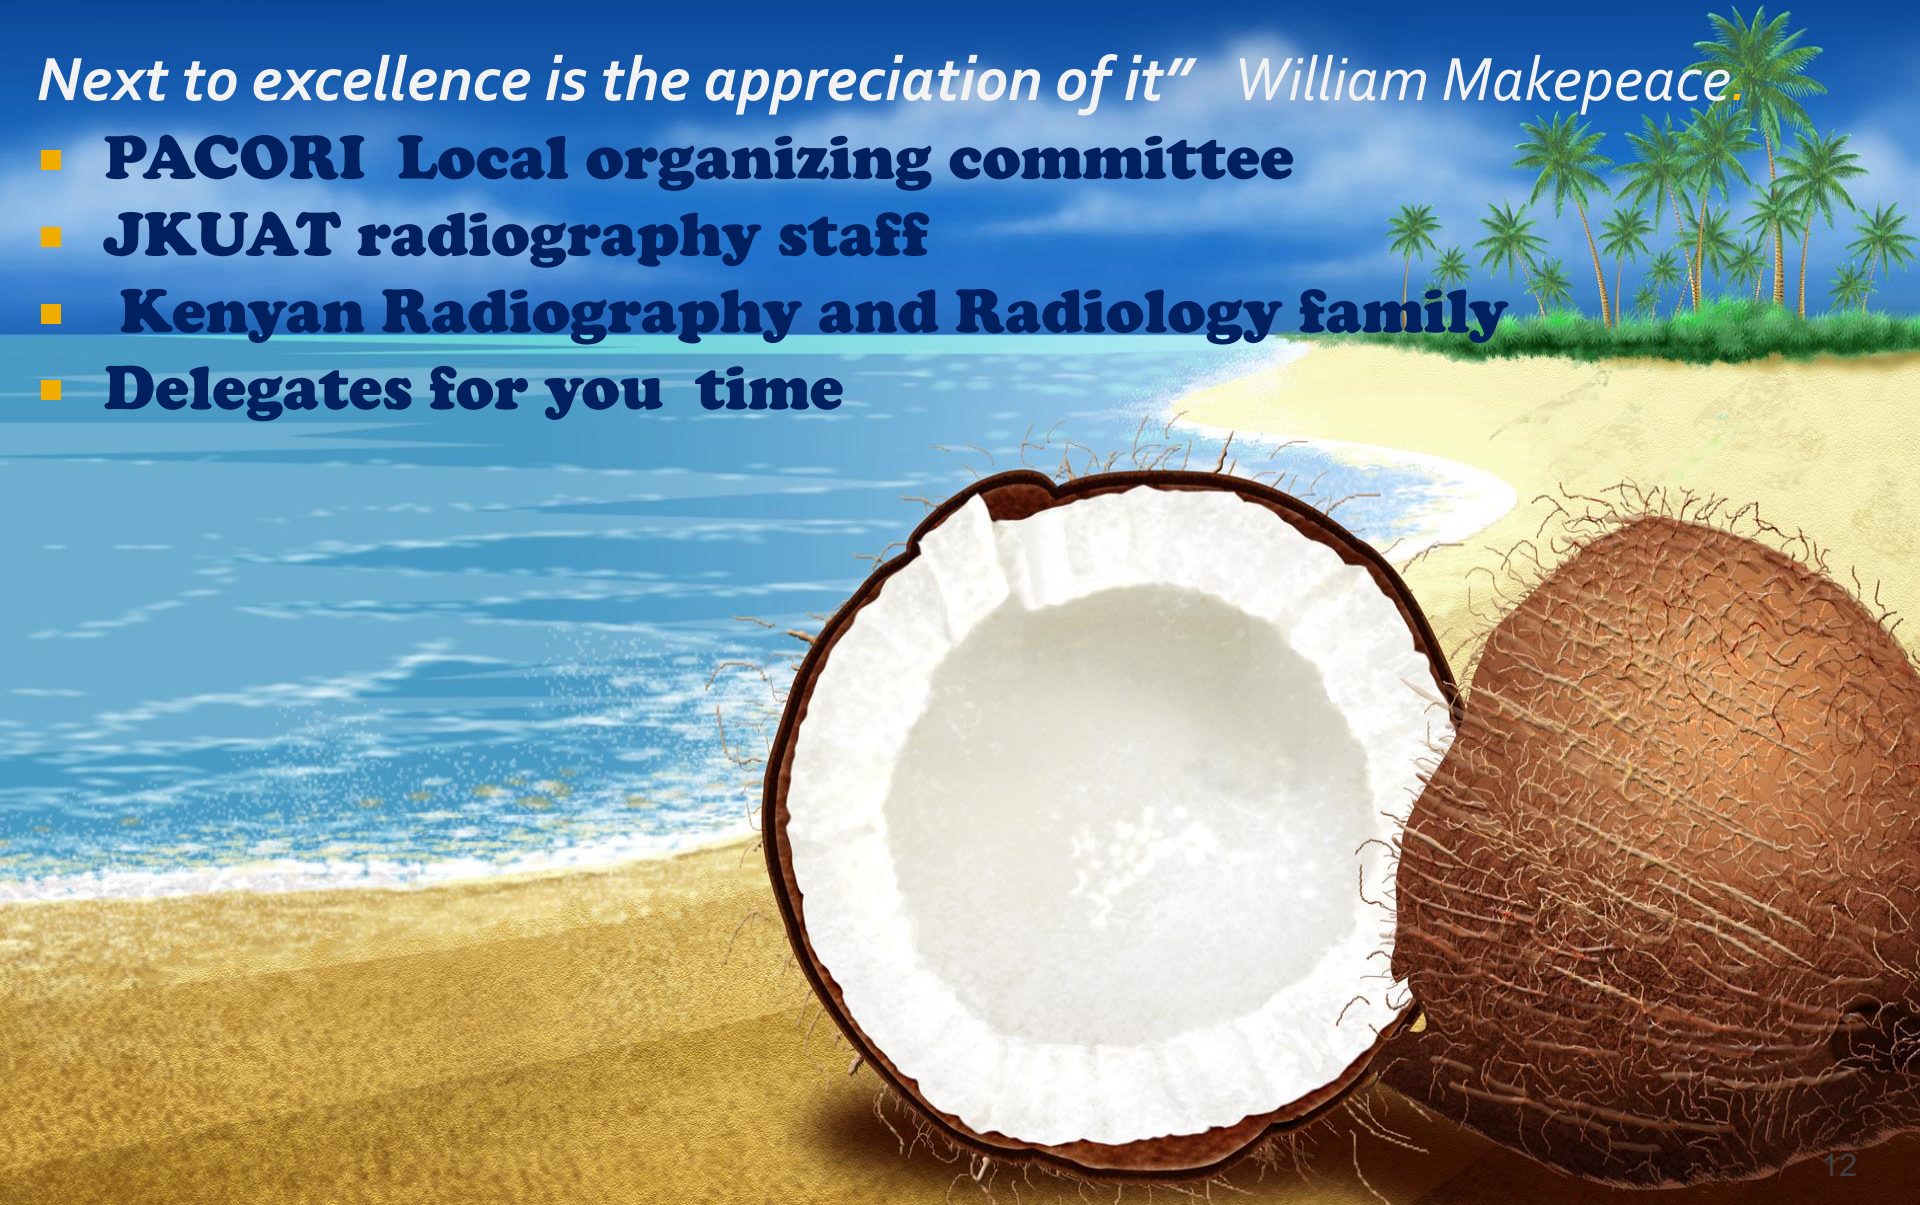

what would have happened if there no x-rays to locate the foreign bodies?

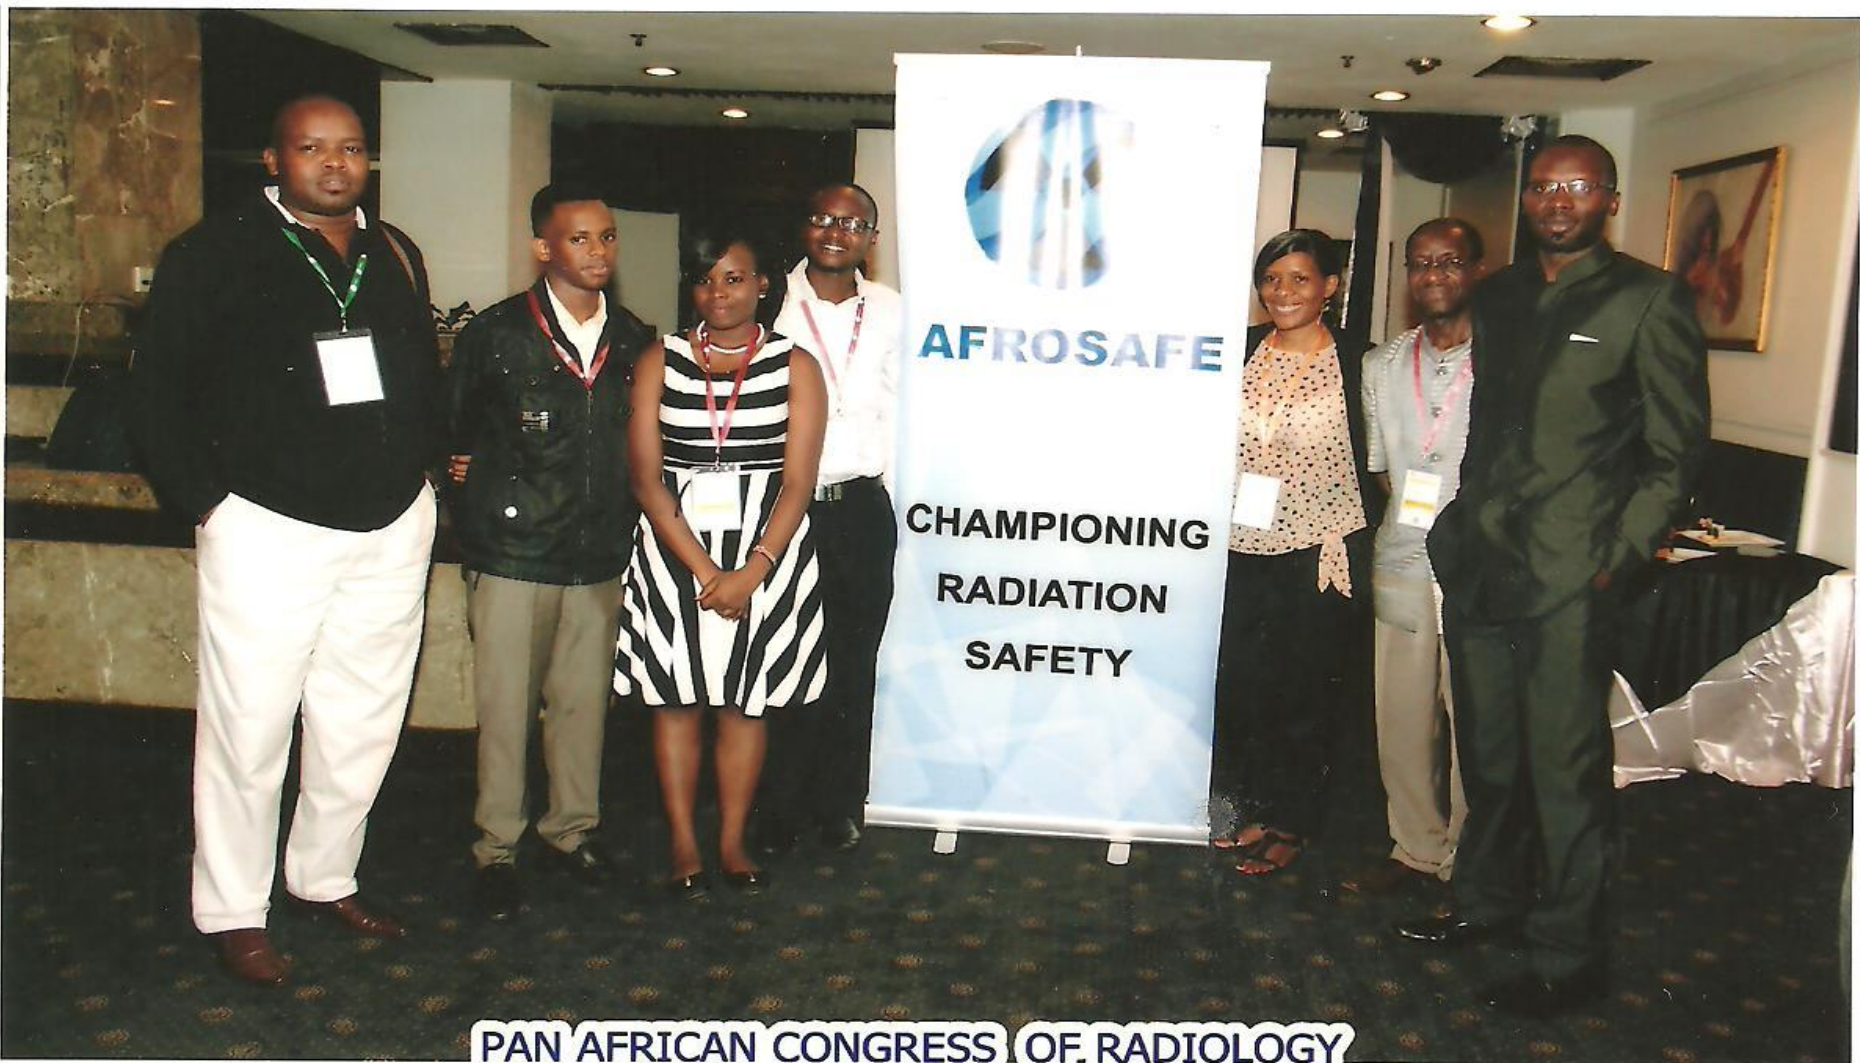

# ACKNOWLEDGEMENT

*Next to excellence is the appreciation of it” William Makepeace.*

- **PACORI Local organizing committee**
- **JKUAT radiography staff**
- **Kenyan Radiography and Radiology family**
- **Delegates for you time**

# *Thank you*

**PAN AFRICAN CONGRESS OF RADIOLOGY  
AND IMAGING(PACORI) HELD AT LAICO HOTEL 17TH-20TH FEB 2015 NAIROBI**
