Front Cover Image:

This image is an example of a two dimensional Grazing-incidence Wide Angle X-ray Scattering (GIWAXS) pattern, collected in one second from a heated spin-coated thin organic film in-situ at SAXS/WAXS beamline at the Australian Synchrotron. Analysis of the peak locations and intensities reveals a unique crystalline structure, not seen at room temperature. Further analysis of how patterns such as these change at different temperatures reveals crystalline phase transitions and the thermal expansion of crystallites in these phases. Interestingly they also expose unexpected behaviours such as highly negative, and in other very similar molecules, highly positive linear thermal expansion coefficients. These different thermal expansion coefficients end up correlating very well with the varying performance of thin film transistors made of these materials annealed and quenched at different temperatures.

WMM 2016 : CMM GROUP

Welcome to the “Wagga” community:

Just by attending the annual Condensed Matter and Materials (CMM) Meeting you are a member of the CMM topical group of the Australian Institute of Physics (AIP). There are no forms or membership fees involved.

Take a look at the CMM Group web site:

It can be accessed from the AIP national web site (www.aip.org.au) by clicking on **AIP Groups** listed under “Related Groups” in the column at the left of the home page and then selecting **Condensed Matter and Materials Group (CMM)**. Alternatively, you can go directly to <http://cmm-group.com.au/>

Please share your favourite “Wagga” experiences:

If you have some special group images of you and colleagues, interesting events and stories from previous “Waggas”, please share them with us by passing them on to Glen Stewart (g.stewart@adfa.edu.au) who will have them incorporated into the history section of the CMM Group web site. Please include in your e-mail the year of the meeting and the names of those “Waggarites” you are able to identify in the images.

A PC laptop computer and data projector, overhead projector, pointer and microphone will be available. Please check that your presentation is compatible with the facilities provided as early as possible. Posters should be mounted as early as possible. Please remove your Wednesday session posters by early Thursday morning and your Thursday session posters by the close of the program on Friday.

Logistics:

Please wear your name tag at all times. Registration and all other administrative matters should be addressed to the registration desk or a committee member. For lost keys or if locked out of your room from 0900 to 1700, contact the Events Office for assistance 6933 4974; after hours, contact the Accommodation and Security Office near the corner of Valder Way and Park Way or phone them at 6933 2288. **Delegates must check out of their rooms on Friday morning, before 10:00am.**

Meals, Refreshments and Recreational Facilities:

All meals will be served in the “Food Bowl” dining room at Atkins Hall, except the Conference Dinner on Wednesday 3 February, which will be held in the Convention Centre. You will receive a dining room pass on registration and a ticket to the Conference Dinner. The dining room pass must be produced at every meal. It may also be required as identification for use of all other campus facilities, which are at your disposal.

Morning and afternoon tea will be served each day, as indicated in the timetable. Coffee and tea-making facilities are also available in the Common Room of each residence. In addition, on arrival on Tuesday afternoon and for the poster sessions, drinks will be available from the Conference Bar.

The swimming pool is open on weekdays from 06:00 until 21:00, as are the adjacent gymnasium and squash courts. A wide range of facilities such as exercise bikes, table tennis and basketball are available in the gymnasium. Access to these facilities is covered by your registration fee.
