

JiVS-FINserv Real Estate Solution Bundle

JiVS & FINserv JOIN FORCES TO SIMPLIFY AND ACCELERATE YOUR MOVE TO SAP S/4HANA RE-FX

Simplify and accelerate your transition to SAP S/4HANA RE-FX – on-premise or on public or private Cloud. The JiVS-FINserv solution bundle provides best-in-class consulting and software to firms in the finance and real estate sectors – driving a fast and low-cost migration to the new SAP software generation.

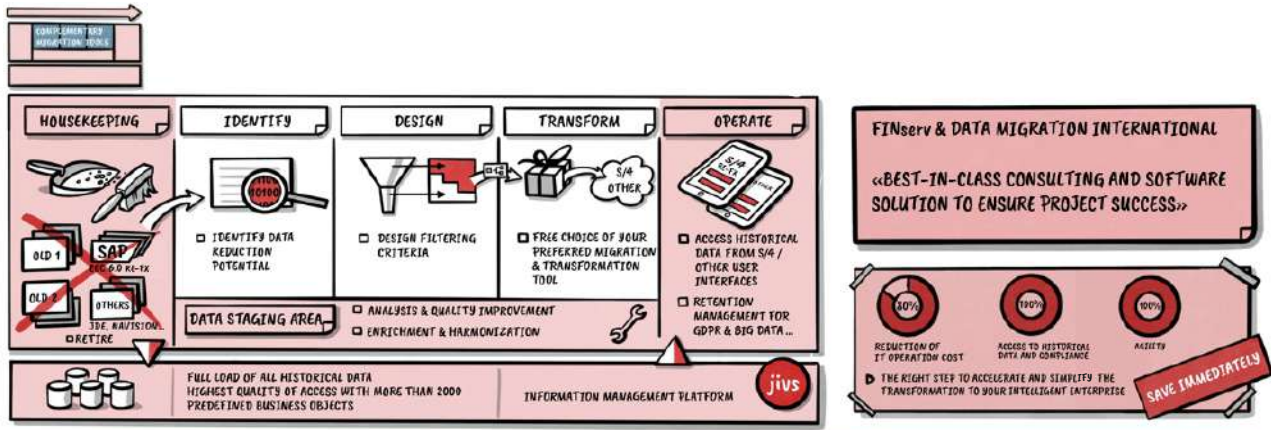

Why?

- Reduce costs and effort:
 - o Reduce TCO for SAP S/4HANA RE-FX by up to 25%
 - o Reduce data migration effort by 50%
 - o Reduce operational costs by up to 80%
- Accelerate and simplify your transformation to an intelligent enterprise:
 - o Only migrate the necessary data
 - o Ensure seamless access to historical SAP RE-FX and FI/CO data
 - o Accelerate data load from all key source systems
 - o Achieve optimal data quality for a better customer experience
- Leverage the expertise of a leading consulting team in SAP RE-FX and FI/CO

“Over a period of ten years, we have saved around one million Euro in operating costs. That adds up to approximately a third of what it costs to run our SAP systems in the Real Asset division – and all this after retiring just one system. Using the JiVS platform to decommission systems also supports risk and compliance management, as access to legacy data is guaranteed for the full duration of the legal retention period. Storing data in Switzerland is also an advantage, as it eases compliance with regulatory requirements for Swiss legacy data.”

Urs Hutter, Senior Project Manager Real Assets IT, AXA IM

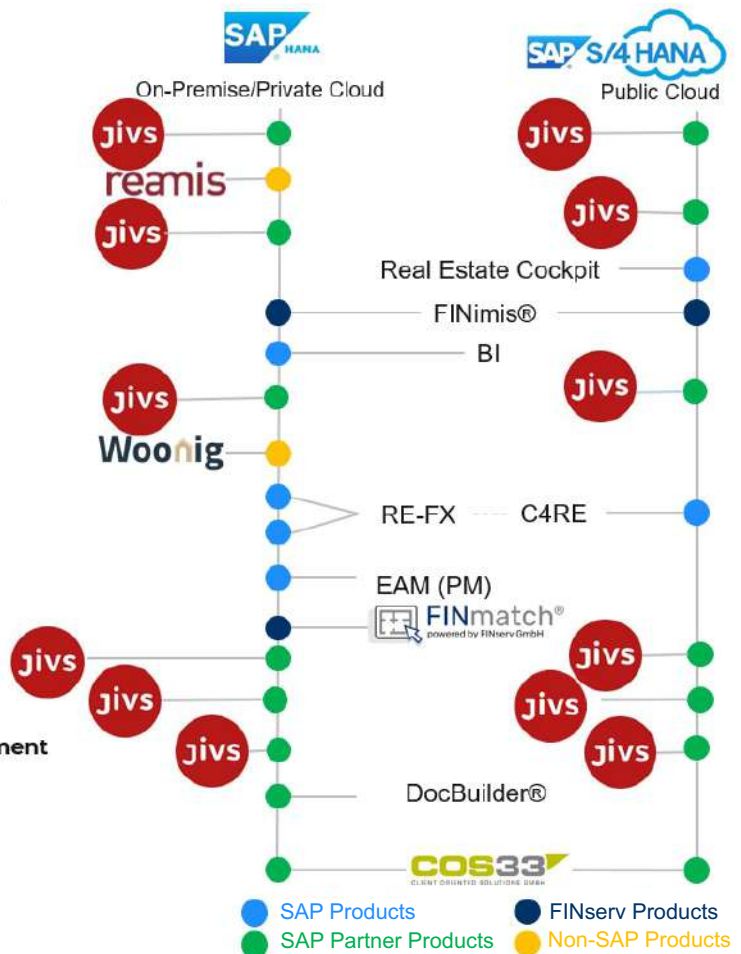

DATA MIGRATION FROM SAP ECC 6.0 RE-FX TO SAP S/4HANA RE-FX
