Mondays - Fridays, 9 AM-7 PM EST

Live Chat available on all of our websites

HOW CAN WE HELP YOU?

The American Liver Foundation National Helpline has Information Specialists who are available to:

- Answer basic/general questions about liver disease, liver wellness and liver transplants
- Respond to national and international requests for information
- Direct callers to local services and possible resources for financial assistance
- Provide information about clinical trials
- Help locate a local healthcare provider/local support group
- Offer caregivers supportive information to assist in their vital and challenging roles
- Link to interpretation services in order to provide support in 189 languages/dialects upon request

The American Liver Foundation National Helpline Specialist is unable to:

- Provide medical advice or recommendations
- Interpret lab test results for patients
- Recommend specific healthcare providers and facilities
- Provide direct financial assistance
