Introduction

OWASP

The Open Web Application Security Project

<http://www.owasp.org>

OWASP is a worldwide free and open community focused on improving the security of application software.

Our mission is to make application security visible so that people and organizations can make informed decisions about application security risks.

Everyone is free to participate in OWASP and all of our materials are available under a free and open software license.

The OWASP Foundation is a 501c3 not-for-profit charitable organization that ensures the ongoing availability and support for our work.

Program

18h45 – 19h00

OWASP update

Seba Deleersnyder

19h00 – 20h00

Common iOS Pitfalls vs. OWASP's iGoat

Ken van Wyk, KRvW Associates

20h00 – 20h15

Break

20h15 – 21h15

Access Control Design Best Practices

Jim Manico, WhiteHat Security

OWASP near you

Celebrating 10 years

<http://web.archive.org> Dec 2011

The screenshot shows the OWASP website's 'About OWASP' page. The page is titled 'OWASP PROJECT COMMITTEE' and describes the role of the committee. It lists members of the Project Committee, Technical Steering Committee, and User Committee, along with active contributors. The website has a blue and yellow color scheme.

OWASP PROJECT COMMITTEE

The Project Committee is responsible for the organization of OWASP including running this web site, funding, setting up the OWASP foundation, it also organizes speaking opportunities on behalf of the project and deals with press and publishing.

Mark Curphey Chair OWASP	Dennis Groves Vice Chair OWASP	Kavith Jeeong Site Manager OWASP
---------------------------------------	---	---

OWASP TECHNICAL STEERING COMMITTEE

The Technical Committee is made up of renowned application security experts who ensure that the work and ideas are technically sound. These people have a wealth of experience and knowledge and will be guiding much of the direction of the work in various areas. As well as participating on the mailing list the technical committee has a monthly conference call to discuss progress. They are the OWASP technical think tank!

Greg Hoglund DirTofSecure	Eliel Levy SecurityPulse	John Viega Secure Software	Chris Vilegeau @State
-------------------------------------	------------------------------------	--------------------------------------	---------------------------------

OWASP USER COMMITTEE

The User Committee was created to solicit feedback from the end users and developers of web applications and web systems. We have received lots of ideas on what work people feel is needed or where knowledge is lacking and the user committee gives us the ability to formally capture that feedback from the people that own and build these systems. This also ensures that the technical correct work is useful in the real world. The committee is run by Robert Rodger of the Bank of Bermuda.

Robert "Bob" Rodger Bank of Bermuda	John Blumenthal

Next chapter meeting

- May / Sep 2012
- Topics / speakers / venue suggestions are welcome!

AppSecEU

Keynote: Prof. Diomidis Spinellis, Fatal Injection (and what you can do about it)

CFP: 15-April

BruCON 2012

BRUCON
SECURITY
TRAINING
GHENT 24-25
SEPTEMBER
2-day courses
by renowned
experts

BRUCON
SECURITY
CONFERENCE
GHENT 26-27
SEPTEMBER
2-day conference
featuring outstanding security
presentations and workshops

@brucon: training subjects selected so far : pen testing, exploit development, red team, web app testing, IPv6 security. You like?

@brucon: 16 speaker slots to fill up ... CFP ends March 15th !
