Introduction

OWASP

The Open Web Application Security Project

<http://www.owasp.org>

OWASP is a worldwide free and open community focused on improving the security of application software.

Our mission is to make application security visible so that people and organizations can make informed decisions about application security risks.

Everyone is free to participate in OWASP and all of our materials are available under a free and open software license.

The OWASP Foundation is a 501c3 not-for-profit charitable organization that ensures the ongoing availability and support for our work.

Thank you

Location / co hosting

OWASP supporter

Sponsors Belgium 2011/2012

OWASP cannot recommend the use of products, services, or recommend specific companies
