Cybersecurity Jobs Report: 3.5 Million Openings In 2025

(ISC)² CYBERSECURITY WORKFORCE STUDY

A critical need for cybersecurity professionals persists amidst a year of cultural and workplace evolution

2022

We estimate the size of the global cybersecurity workforce at **4.7 million people** – the highest we’ve ever recorded. According to our research, however, the cybersecurity field is still critically in need of more professionals. To adequately protect cross-industrial enterprises from increasingly complex modern threats, organizations are trying to fill the **worldwide gap of 3.4 million cybersecurity workers**. To fully contextualize the state of cybersecurity in 2022, we’ll analyze the field through multiple lenses.
