## OWASP MEMBERSHIPS

global strategic group

Software powers the world, but insecure software threatens safety, trust, and economic growth. The Open Web Application Security Project (OWASP) is dedicated to making application security visible by empowering individuals and organizations to make informed decisions about true application security risks.

OWASP boasts 46,000+ participants, more than 65 organizational supporters, and even more academic supporters.

As a 501(c)(3) not-for-profit worldwide charitable organization, OWASP does not endorse or recommend commercial products or services. Instead, we allow our community to remain vendor neutral with the collective wisdom of the best individual minds in application security worldwide. This simple rule is the key to our success since 2001.

Your individual and corporate membership powers the organization and helps us [serve the mission](#). Please consider becoming an OWASP member today!

- 4 New Directors of OWASP Global Board To Be Elected
- The OWASP Board of Directors currently consists of 7 elected volunteers who serve a 2-year term.
- These unpaid volunteers dedicate themselves to the organisational mission and playing a pivotal role in the software security community.
- Members of the Global Board of Directors are responsible for setting the strategic direction of the organisation and ensuring the financial integrity of the OWASP Foundation.
