

# AxiomVR4™ Security System

2 Automatic Road, Suite 108  
Brampton, Ontario  
Canada L6S 6K8

**Number: 102**

## **AxiomVR4™ Registration/Activation**

**AxiomVR4™ Professional Security System with the upgrade version 5.3.6R4 and AxiomVR4™ Enterprise System with the upgrade version 5.3.7R4** software comes with 14 days trial license, after which the system will not run unless user registers with RBH and activates the License.

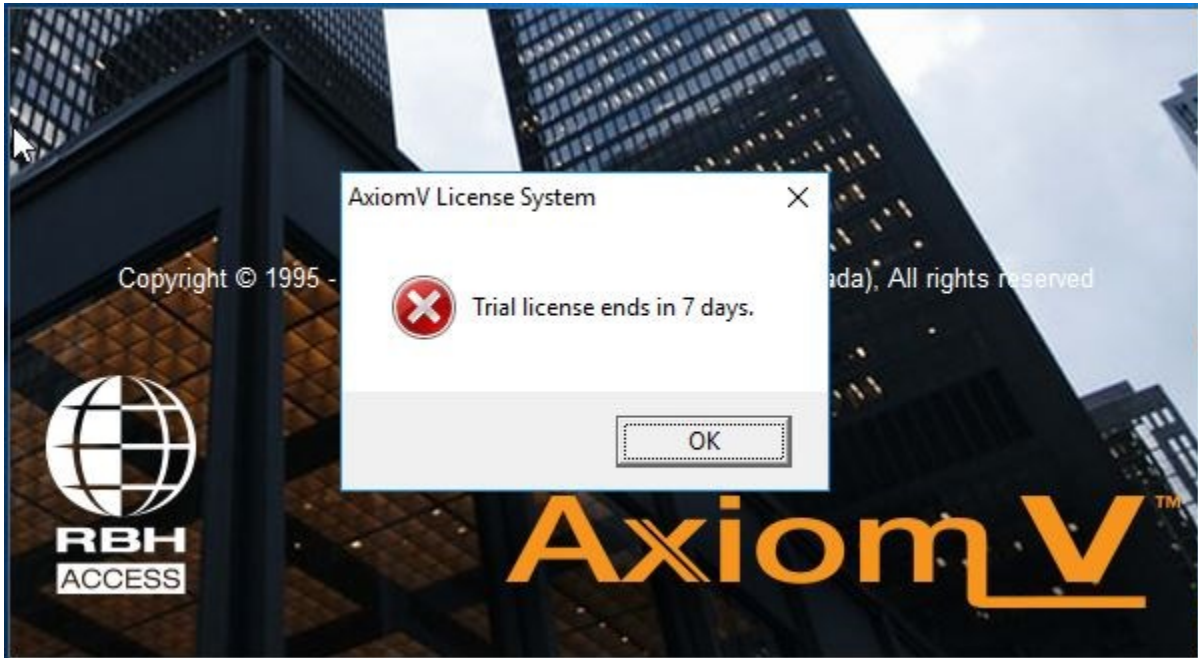

Please note that licensing is tied to the hardware of the PC that the software is installed on. If you make changes to the hardware, the license will no longer be valid. Please ensure that your hardware setup is as required for the system before you register/activate.

Registration and Activation can be done any time during the trial period as well. Each site should register with RBH before activating their license.

User needs to sign in to AxiomV version 5.3.6/5.3.7R4 to be able to Register/Activate the software.

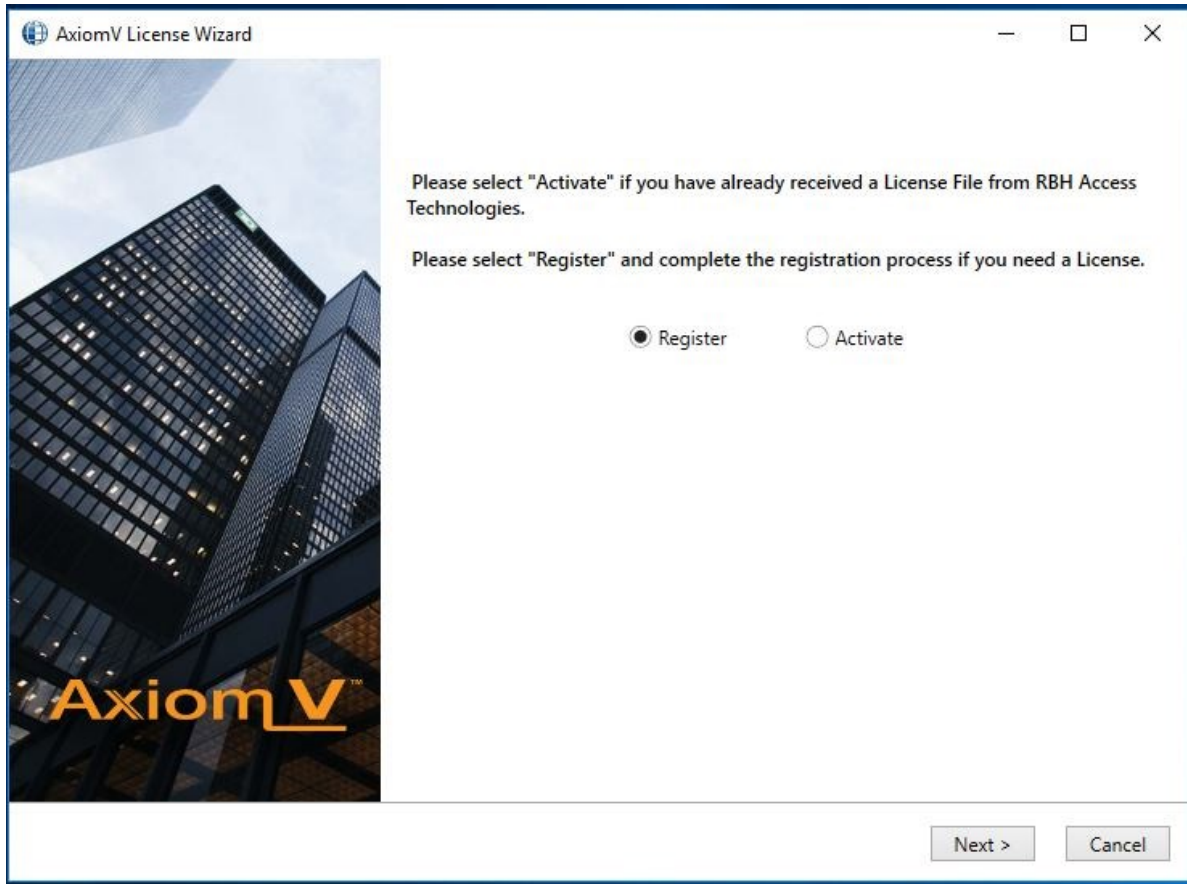

A successful log in will either pop up the message about Trial license.

Or if the trial license is already expired, will pop up:

Clicking OK for the first option will bring up the AxiomVR4 Security System, and clicking OK on second option will bring up Registration/Activation window.

Registration/Activation can also be done through the *Help* menu.

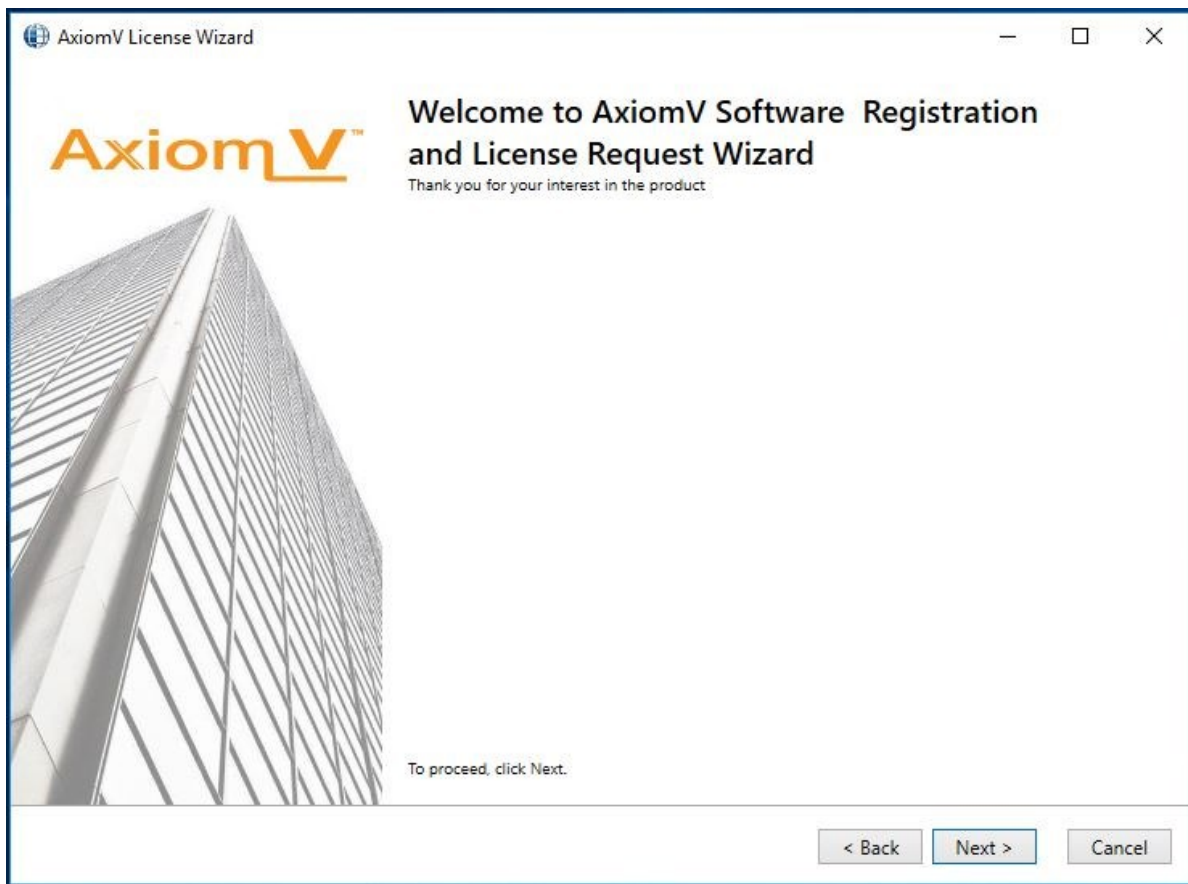

Through the **Help** menu also, you can choose to *Register* or *Activate*.

**You may need to *Reset toolbar* from the *Tools* menu, if *Register/Activate* are not showing in *Help* menu.**

Users need to register the site with RBH along with requesting a license.

Click *Next* to open the window for selected option.

## Registration

Click *Next* to select the location to save *Registration* and *License Request* files to send to RBH.

Click *Next* to be able to select email option to send the registration and License Request files directly through email.

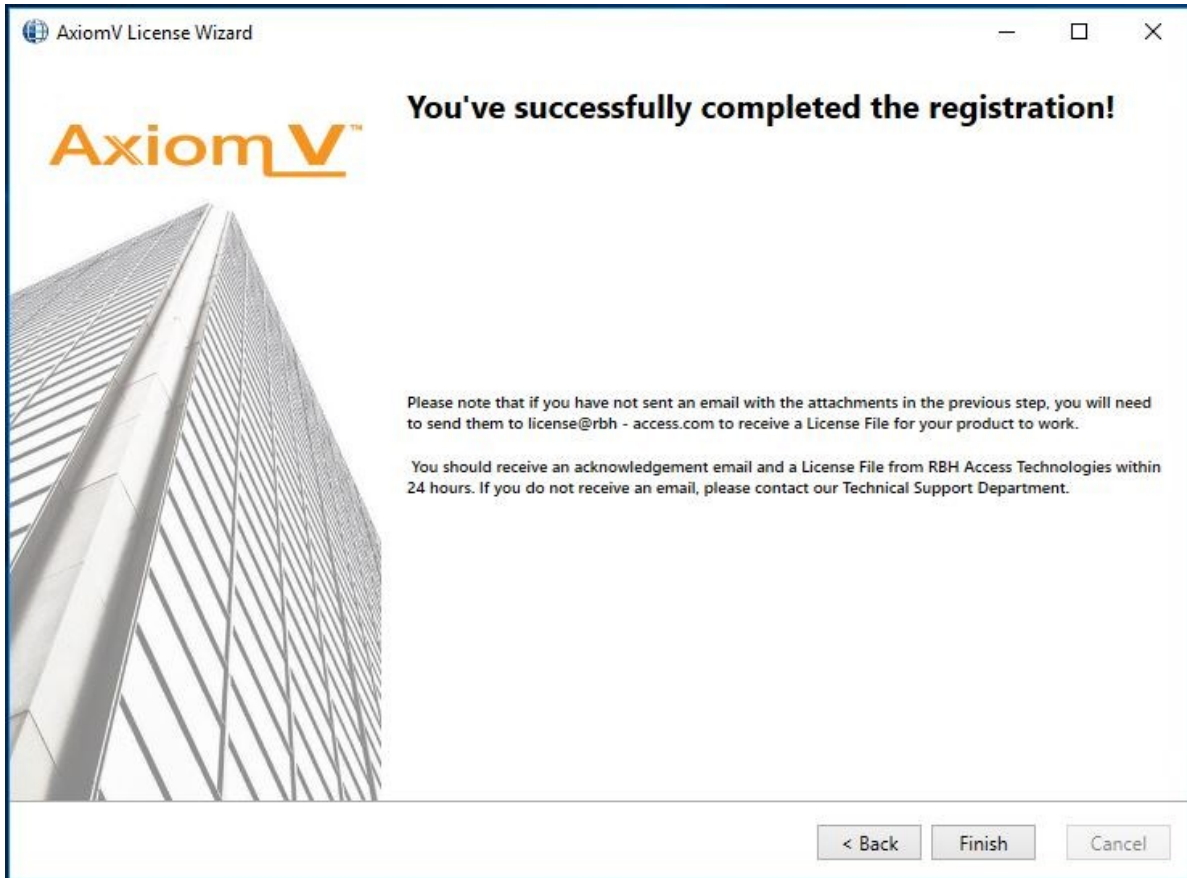

If selected Yes option, it will load the next page to fill in your email information, otherwise will save them in location selected.

The screenshot shows the 'AxiomV License Wizard' window. On the left is a vertical banner with a photograph of a modern skyscraper and the 'Axiom V' logo at the bottom. The main area contains a red instruction: 'Fill out the email configurations below and click "Send Email Now" which will send an email to license @rbh-access.com with the Registration Form and License Request Files attached.' Below this are several input fields: 'Sender Name' (containing 'RBH'), 'Sender Email Address' (containing 'rbh01.Test@rbh-access.com'), 'SMTP Server', and 'Password'. There are also two unchecked checkboxes for 'Using Exchange Server' and 'SSL'. The 'Attachments' section shows two files: 'Registration.rxa' and 'RBH.WibuCmRaC'. A 'Send Email Now' button is highlighted in red. At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'. A note at the bottom left says 'To proceed, click Next.'

Click on *Send Email Now* button after filling in the required information.

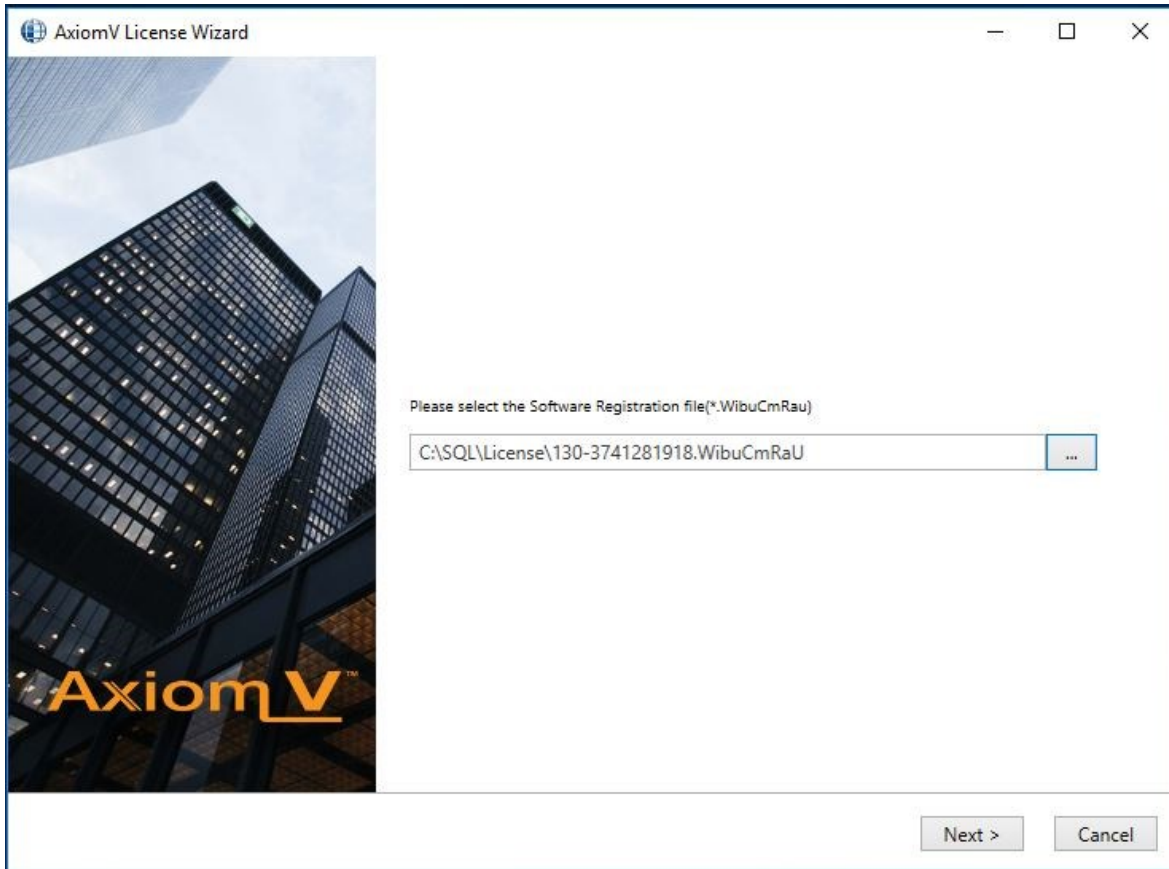

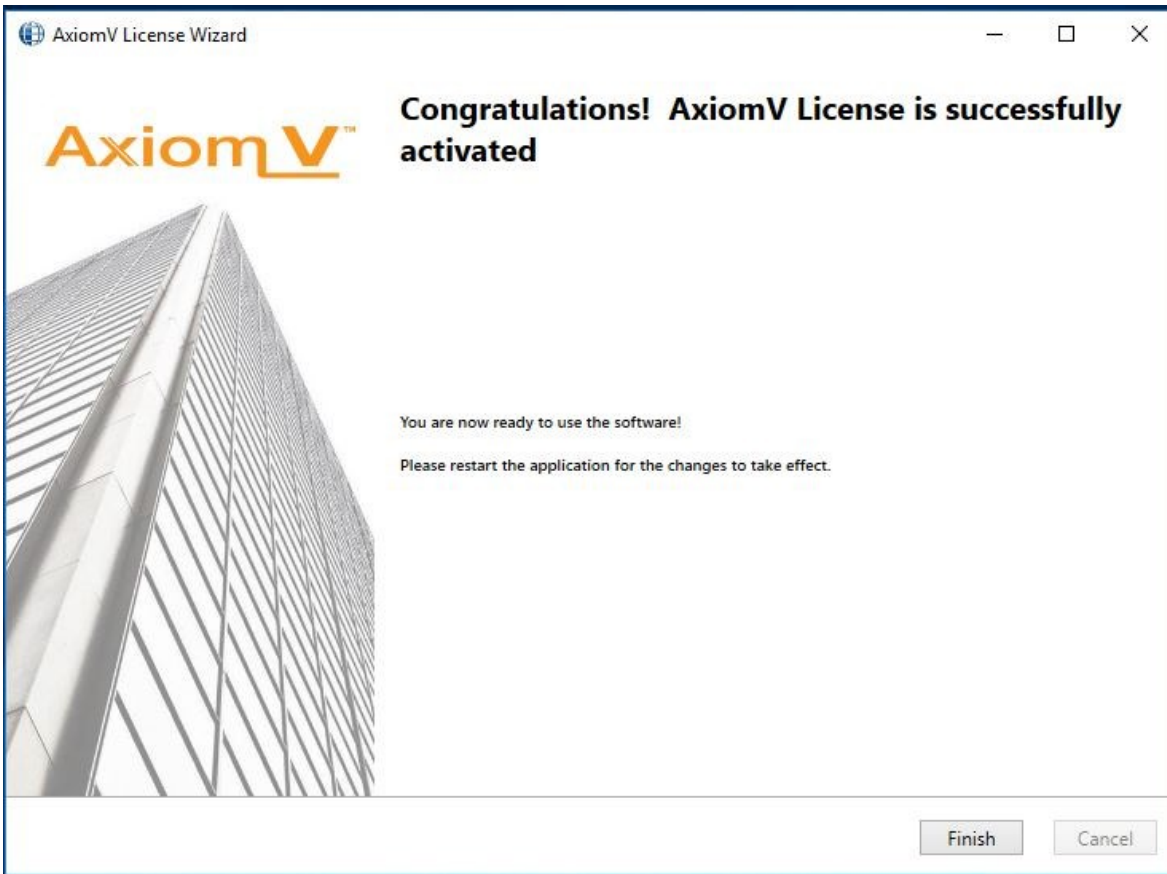

Click *Finish* and provide RBH the *Registration* (.rxs), and *License Request* (.WibuCmRaC) files. Once RBH receives the request they will send activation file for your AxiomVR4™ system.

## License Activation

Click on Help> Activate to bring up License Activation window.

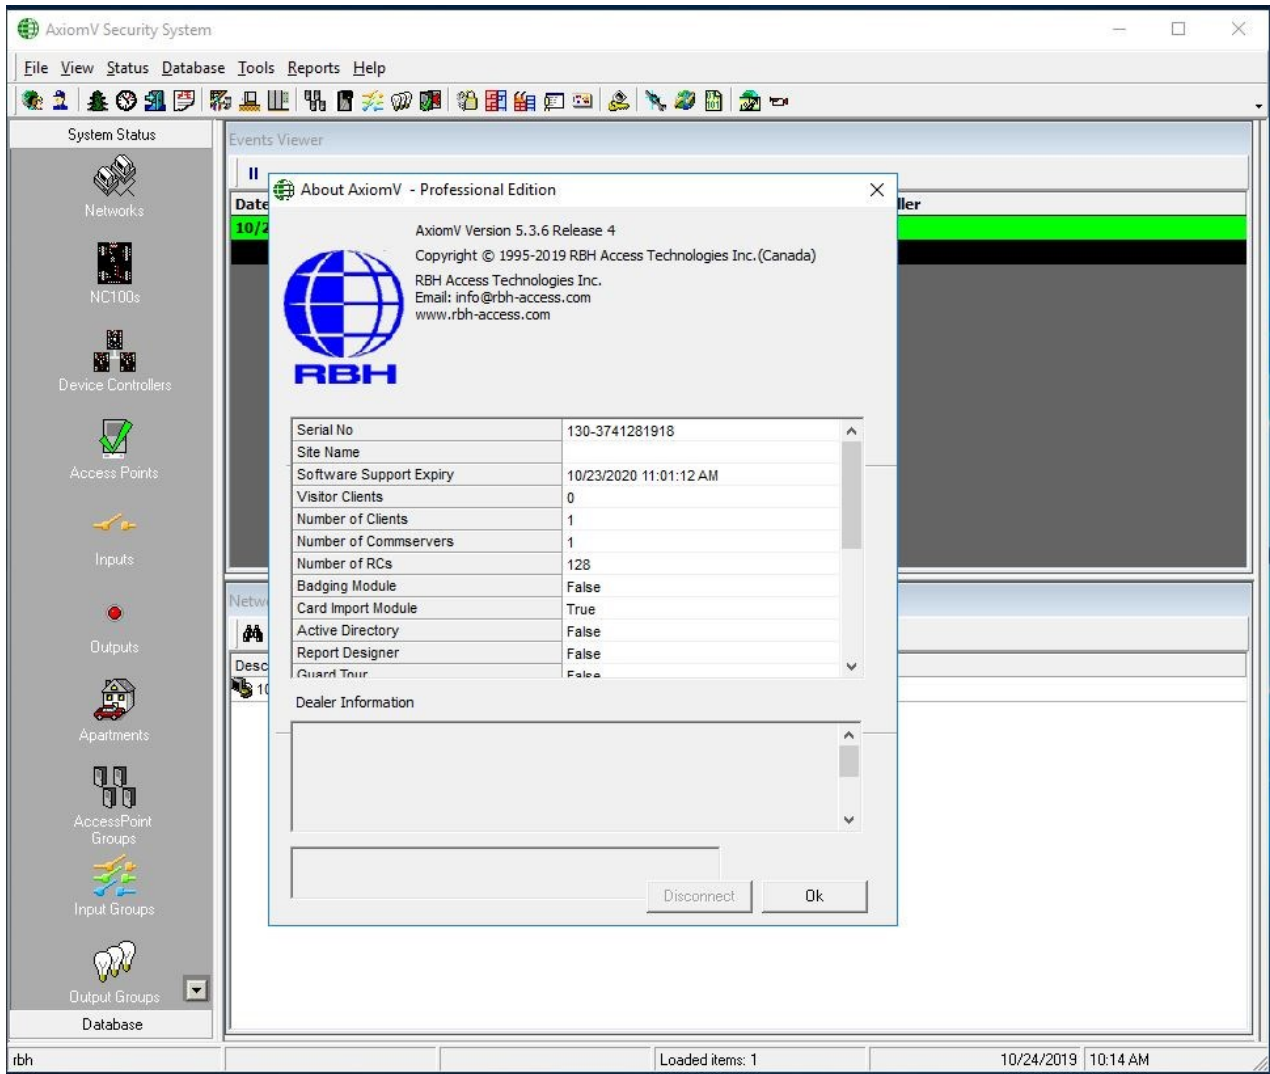

Select the license (.WibuCmRau) file to activate the license and click on *Next*.

Click *Finish* to get out of Activation wizard.

Your License is now activated.

Log back in to AxiomV™ Security system to be able to access all the options available in your application as per your License.

Clicking on *About* option from *Help* menu shows the license information along with Software Support Expiry date.
