FACTS

14. On or about March 10, 2022 at approximately 8:02 p.m. Linda Trapp arrived at St. Joseph East's Emergency Department (the "ED") *via* ambulance after suffering a fall at her residence. Ms. Trapp was seeking treatment for an injury to her head sustained in the fall. Upon arrival Ms. Trapp was triaged by Nurse Wilkerson and other unknown employees of the hospital's ED.

15. Plaintiff spent the next two hours undergoing various tests and medical screening exams including a CT scan of her head. Approximately two hours later Plaintiff was discharged and cleared for release. Prior to being discharged Plaintiff repeatedly asked for a Covid test. Her requests were denied. Plaintiff's residence, the Catholic Action Center, required a negative Covid test for reentry to their facility. Without a negative test evidencing the fact she was not Covid positive, Plaintiff would not be allowed reentry to the Catholic Action Center and would consequently have to sleep outside in the cold. After Plaintiff's requests for a Covid Test were denied, Defendant employees of Universal and/or St. Joseph employees called for police assistance as they believed Plaintiff would refuse to leave.

16. Beginning at approximately 10:04 p.m., as registered by Defendant Foster's Body Worn Camera ("BWC"), Foster entered the room in which Plaintiff was lying in a hospital bed. While Plaintiff laid in the hospital bed Defendant Foster threatened

Plaintiff telling her, *"I will drag you out and throw you out on the sidewalk!"* Before Plaintiff can get out of her bed, Defendant Foster repeats, *"Come on, I will drag you out...you wanna call my bluff, go ahead!"*

Plaintiff cooperated and walked towards the exit. Prior to exiting the ED, while standing near the vestibule, Plaintiff continued to plead for a Covid test. Plaintiff also advised Defendants that she needed her walking cane. At the time Plaintiff was a sixty-one-year-old woman. She had just suffered head trauma from a fall. In addition Ms. Trapp suffers from a degenerative right knee which caused her to rely on the assistance of a cane to walk. Plaintiff again asked for a Covid test. Defendant Foster told Plaintiff, *"It's not that cold tonight you will be alright* (knowing she would have to sleep on the street)." At one point during this exchange while inside the hospital and in the presence of Universal security guards, Defendant Foster pushed Plaintiff to the ground and threatened to take her to jail. Once Plaintiff was allowed to stand up, the following exchange occurred between the two:

Plaintiff: "I will go on my own."

Foster: "You want to go? Alright let's go!"

Plaintiff: "Ya, I will go."

Foster: "We are not touching you. If I touch you again you are going in cuffs...*and you're gonna get hurt because I am gonna put you on the ground."*

After being threatened by Defendant Foster, Plaintiff walks outside under the car port

and begins walking away from the building down the inclined driveway. Defendant Universal's employee John Doe 2 and others were present at all times described herein. Once outside the vestibule, those present were Defendant Foster, the unknown employee/s of Defendant Universal John Doe 2, an unknown LPD Officer John Doe 1, and other employees of Defendant Southern and/or St. Joseph East. These individuals collectively began to humiliate and make fun of Plaintiff. Defendant Foster sarcastically yells, "Bye Bye!" One of medical employees, believed to be a nurse or another unknown employee, waves her hand as if to shoo Plaintiff saying, "Go!...Far!...like Harrodsburg Road!." At this is point, Plaintiff turns and asks "Can I have my (walking) cane please?" as she believes she has left her cane inside. She stands in the same spot, she does not walk back towards the vestibule. One of the female employees of St. Joseph yells, "You don't have a cane Linda!" Defendant Foster then yells to Plaintiff, "Go find a tree branch or something!" One of the several females present joins in the humiliating conduct by repeating the officer's same statement, "Go get you a tree branch!" The individuals and the LPD Officers are laughing and smiling about their concerted behavior towards Plaintiff. Defendant Foster yells to Plaintiff, "They're some good trees over there downtown!"

After a brief exchange between Plaintiff and Defendants about her missing cane, while Plaintiff remains standing in place on the inclined driveway at a distance, Defendant Foster and the other unknown Defendant LPD officer John Doe 1, both walk hurriedly towards Plaintiff. Fearful of the violent threats made previously by

Defendant Foster, and seeing both Defendant Officers walking towards her aggressively, she says, *"Oh no, you are not going to hurt me?!"* Defendant Foster violently grabs Plaintiff's arm and twists it behind her back while forcing her to the ground, face first. LPD Officer John Doe 1 joins in the unnecessarily aggressive "take down." After being forcibly slammed to the ground Plaintiff says, *"Because I wanted my cane you broke my knee!"* At no time did Plaintiff resist or fight either officer. At no time did either officer tell Plaintiff she was under arrest. At no time did either direct Plaintiff to place her arms behind her back. At no time did either Officer direct Plaintiff to lie on the ground.

The Defendant LPD officer's violent conduct caused Plaintiff to suffer serious injuries, including a fractured leg and abrasions to her face and head. After hand cuffing Plaintiff on the ground, Defendant Foster boasts, *"I don't mess around Linda, or whatever your name is, next time you seem me you better not act like this. I don't mess around you understand?!"*

17. Once in handcuffs Defendant Foster advised Plaintiff, *"You shouldn't of resisted."* This statement is false. Plaintiff immediately responded, *"I didn't resist."* Defendant Foster replies, *"when you pull away from an officer when they say you are under arrest it's resisting."* Neither officer told Plaintiff that she was under arrest. This was another false statement by Defendant Foster.

18. Plaintiff is then seated on the pavement in the hospital's driveway with a fractured leg, a bloody face and hand cuffed. Defendant Foster and Defendant John

Doe 1 question aloud whether Plaintiff should return to the ED to be checked out for her new injuries or whether they should call for a LFUCG ambulance. Upon inquiring with the ED employees still present under the carport, the nurses agree to treat Plaintiff and begin to walk towards Plaintiff where she is still cuffed and seated on the ground. The nurses present direct the Defendant LPD Officers to bring Plaintiff back inside St. Joseph East's ED for medical evaluation. One unidentified female present directs the officers, *"bring her back into the bay doors here."* Plaintiff immediately advises the nurses and ED employees present, *"They broke my kneecap* (Plaintiff was complaining of a leg injury, diagnosed subsequently as acute proximal tibia and fibula fractures)."*"* As a result of her fractured leg and the existing degenerative condition of her other leg, Plaintiff was incapable of ambulating on her own. Plaintiff repeatedly vocalized to the St. Joseph nurses and employees present that she could not walk or stand. Despite these pleas in pain and agony, Plaintiff is directed to stand up and walk. Finally, one of the St. Joseph's nurses bring a wheelchair from inside the ED to retrieve Plaintiff whereupon she is taken by wheelchair back inside St. Joseph East's ED.

At this time Plaintiff is once again a patient of Defendants named above for the purpose of medical diagnosis and treatment of her injuries. During this time Plaintiff continues to advise the St. Joseph nurses and employees that she is suffering great pain in her left knee and that she cannot walk. Defendants Foster and another present respond, *"Your knee is fine."* Plaintiff's knee was not "fine" as Officer Foster had fractured

plaintiff's leg moments before as a result of his use of excessive force. While receiving medical care to Plaintiff's facial wound a nurse says to Plaintiff, "*Lord Jesus shut up!*" as she treats her patient's injury on the left side of her face.

19. At this time Plaintiff is in custody. She has reentered the hospital's ED at the the Defendant Officer's request. Plaintiff was now once again a patient of Defendants Southeastern and Dr. Anderson. At approximately 10:13 p.m. Defendant Dr. Anderson approaches Plaintiff to evaluate her injuries. Defendant Anderson, intervening says, "*Let me take a look here.*" Plaintiff immediately pleads for Dr. Anderson to X-ray her left leg. Defendant Anderson spent approximately 19 seconds with Plaintiff as evidenced by the body worn camera video. Plaintiff tells Dr. Anderson she can't walk and pleas for an x-ray. Defendant Anderson replies to Plaintiff, "*You can do that (x-ray) with your doctor at his office.*" Then Defendant turns his back on Plaintiff and walks away. At 10:18 p.m. a nurse tells one of the Defendant LPD officers present that Plaintiff is being discharged for a second time and that she is "cleared for jail."

20. Later Defendant Foster can be heard on the BWC video making false statements about the incident. At approximately 10:20:54 p.m. Defendant Foster falsely states to another officer on the scene, "*she refused to leave and started fighting me.*" This is a false statement. Foster continues to advise the other LPD officer present that "*she got busted up pretty good*" adding, "*she was Man-dropped.*" Indeed, the two Defendant LPD officers fractured Plaintiff's left leg as a result of their excessive and unnecessary use of

force.

21. At approximately 10:28 p.m. a supervisor, possibly a Sargent with Defendant LPD, arrives on the scene. Defendant Foster makes a false report of the incident to this supervisor in an effort to conceal their egregious conduct. Foster falsely reports the incident alleging Plaintiff stated, *"FU I am not leaving ... so I went to arrest her and she started flailing her arms and kicking and stuff so I put her on the ground."* These statements are false. Plaintiff did not say to Defendant Foster, *"FU I am not leaving."* Defendant Foster lied to his supervisor when he said the Plaintiff was *"flailing her arms and kicking and stuff."* These statements were false as evidenced by the BWC video. Defendant Foster continues to make false statements by telling his supervisor that Plaintiff originally presented that evening at St. Joseph with knee pain. This was a false statement and Defendant Foster knew it to be false. This was yet another false statement and attempt to conceal and avoid responsibility for the injuries caused by his excessive use of force on Plaintiff.

This LPD supervising officer can be seen on BWC video at approximately 10:31 p.m. inquiring with Plaintiff about the events and her injuries. Plaintiff tells the LPD officer that she cannot walk and that her *"left knee (leg) is shot."* She tells the supervisor it was a result of the two Defendant LPD officers having thrown her down on the ground face first.

22. Unknown Defendant John Doe 2, an employee of Defendant Universal,

falsely reported the incident to the LPD supervisor at approximately 10:34 p.m. outside the presence of Plaintiff. Defendant John Doe 2 makes numerous false statements to the LPD supervisor. Defendant states that Plaintiff *“refused several times when the officers asked her to leave.”* This was a false statement. Defendant John Doe 2 goes on to falsify the narrative by reporting that Plaintiff got to a certain point and refused to go any further, *“then she tried kicking one of them and it proceeded from there.”* This statement is false.

23. After approximately another 20 minutes Plaintiff was requested to get inside the LPD police van by stepping up and inside the van for the purpose of being transported to the Fayette County Detention Center. Plaintiff continued to plead with the Officers present advising all that Plaintiff’s leg was severely injured, that it had not been x-rayed and that she could not stand up and bear weight on her left leg. Despite continued pleas for help, Plaintiff was forced to enter the van with little assistance. This act was unnecessary and caused extreme pain and agony to Plaintiff.

24. Plaintiff was taken by the LPD to the Fayette County Detention Center (“FCDC”). Upon arrival Plaintiff was screened for her injuries and her overall medical condition. Soon after admission to FCDC Plaintiff’s leg was finally x-rayed and the radiologist noted *“acute proximal tibial/fibula fractures with malalignment.”* Plaintiff was taken by ambulance to UK Hospital whereupon she ultimately received medical treatment including numerous surgeries to address the severe injuries suffered due to Defendants actions. The acts and/or omissions of Defendants were a substantial factor in

causing damages to Plaintiff, Ms. Trapp.

25. Each act or failure of Defendants was a substantial factor in causing damages to Plaintiff Linda Trapp.
