1. MALTA FILM COMMISSION

The Malta Film Commission (“MFC”) is a government body established by the Malta Film Commission Act (CAP 478 of the Laws of Malta), with the role of advising the Minister responsible for the film sector. The MFC is responsible for the promotion, development, and support of the audiovisual industry, including the film servicing industry in Malta. This is achieved through various policies, services, and incentives with an aim to facilitate the work of qualifying productions in Malta and by showcasing Malta’s locations, skilled labour, and industry capabilities on the international stage. In addition, the MFC is also responsible for developing an indigenous film industry through training programmes and support schemes available under Creative Malta.

As an entity, the MFC supports and works hand-in-hand with all productions throughout the entire filmmaking process. From enquiry stage to the end of wrap and beyond.

The MFC, through its “Opportunity for All” programme, maintains and updates a directory (consisting of a list of companies, service providers, crew, and services) of the local filming industry.

The MFC also provides ongoing assistance vis-à-vis:

- Information and administrative assistance about local incentives including the Financial Incentives for the Audiovisual Industry;
- Compilation of location libraries;
- Support on location scouts;
- Management of the Malta Film Studios water tank facilities and Fort Ricasoli;
- Assistance in the acquisition of filming permits;
- Acts as a liaison between the different Government entities and departments;
- Administration of the “Opportunity for All” programme;
- Ongoing support on the ground.

The Audiovisual Industry represents a key component of the cultural and creative industry, and the Maltese Government is committed to promoting this growing sector as one of its priorities.

2. THE “OPPORTUNITY FOR ALL” PROGRAMME

Along with its financial incentives, and its film infrastructure, the local crew base is a very important element of Malta’s proposition to foreign productions.

The Malta Film Commission takes pride in offering professional crews with vast experience on multiple productions. With many of our crews boasting credits on some of the biggest

productions of recent years, we are proud of our crews and the experience they bring to each project.

The “Opportunity for All” programme, is the Malta Film Commission’s initiative to ensure the continuous professional development of established crews as well as the induction of new crew members into the industry.

On a wider scale, the programme seeks to identify skill gaps in the local workforce addressing these with targeted training or scholarships. On a macro level, the programme seeks to follow the career paths of each and every crew member identifying their training needs and providing opportunities for career development. The programme’s mentorship scheme allows new crews to be inducted into trainee positions under the guidance of trained professionals.

Careful vetting of both freelancers and companies ensures that the Malta Film Commission can confidently provide enquiring productions with a wide range of crews, and service companies of the highest standards possible.

Request access to the directory by contacting us at ofa@mfc.com.mt

SECTION 2: ELIGIBILITY CRITERIA

To apply for the cash rebate for a qualifying production, you must meet the following eligibility criteria, as outlined below and in accordance with these guidelines herein:

1. Applicant must be a qualifying company.
2. The qualifying production is in one of the formats as outlined in these guidelines.
3. The minimum spend must be €100,000 in Malta with an overall budget exceeding €200,000.^{2 3 4 5}
4. Applicant must pass the cultural test.⁶
5. Foreign qualifying companies are to engage an 'Opportunity for All' (OFA) registered Production Service Company to act as Production Coordinator (in case of live action); and/or engage the services of an OFA registered VFX/Animation/Post-Production Company.⁷

2.1. WHAT IS A QUALIFYING COMPANY

The qualifying company shall be the ultimate beneficiary and the entity responsible for all activities involved in making a qualifying production and having access to full financial information for the total production worldwide, which can be made available to the Film Commissioner upon the latter's request.

Where the qualifying production is a co-production, the coproducers shall appoint one of the co-producers amongst them to act as the qualifying company in respect of the qualifying production for the purposes of this scheme and the appointed co-producer shall be deemed to be the entity responsible for all activities involved in making the qualifying production⁸.

Provided that:

² If live action is also carried out together with VFX and/or post-production the minimum expenditure requirement applies to the combined total Malta Spend (and not solely to the independent elements).

³ Applications for TV series may be made per episode or as a series.

⁴ If a qualifying company has a slate of projects which are carried out 'back-to-back' or 'simultaneously' the applicant can choose to apply per production or combine in one application if the minimum spend is not met. Please liaise with the Malta Film Commission in advance to understand how this will be implemented and how application needs to be processed.

⁵ In line with the *General Block Exemption Regulation*, territorial spending obligations mean the obligations imposed by the authority granting the aid on beneficiaries to spend a minimum amount and/or conduct a minimum level of production activity in a particular territory.

⁶ For an audiovisual work to be considered as a cultural product and found to be making a valid contribution to the expression of creativity and culture through the development of production capability skills in the audiovisual sector, a Cultural Test is required. The audiovisual work must obtain a minimum of 40 points in aggregate in the Cultural Test.

⁷ A production service agreement (with a local company offering services as production coordinator or in respect of VFX/Animation/Post-Production works carried out in Malta) must be in place outlining the responsibilities of the parties involved. The local company/studio/facility may assist, guide, and submit application on behalf of the qualifying company; however, application must be in the name of and signed by the applicant who is the ultimate beneficiary of the cash rebate.

⁸ In the case of a co-production with a local qualifying company, it is recommended that the application for the cash rebate is made by the Malta co-producer (the producers participating in the co-production must reach an agreement on this point); if the local co-producer is a minority partner, the majority partner must be included in all official correspondence relating to the filing of the application and final submission (and any other pertinent matters relating to the submission for the cash rebate). Appointed co-producer who is recognized as applicant is considered as being the recipient of the cash rebate in respect of the qualifying production and is responsible for apportioning any funds to any coproducing partners in accordance with any agreements. For sake of full transparency, it is recommended that all co-producing partners should be included in all official correspondence with the Malta Film Commission relating to application, updates, obligations, and final submission. The local co-producer should in no way be treated or considered as a 'service provider' and in no way treated less than co-producing partners. It is expected that each co-producer makes an effective technical and creative contribution following the principle of proportions in line with each partner's respective financial contributions (*mutatis mutandis*) whether co-production is an official co-production following a bi-lateral or multilateral treaty agreement or as an unofficial co-production.

- (a) there shall be only one qualifying company with respect to a given qualifying production.
- (b) in the case of a co-production, the financial incentive granted shall be apportioned between the co-producers as agreed between them, or in the absence of any agreement to that effect, in proportion to their share in the overall budget of the qualifying production⁹; and
- (c) any co-producers shall be jointly and severally liable for their obligations under the Act and these regulations.

A qualifying company is either:

- i) **Foreign Qualifying Company**, it shall be either a special purpose corporate vehicle or a company which carries on, or intends to carry on in Malta, a trade or business which is considered as a qualifying production, or a

(a) (iii) **“creative documentary”** means a project based on an original theme which contains a certain “timeless” element so that there is no loss of interest when the event with which the theme is linked has passed and contains significant original filming and is not limited to the reporting of information;

3.10. GREEN CHAMPIONS

As everyone is aware, protecting the environment and reducing one's carbon emissions are key environment priorities for all of us including the Film Industry. It is recommended that the production implements its own policies that mitigate and considers alternative solutions that contributes towards:

1. Protecting the environment.
2. Reducing its carbon footprint.
3. Reducing its waste generation.
4. Endeavours to introduce recycling measures and methods (e.g., indicating and providing for where designated trash goes, where recycling or other non-trash can be placed: Reduce, Reuse, Recycle).

Calculating the carbon footprint of your production is an important step in understanding the impact of your production and help you to understand and measure your carbon impact.

We all have a role to play in championing sustainable measures. Additionally, we also have a responsibility to change the way we do things, and this includes our behaviour. Alternative solutions and innovation require a shift in mentality and better awareness to break free from our habits and existing practices.

If the production has implemented any one of the following environmental management and sustainability measures and actions, please do provide (prior to commencement and on completion in Malta):

1. Name of Environmental and/or Sustainability Manager (and Team).
2. Carbon Footprint calculator results (preproduction assessment and final on completion).
3. Carbon Action Plan and Environmental Sustainability Measures and Actions (preproduction assessment and Final Report).
4. Transport Optimisation Plan (preproduction assessment and Final Report).
5. Copy of any Green Certificate label (provisional and final).

SECTION 4: TERMS AND CONDITIONS

4.1. LEGAL JURISDICTION

The qualifying company shall ensure that the filming activity and all other activities related to the qualifying production are conducted in accordance with the Laws of Malta.

The Courts of the Republic of Malta shall have jurisdiction on any dispute.

4.2. RECRUITMENT

The qualifying company (or their acting agent in terms of the local service provider) is to ensure that the recruitment of personnel in Malta and Gozo, including recruitment of extra talent, trainees, and the engagement of services in Malta and Gozo, is conducted fairly and without discrimination of any form.

As everyone is aware, there is also a marked growing awareness in the film industry towards the importance of gender equality, inclusion, and equal opportunity at all levels (whether creative or financial). Accordingly, it is recommended that the production implements its own policies and good practices whereby no one should be discriminated based on their gender, disability, sexual orientation, social class, ethnic origin etc.

It is also understood that the mental health and well-being of cast and crew members also requires good practices bearing in mind the intense periods with long hours away from family and friends which can in turn have an impact on those working for the production; thereby the production has a duty of care to ensure that it also has policies and good practices in place in terms of awareness and prevention to cover bullying, harassment, violence and mental health as a result of working on and or off set.

The qualifying company and its representative are encouraged to recruit crew members and trainees in Malta from the Malta Film Commission's "Opportunity for All" Programme.

4.3. TRAINEES

The "Opportunity for All" programme, is the Malta Film Commission's initiative to ensure the continuous professional development of established crews as well as the induction of new crew members into the industry. Through this programme and following discussions with the qualifying company, the Malta Film Commission will ensure that a number of trainees positions are taken up. This will be discussed on a case-by-case basis to identify needs and available opportunities. A minimum requirement of five (5) trainees from the "Opportunity for All" Programme will be expected.⁴³ Trainees are expected to be provided with a remuneration not less than the national minimum wage.

Proviso: For Animation/VFX activities including post-Production works, these obligations will be discussed according to the project requirements.

In accordance with relevant exemption to the Income Tax Act, actors, and front of camera persons, are given a favourable tax rate set at **ten percent (10%)**.

If subject to any Income Tax, as outlined in the relevant exemption to the Income Tax Act, a favourable tax rate is set at **fifteen percent (15%)** on their remuneration allocable to activities in Malta.

If no Double Taxation Agreement between countries exist, it is recommended that further advice is sought from the Office of the Commissioner for Revenue as persons in concern will be liable to pay tax for their remuneration allocable to activities in Malta.⁴⁵

Any non-resident film crew (including Producers and Director/s) who are put on a local payroll for less than 183 days will be exempt from having social contributions deducted in Malta and the employer does not need to contribute towards the employers share if in receipt of the relevant A1 certificate (EU/EEA/UK crew) or proof that their social contributions are paid where they are domiciled.⁴⁶

Any tax paid in Malta can then be claimed as double taxation relief against the tax payable in the country of domicile on that same income; in accordance with relevant DTA.

Although subject to the normal tax rules, employment of local extras would usually be part-time employment for tax purposes, and in that case a withholding tax of **ten percent (10%)** would apply instead of the normal tax rates.

6.2. AUDITOR'S REPORT

On receipt of audit report and upon final review by the Film Commissioner, a 'Final Certificate' will be issued. The qualifying company is to then provide the Malta Film Commission, as requested, with an updated final State Aid Declaration declaring any state aid received in respect of the qualifying production. The Film Commissioner reserves the right to request further information or clarification relating to State Aid obligations and any State Aid Transparency measures concerning any future monitoring exercise imposed by the EU or the State Aid Monitoring Board.

The cost of the review audit together with administrative fees will be borne by the applicant. The cost will depend on the overall **eligible spend**. The cost shall not exceed 0.5% of the actual Eligible Spend, with a minimum cost of €5,000 and capped at a maximum €30,000. This amount will be deducted from the final cash rebate.¹²⁰

6.3. PAYMENT OF THE CASH REBATE

The cash rebate is forwarded to the qualifying company¹²¹ no later than **five (5) months** from the date of receipt of the 'final submission' as outlined herein. This is subject to:

1. the final submission having been presented in an orderly manner, clearly cross referenced as per proper accounting practice and supported by requested documentation as outlined herein, and
2. the auditors are clearly satisfied with the integrity of the traceability chain and that any further testing or information they require has been answered within a sufficient timeframe.

¹²⁰ In the case of any interim claims the audit fee will be deducted proportionately. Final audit/administrative fee will be recalculated on the final audit report and take into consideration any deductions made for any interim audit claims.

¹²¹ As per application and ultimate beneficiary. Should any payment be affected to a 'Third Party' on behalf of the ultimate beneficiary, clear instructions must be in place. Kindly seek guidance from the MFC in this respect.

3. In the case where the Film Commissioner has any doubts regarding the auditors' findings; he reserves the right to ask for a further review, further investigations and/or for a reassessment of the final submission from another independent auditor, if necessary, until satisfied with final findings.

The Film Commissioner reserves the right to prohibit the payment of ten percent (10%) of the cash rebate if the qualifying company does not abide and fails to fulfil any of the obligations as outlined in these Guidelines, the Provisional Certificate, and the Final Certificate.

ANNEX 1: LOCAL CREW BASE

Malta's Financial Incentives for the Audio-visual Industry encourages foreign productions to contract local crew based in Malta and Gozo.

5% out of the 40% that Malta offers as cash rebate to foreign eligible productions shooting in Malta is concentrated on 'Maximisation of local resources', as outlined in Section 3.4.1 Table A. For this reason, this Annex aims to provide guidance of what is expected from a foreign qualifying company when contracting local crew to work on a qualifying production in Malta.

Minimum percentages listed below provide a clear indication of the crew depth available in Malta in each of the departments mentioned, full list of specific designations within each department that our local workforce can offer at an experienced and professional level can be found in accordance with the MFC's "Opportunity for All" Directory listings and designations¹²².

The above department listings are represented in no particular order.

As outlined in Section 3.4.1 Table A, for a qualifying production to be eligible in the 'Maximisation of local resources' based on Maltese Cultural Elements, the above minimum percentages and specific designations for each department should be filled by members from our local workforce, **if and when applicable**.

¹²² Kindly ensure that all crew are correctly listed and match relevant designation as found on engagement contract, call sheet, unit list, budget, and screen credits. Full unit list and final screen credits will be required.

Should a qualifying company fail to reach the above minimum percentages and fill the specific designations for each department with our local workforce, the qualifying company may revert to compensating the remaining number of crew required with foreign personnel subject to providing a valid justification to the Malta Film Commission.

In good faith, the Malta Film Commission reserves the right to vet such justifications for further verification.

As outlined in Section 3.4.1 Table A, upon satisfying the 'Maximisation of local resources' criteria, a qualifying production becomes eligible for a further 5% of the incentive, inclusive of the 40% Cash Rebate.
